

Public Works Construction Standards

PUBLIC WORKS CONSTRUCTION STANDARDS- North Central Texas

This publication replaces the former editions of Standard Specifications for Public Works Construction – and also includes the Standard Drawings.

The use of the *PUBLIC WORKS CONSTRUCTION STANDARDS* throughout the region will accomplish the following:

- **Minimize Local Standards**
- **Promote Quality Infrastructure**
- **Reduce Construction Costs**
- **Simplify the Bidding Process**

The **PUBLIC WORKS CONSTRUCTION STANDARDS** Publication represents over two decades of volunteer efforts of public works professionals to develop uniform standards for public works construction in the region.

PUBLIC WORKS CONSTRUCTION STANDARDS are kept up-to-date and new technologies are reviewed through committees comprised of both public and private public works professionals from the region. For questions regarding the content of this Publication, contact Samuel Morrall at 817-704-5667 or smorrall@nctcog.org.

For more information or to place an order, contact Janet Smith at the **NCTCOG Regional Information Center** at 817-640-3300 or jsmith@nctcog.org.
