

# The City of Fort Worth **BUILDABLE LANDS INVENTORY:** Where to Start Digging

*2024 NCTCOG Regional GIS Conference (May)*

**Korrie Becht | Luis Vazquez | Cauner McDonald**

# Agenda

## Background

## GIS Workflow

- Input Datasets
- Vacant Land Analysis
- Underutilized Land Analysis

## Draft Results

## Next Steps

# Project Goal

Identify *undeveloped* or *underutilized* land by analyzing and mapping key land use factors in GIS,  
**to support Fort Worth growth in a strategic manner through data-driven decisions.**

# Why Use Buildable Lands Inventory?

1. Highlights existing **undeveloped** or **underutilized** land at the parcel level
2. Identifies where municipalities can optimize **infrastructure investments** by focusing growth in strategic locations
3. Allows more **cost-effective** allocation of resources and delivery of services

# Estimated Population

Fort Worth ranks...

1<sup>st</sup> in growth rate\*

13<sup>th</sup> in population

17<sup>th</sup> in density\*

\*of the top 20 cities by population

Source: U.S. Census Bureau, 2022

# Projected Population

1,206,000 people by 2045\*

20.7% growth in less than 25yrs

How do we plan for this growth?

\* = NCTCOG, 2022

Source: U.S. Census Bureau, 2022

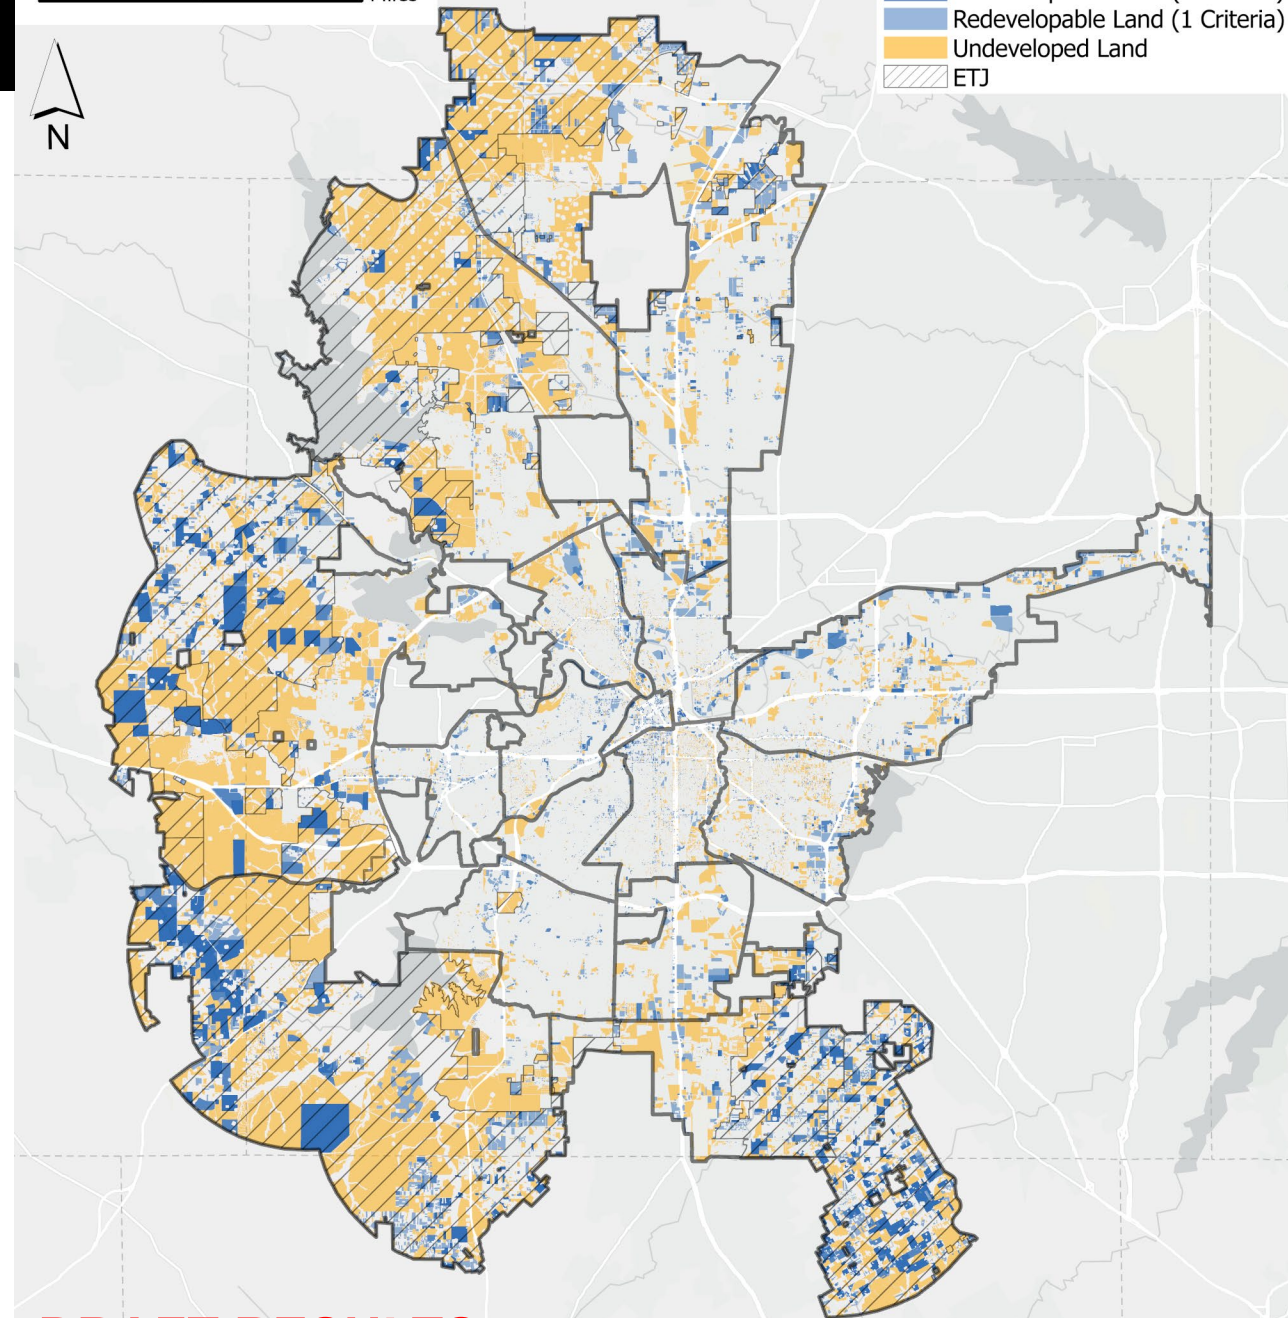

# Land Suitable for Re-Development or New Development

- Redevelopable Land (3 Criteria)
- Redevelopable Land (2 Criteria)
- Redevelopable Land (1 Criteria)
- Undeveloped Land
- ETJ

City Limits + ETJ		
Category	Acreage	Percent
Total Land Area	386,042.61	100%
Gas Wells	-9,057.29	-2.35%
Utilized Land	-194,535.02	-50.39%
Constrained Vacant Land	-22,941.44	-5.94%
Infrastructure Set-Asides*	-25,058.75	-6.49%
Redevelopable Land	+51,384.09	+13.31%
Developable Vacant Land	+83,066.02	+21.52%
Net Developable Land	134,450.11	34.83%

\*25% of Vacant Land for Outside Loop-820 Planning Sectors

**DRAFT RESULTS**

# Agenda

Background

**GIS Workflow**

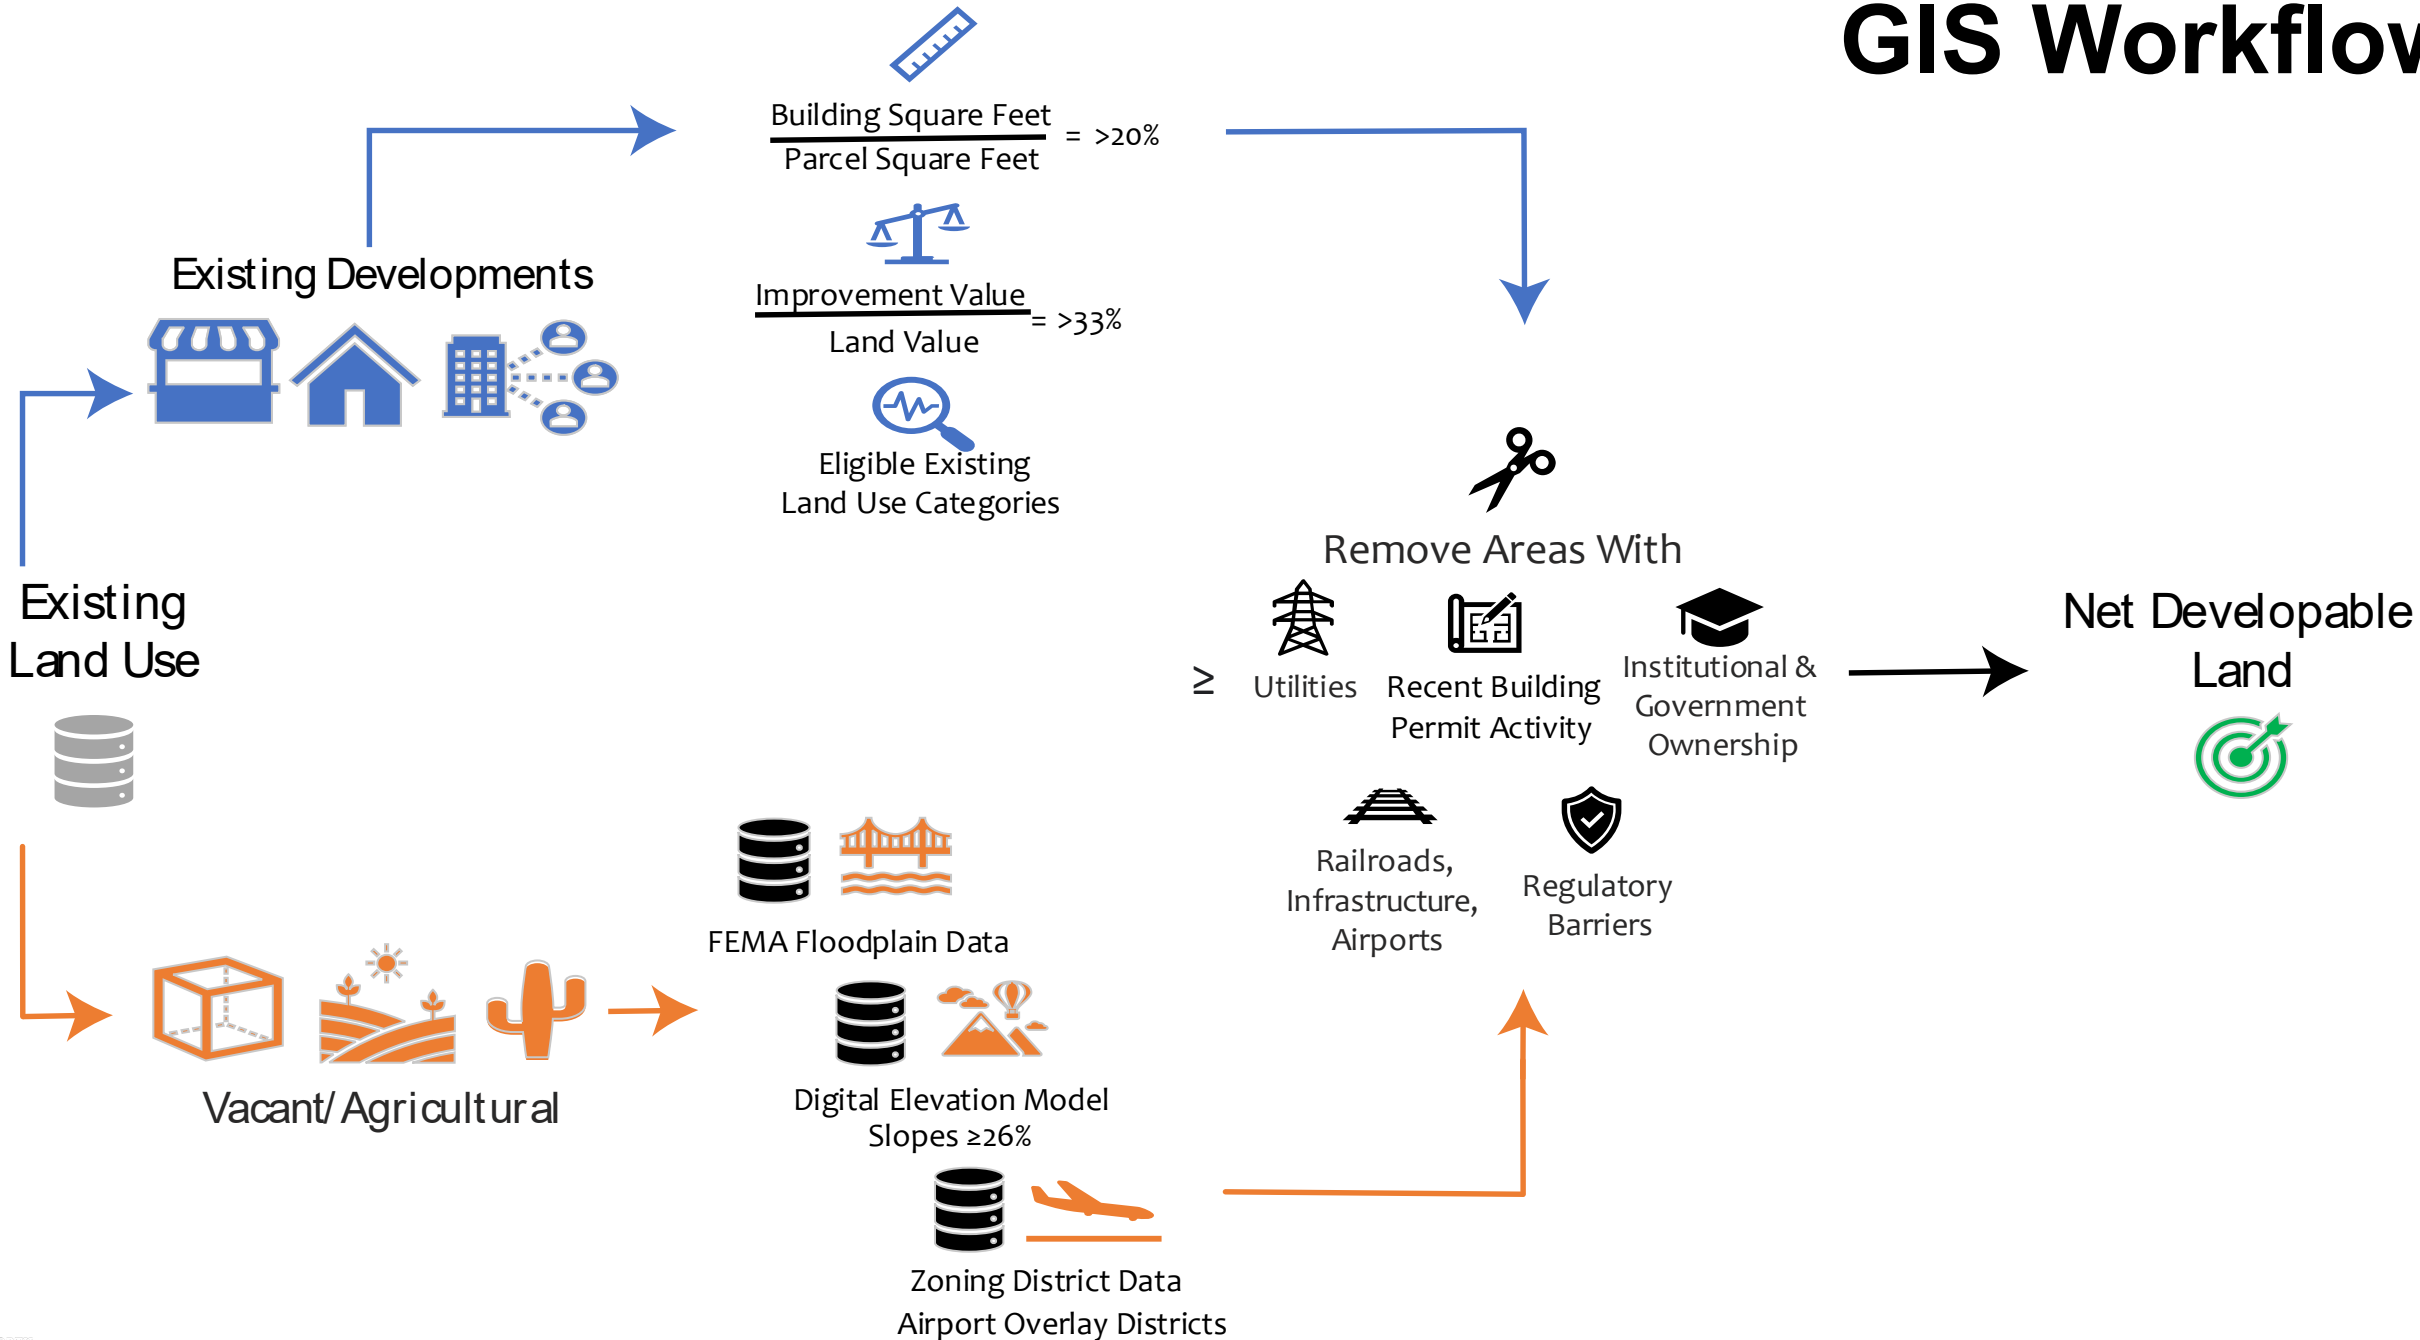

- Input Datasets
- Vacant Land Analysis
- Underutilized Land Analysis

Draft Results

Next Steps

# GIS Workflow

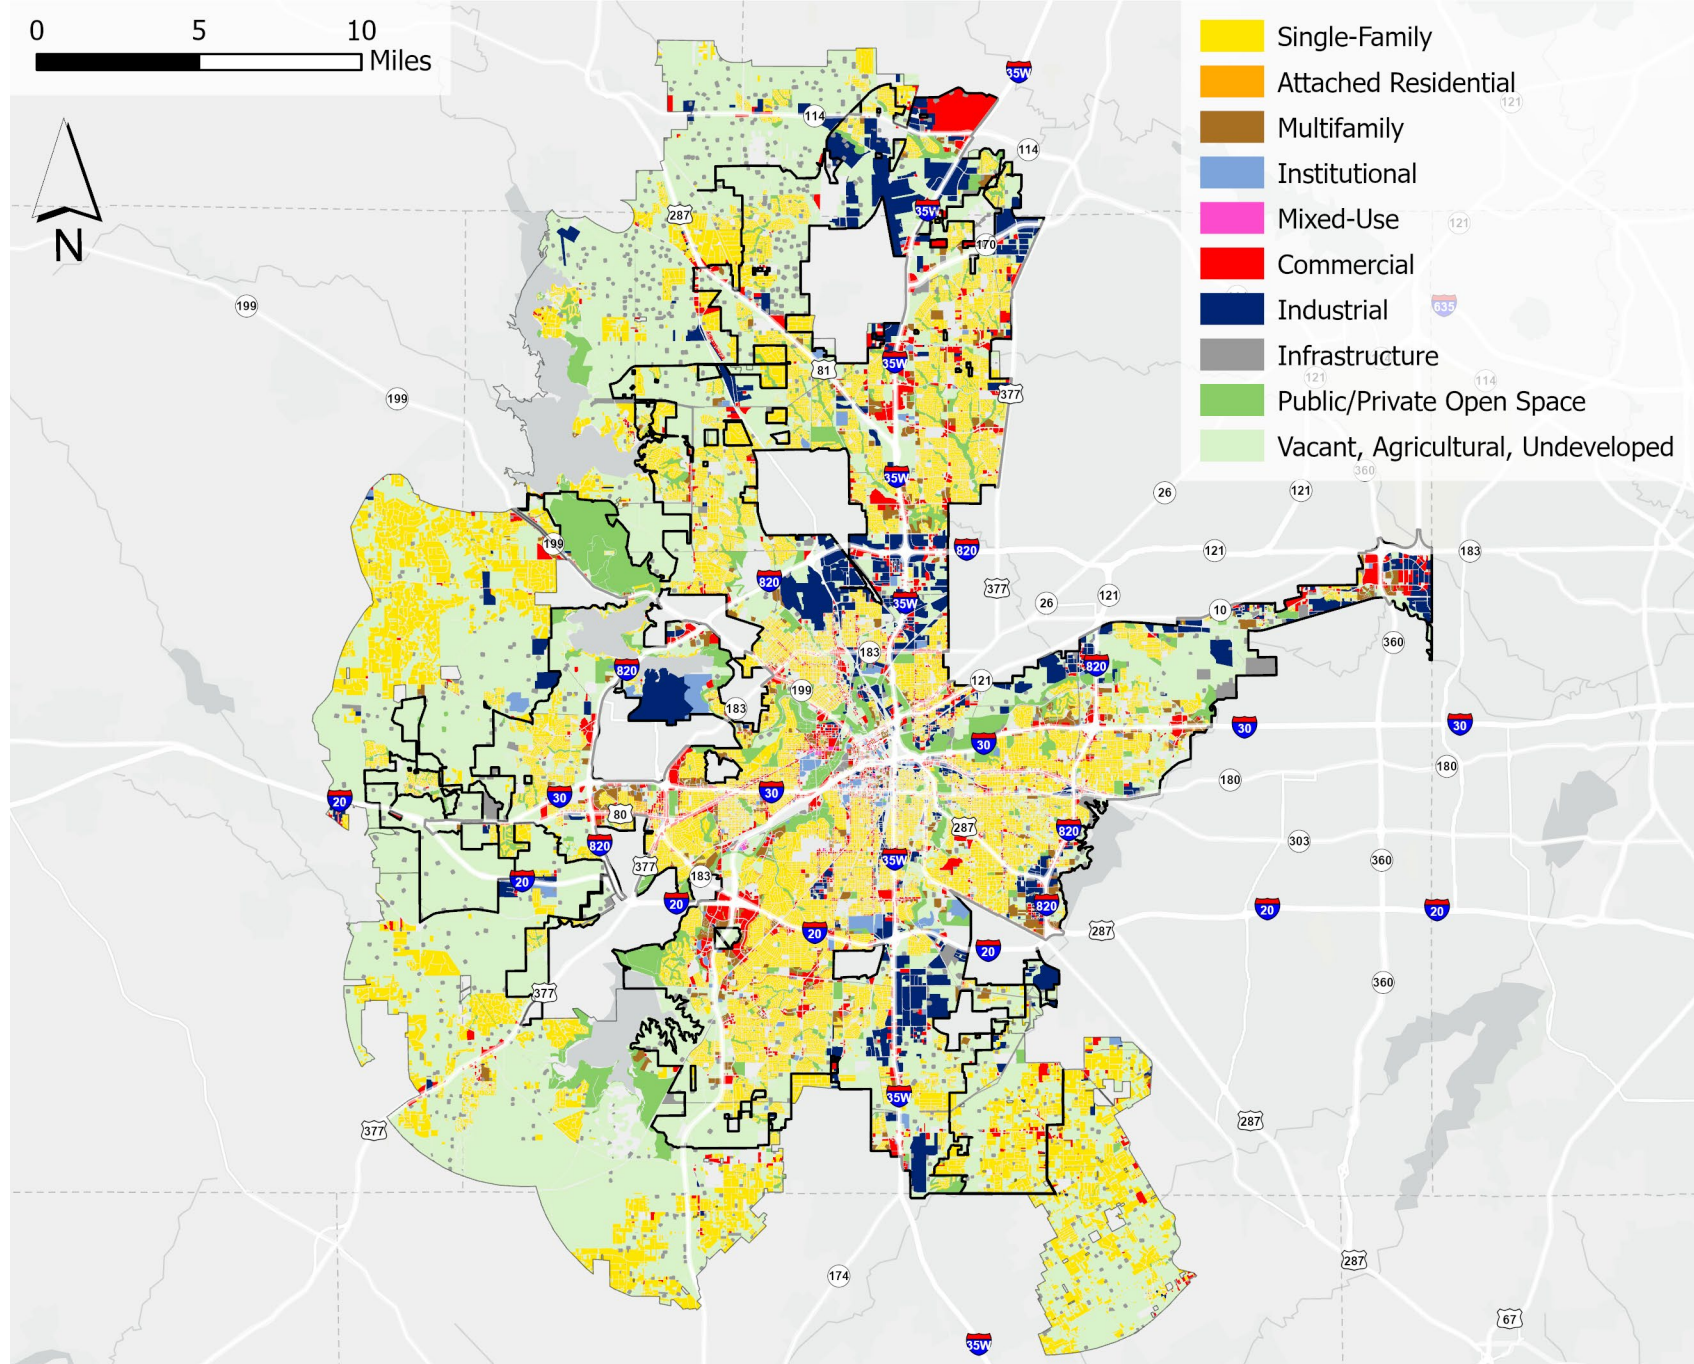

# Foundational Input Datasets:

- ✓ Existing Land Use
- ✓ Neighboring County Parcel Data
  - ✓ Digital Elevation Model

# Existing Land Use (ELU) Designations: 2023

\* City Limits Only

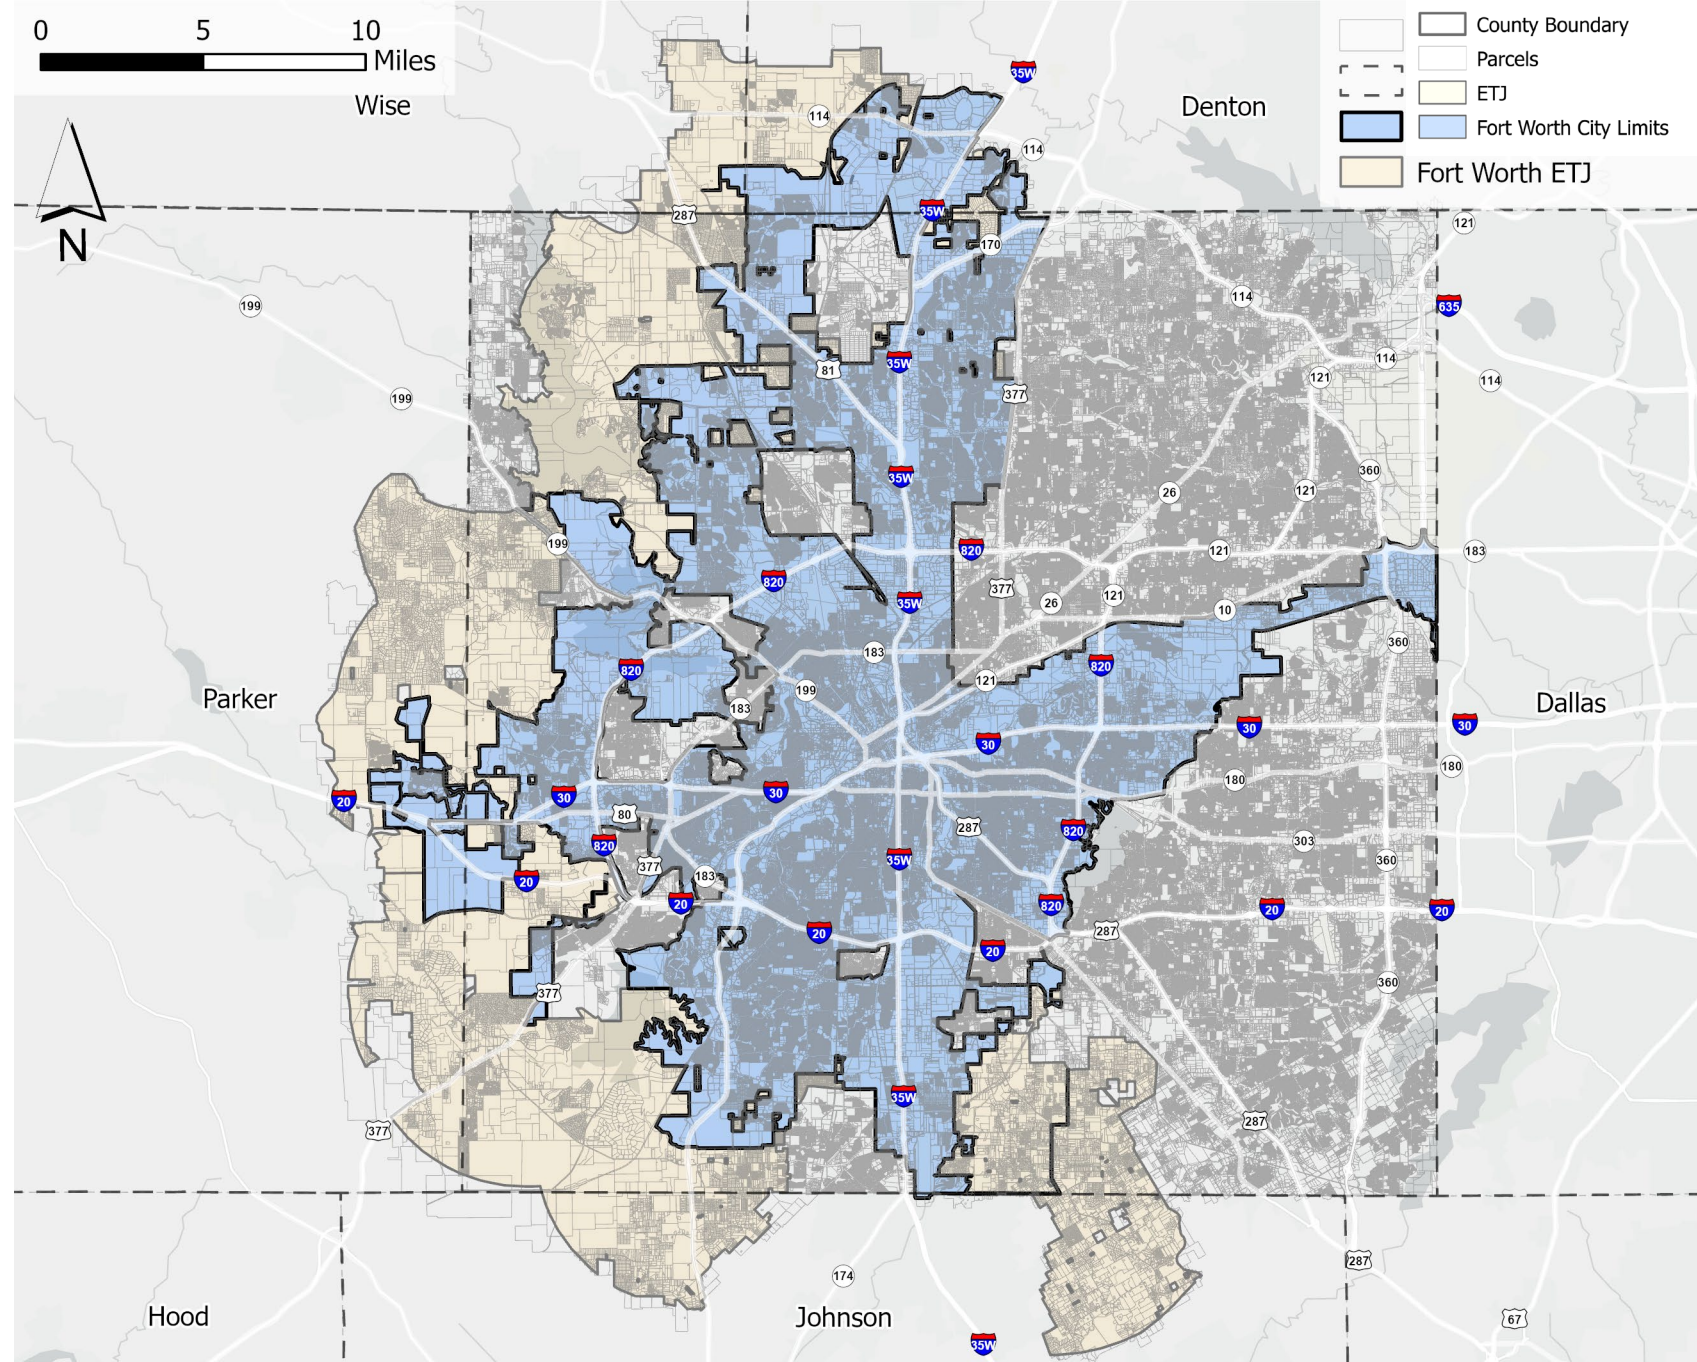

# Land Parcel Data Needs

## Chief Challenges:

- Area of Interest covers five counties
- Each county has unique data
- Meeting all business needs:
  - Address validation
  - Property value data accuracy
  - Land use coding
  - Speed
  - Proper spatial associations

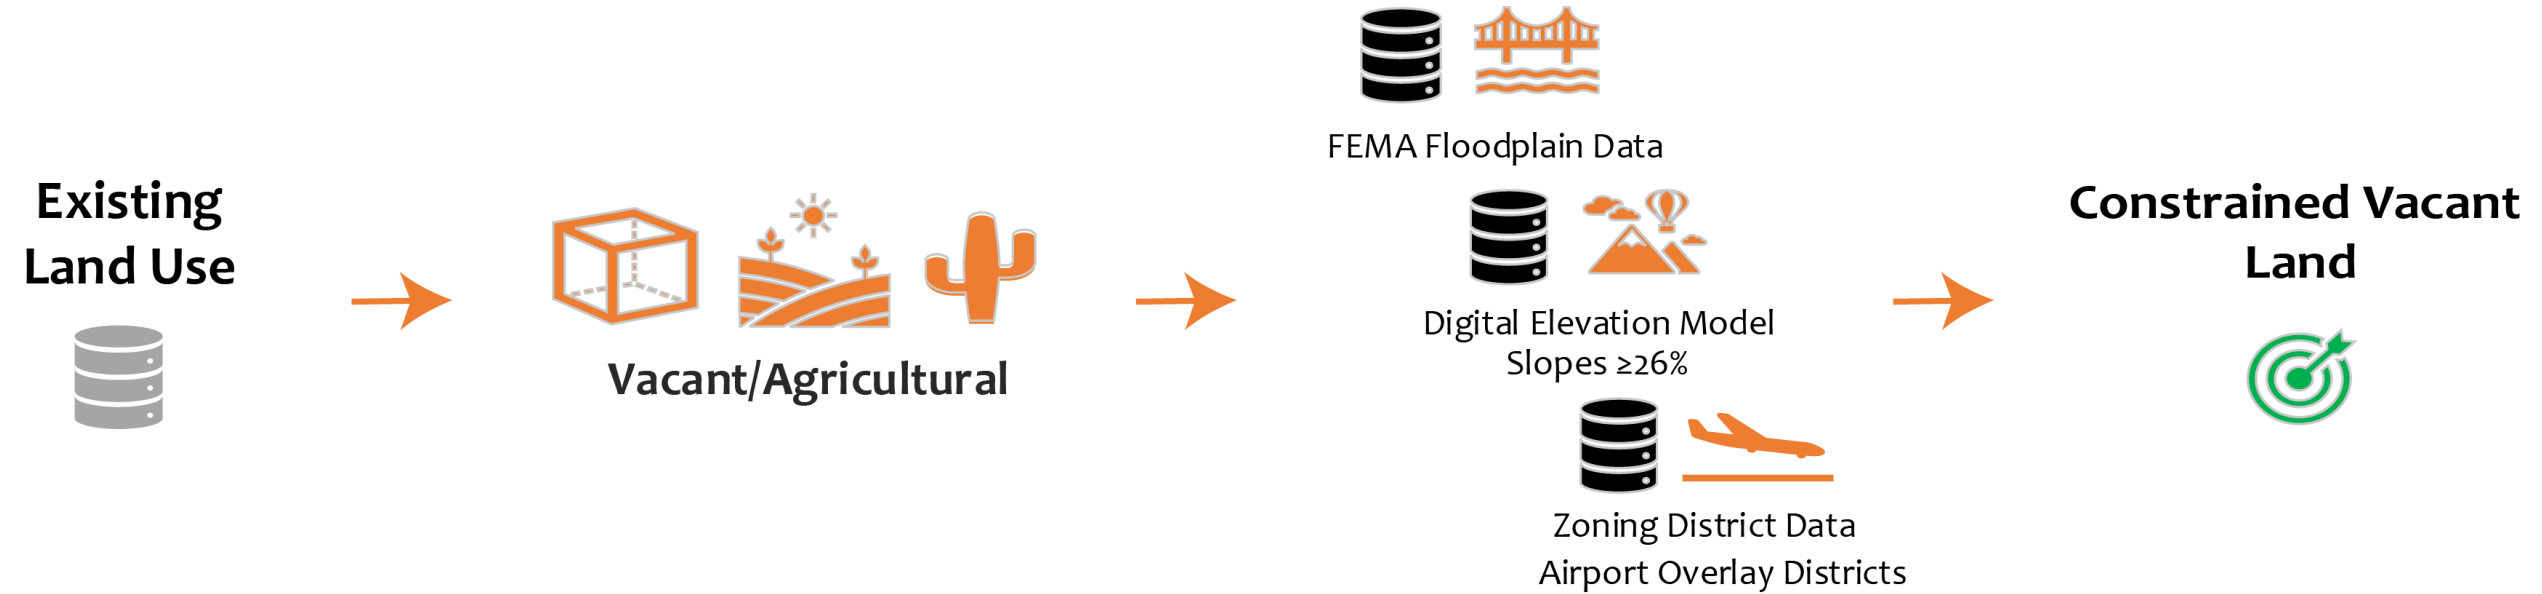

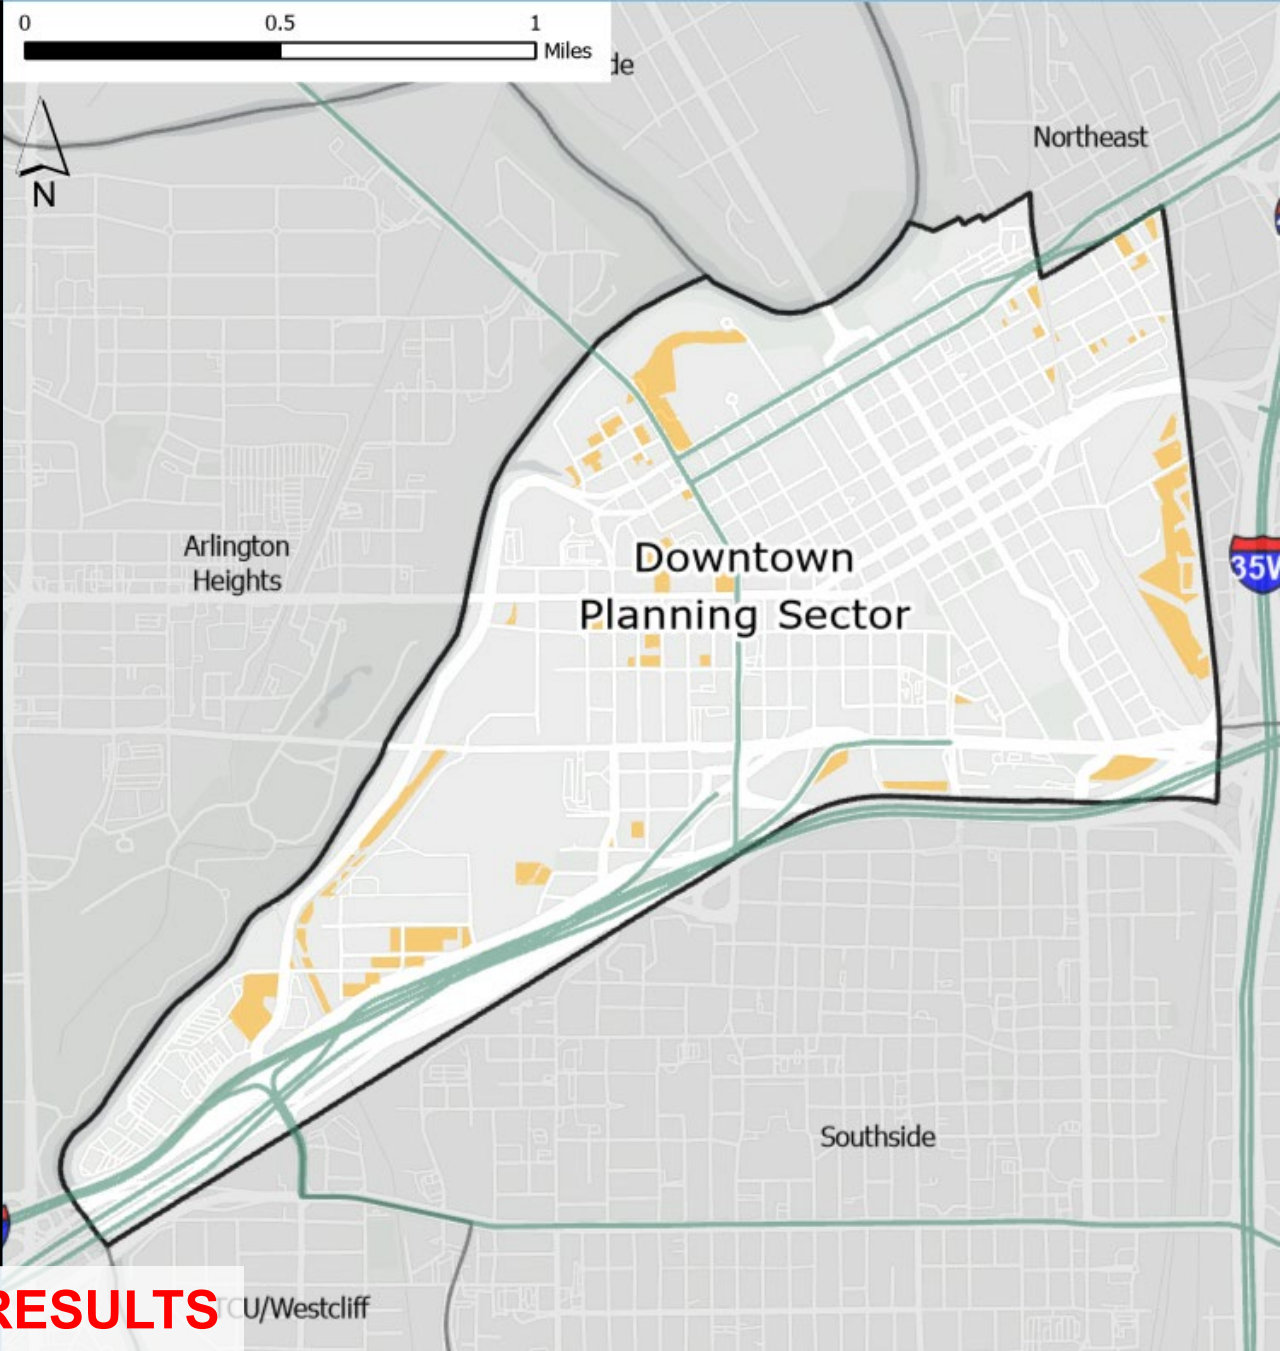

# Input Datasets Digital Elevation Model (DEM)

# Vacant Land Workflow

**DRAFT RESULTS** TCU/Westcliff

**Vacant Land with Constrained Land Removed**

# Parcel Utilization Workflow

Automation  
Pending

1. Calculate Building and Parcel Acreage

2. Spatial Join

3. Calculate Parcel ID

4. Python Code Sums Acreage Per Parcel ID

5. Python Code Exports CSV

6. Join CSV to Parcel Table

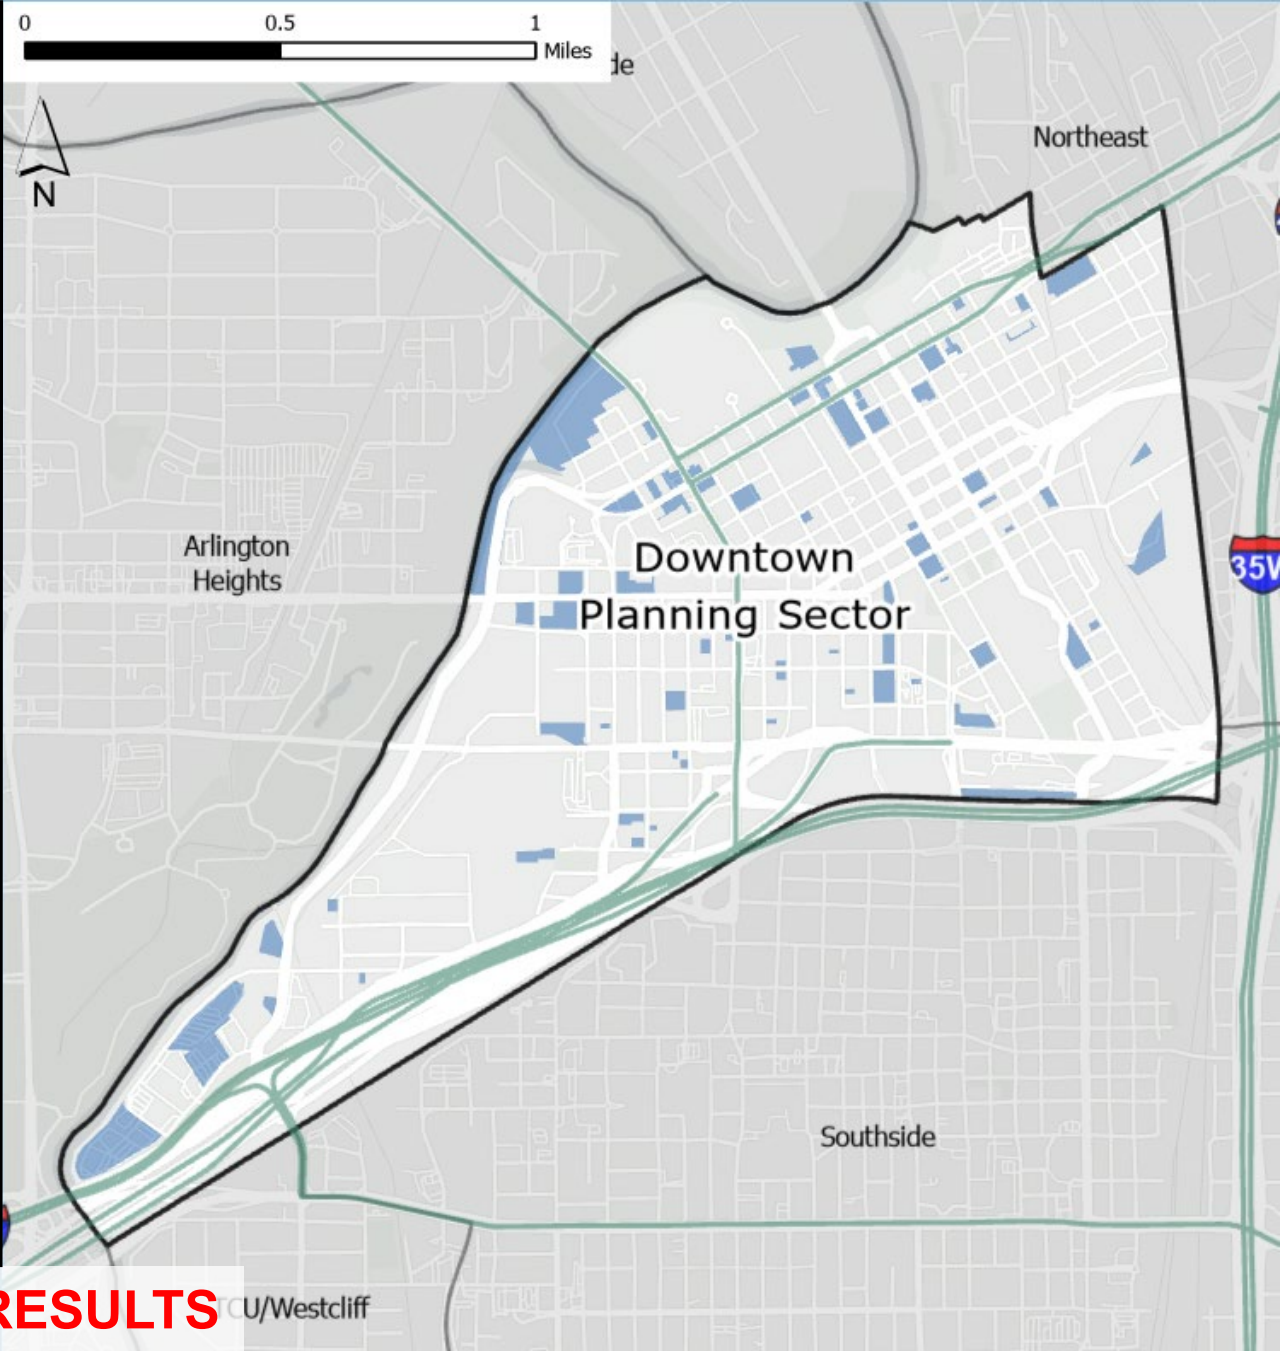

7. Calculate Building Acreage in Parcel Dataset

8. Calculate Parcel Utilization Ratio between Building Acreage & Parcel Acreage

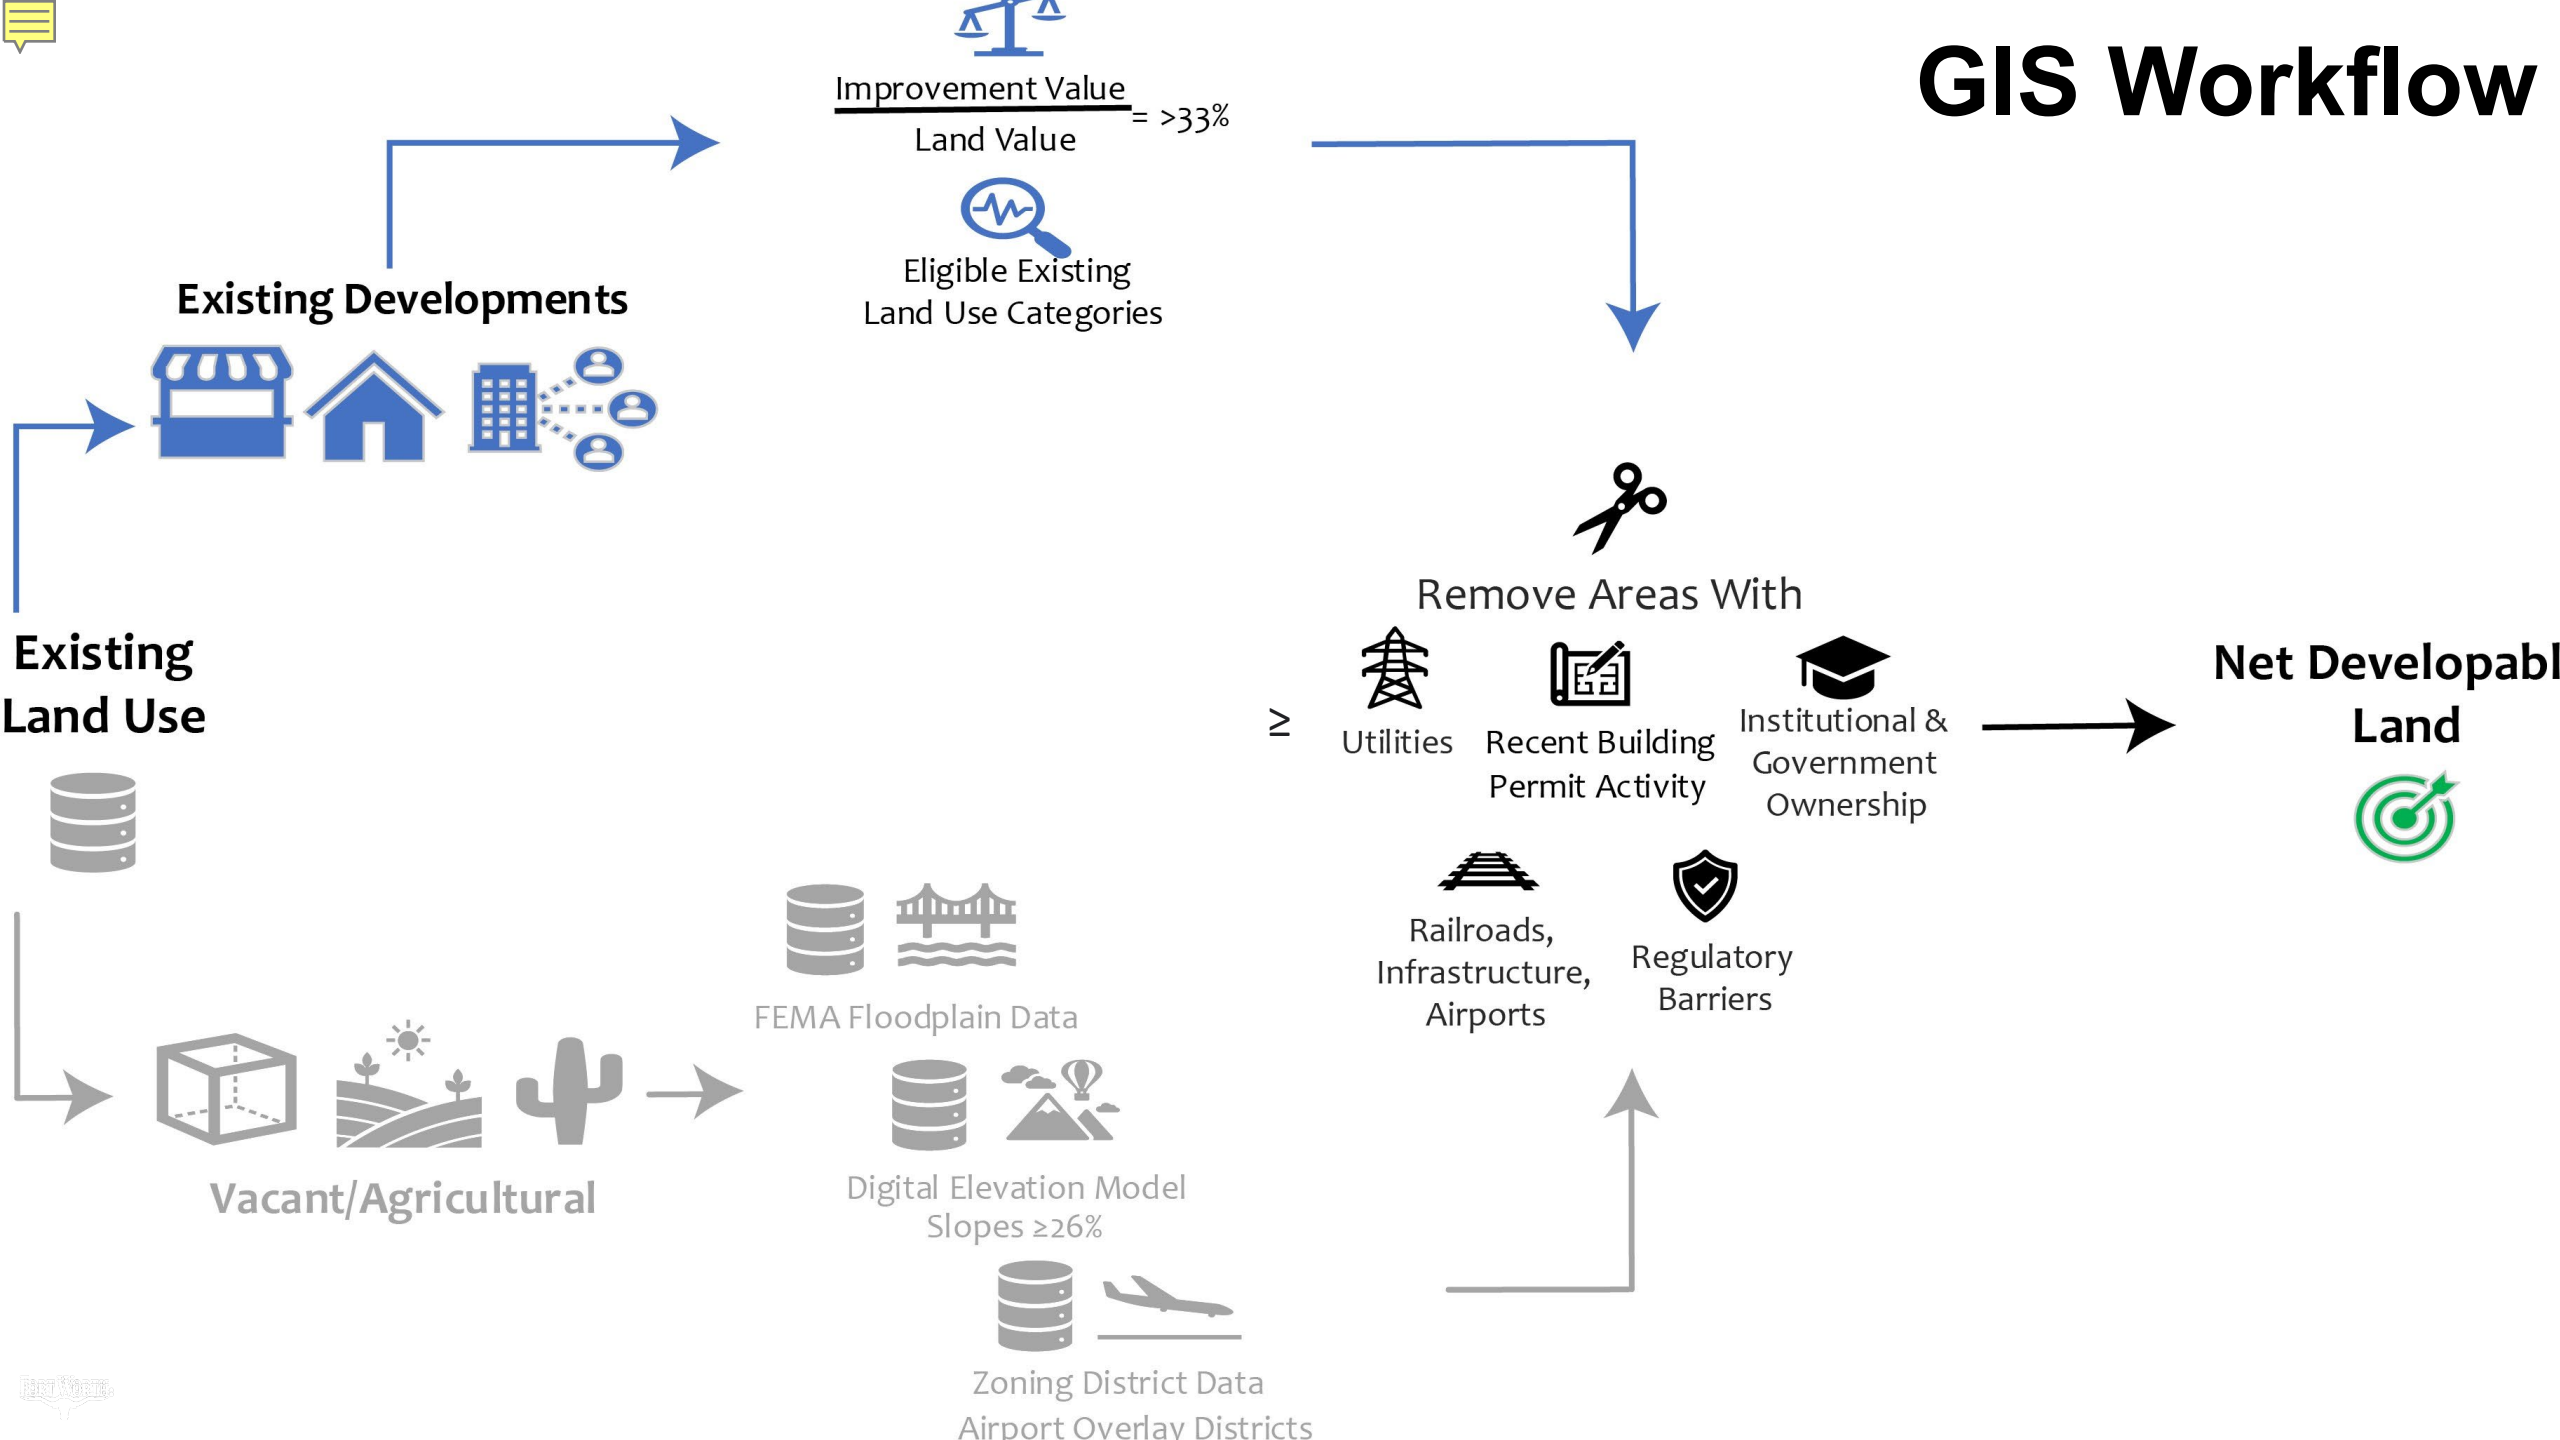

**DRAFT RESULTS** TCU/Westcliff

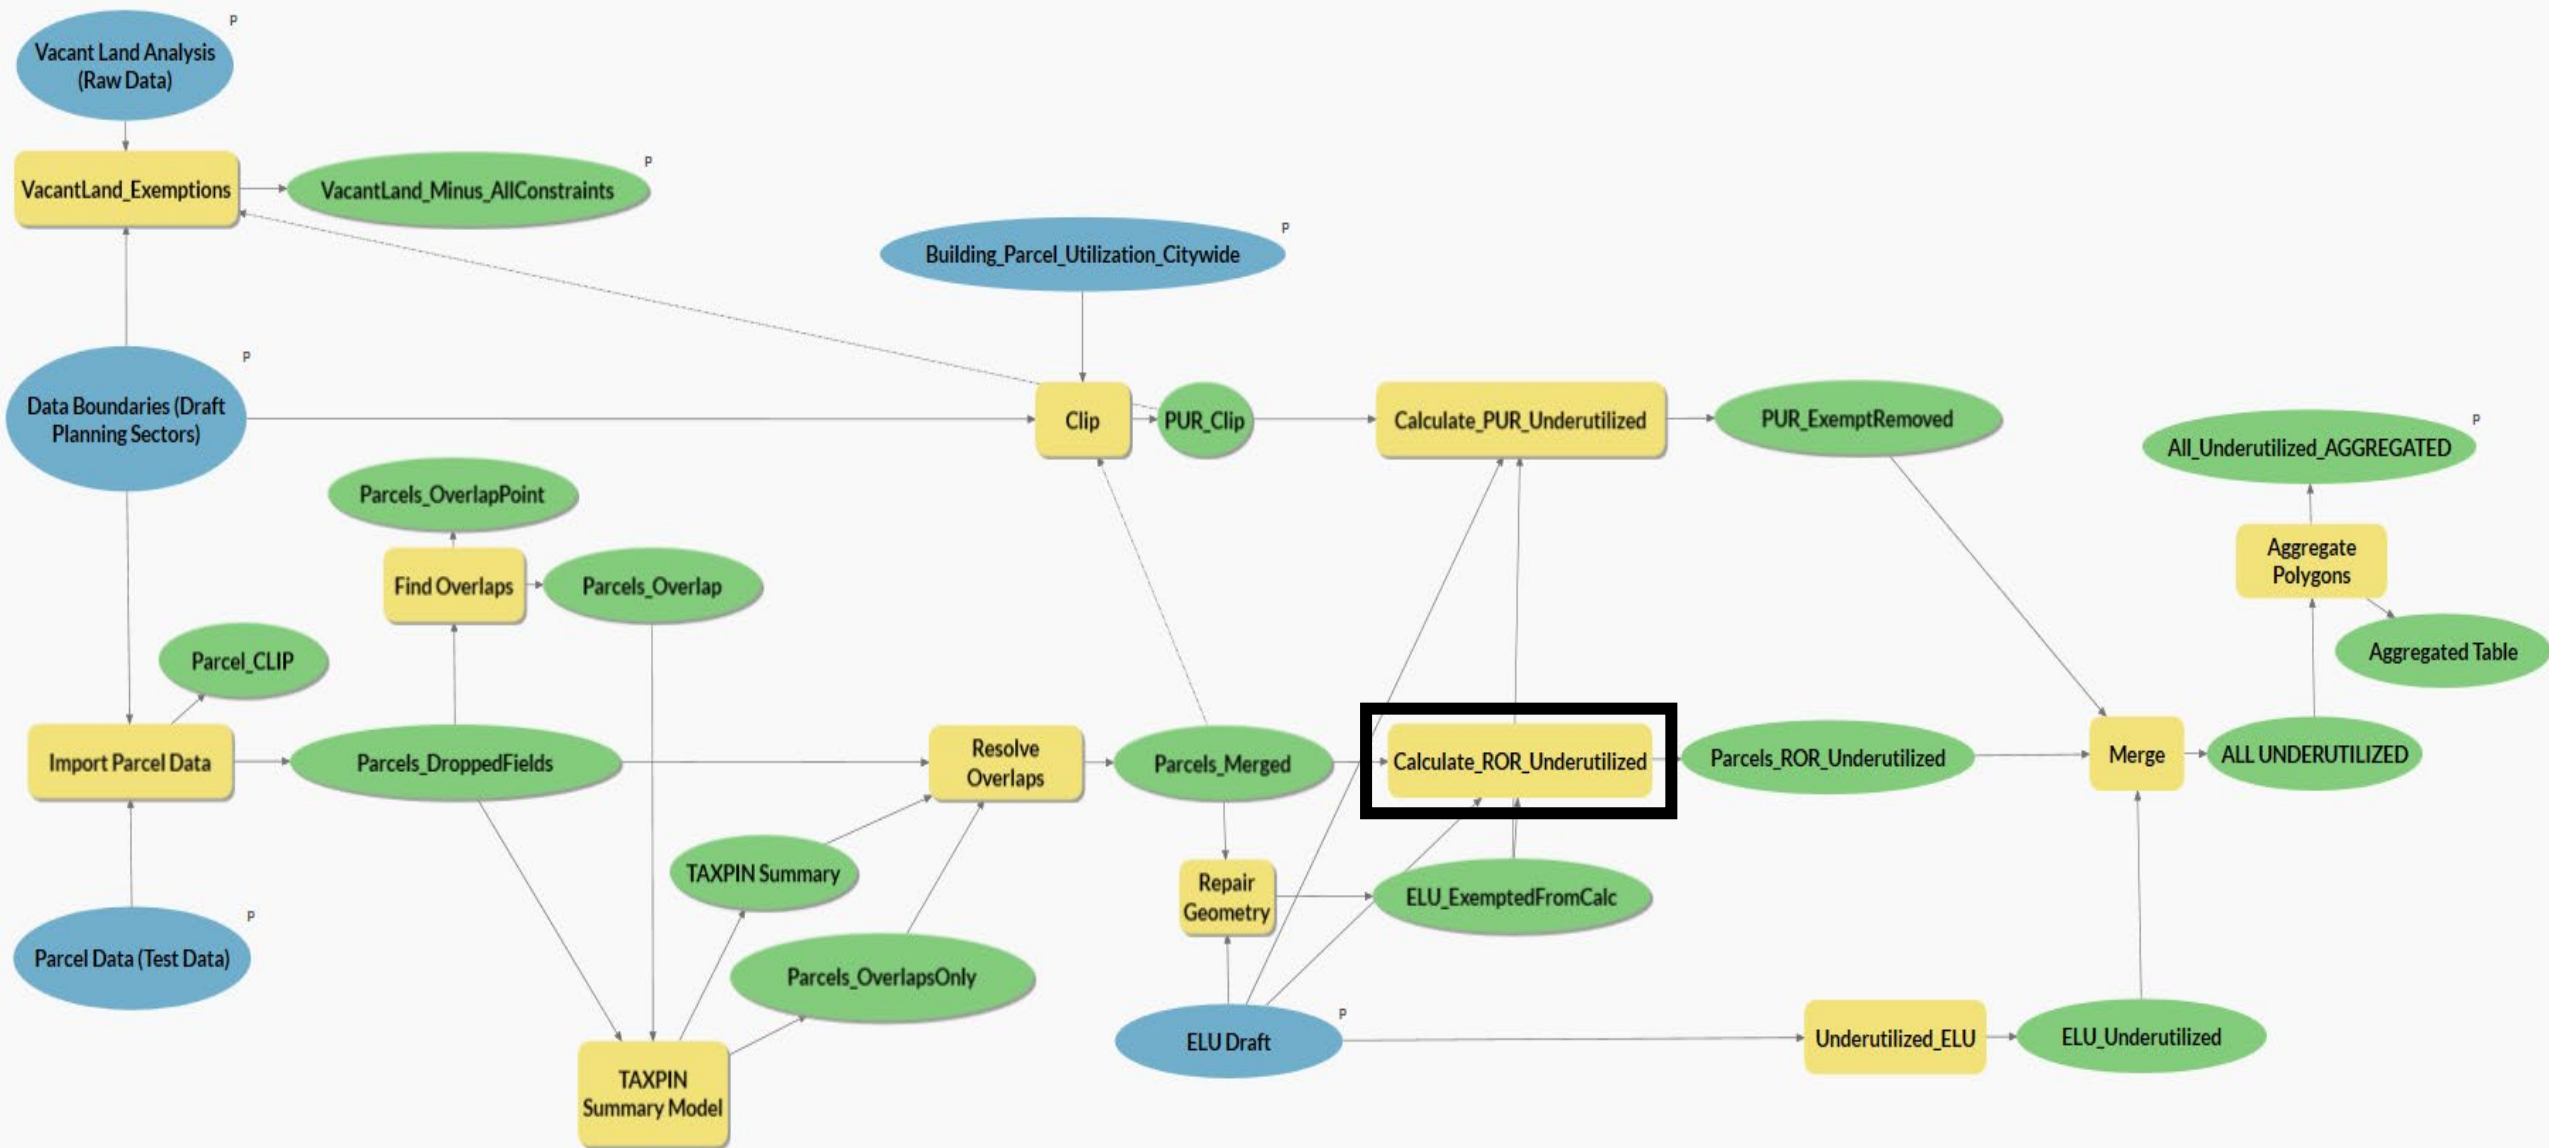

# Parcel Utilization Ratio

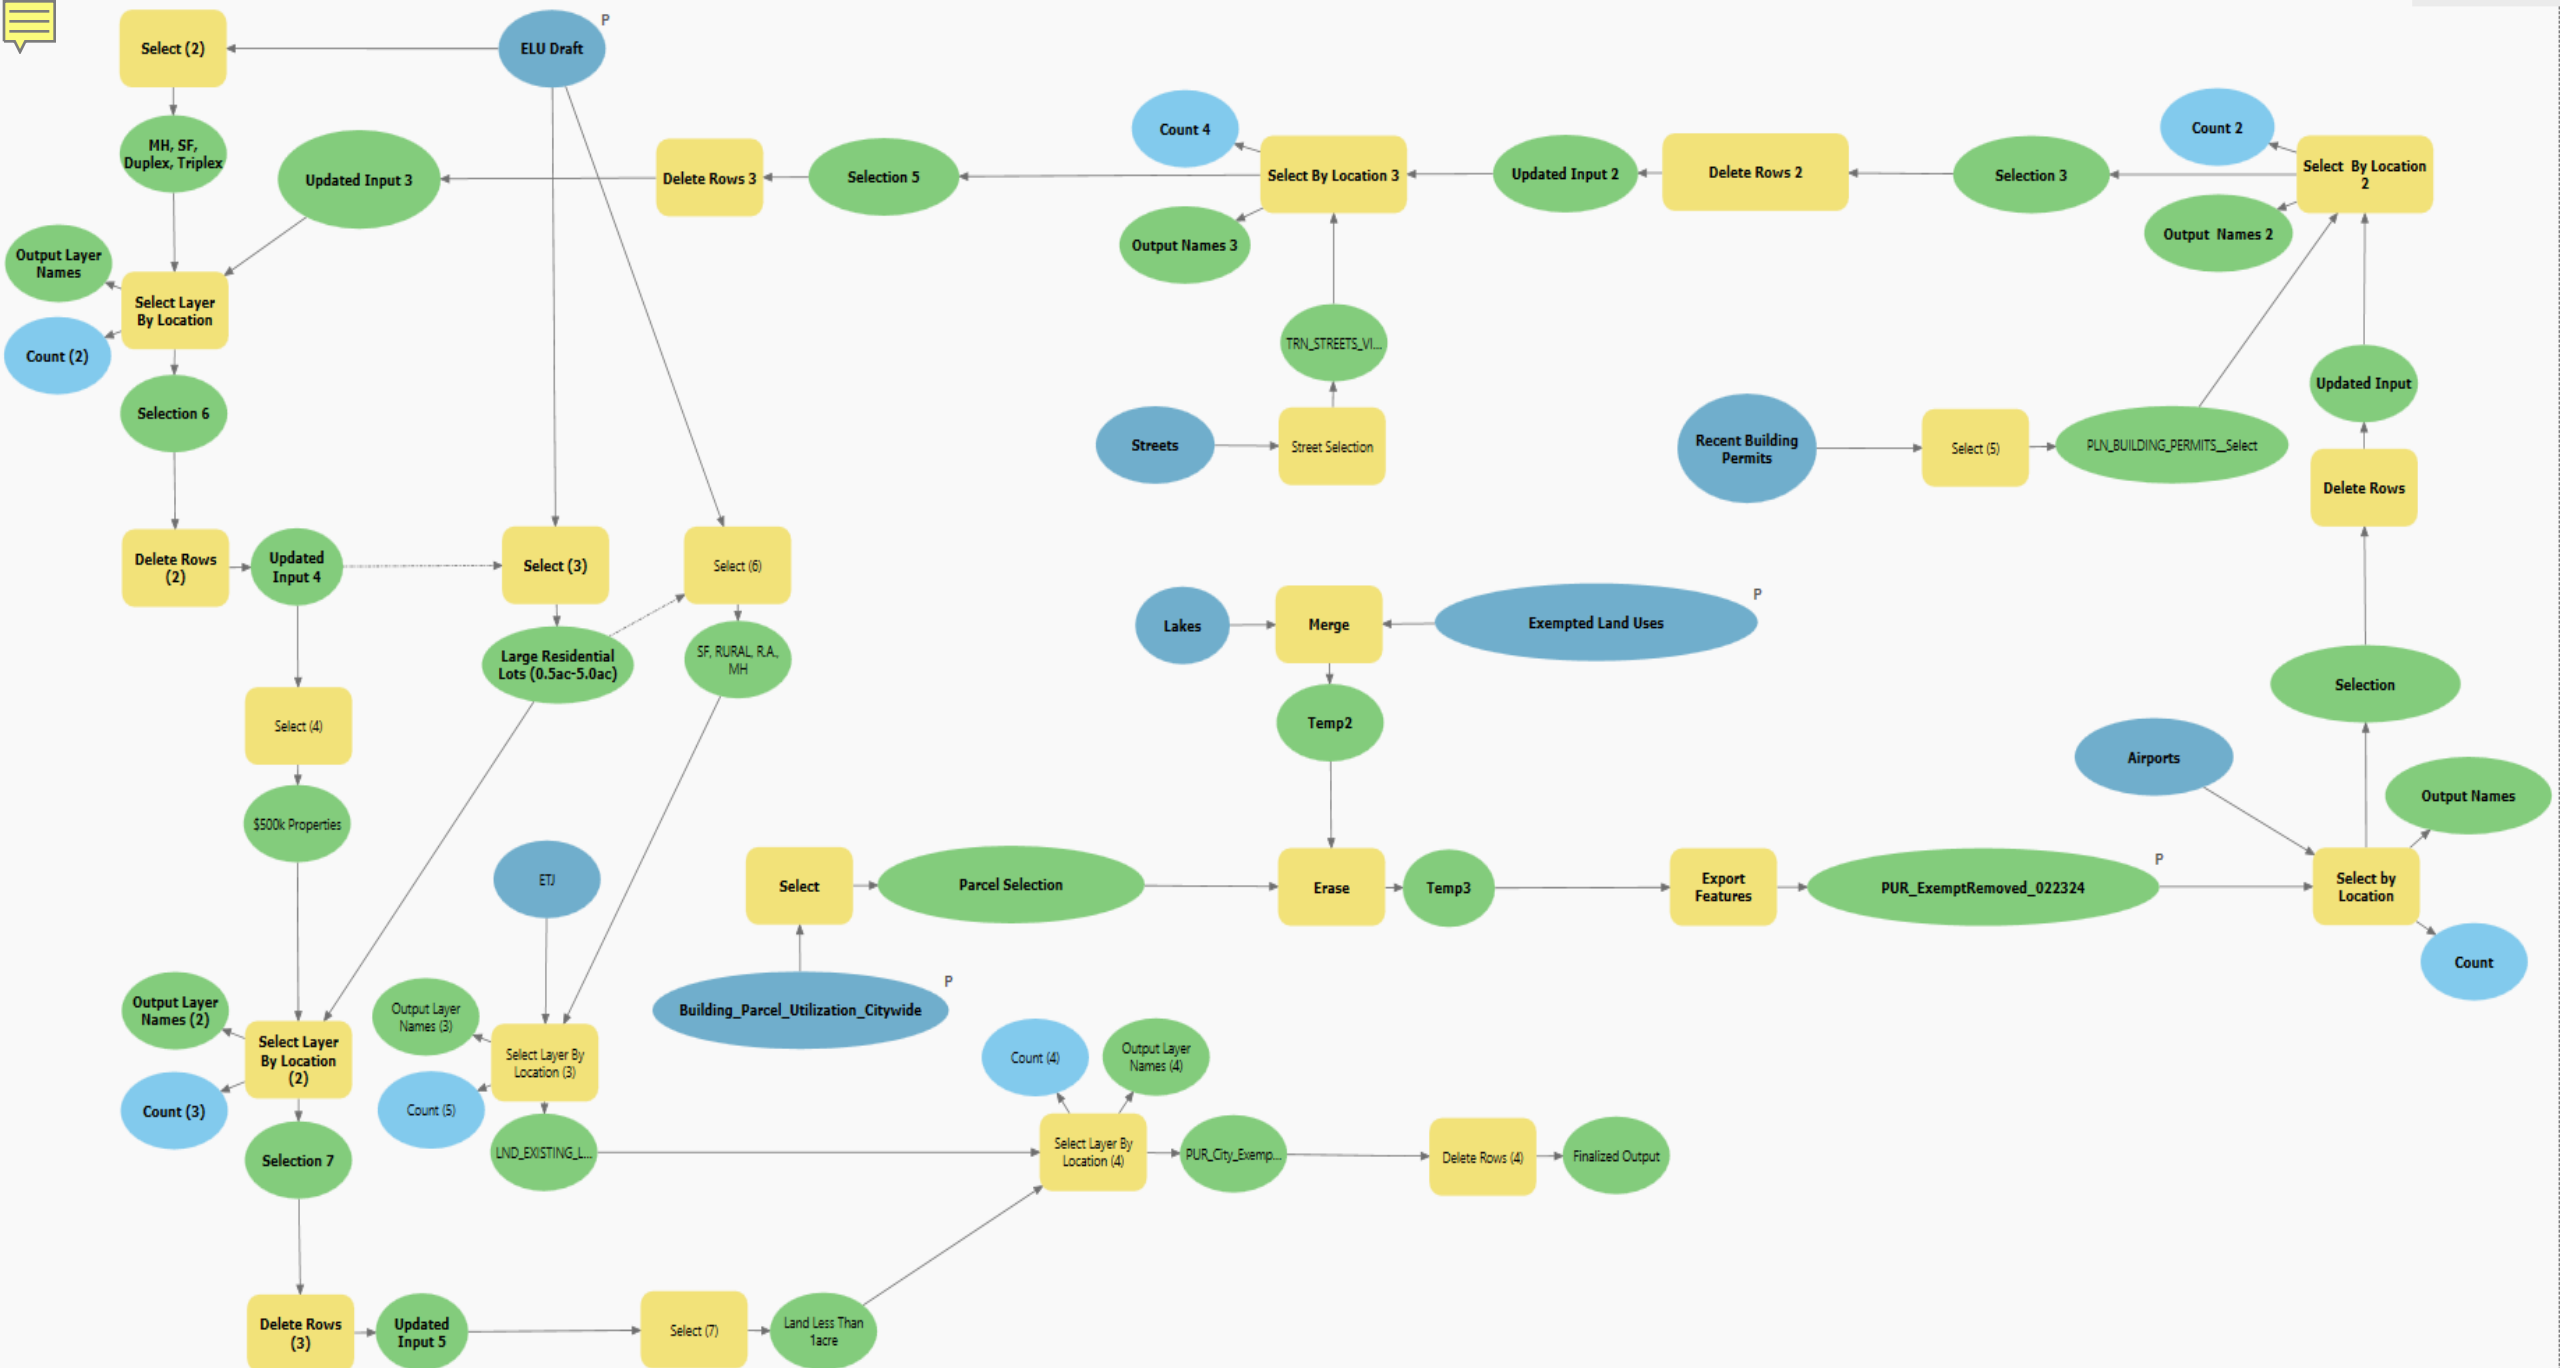

# GIS Workflow

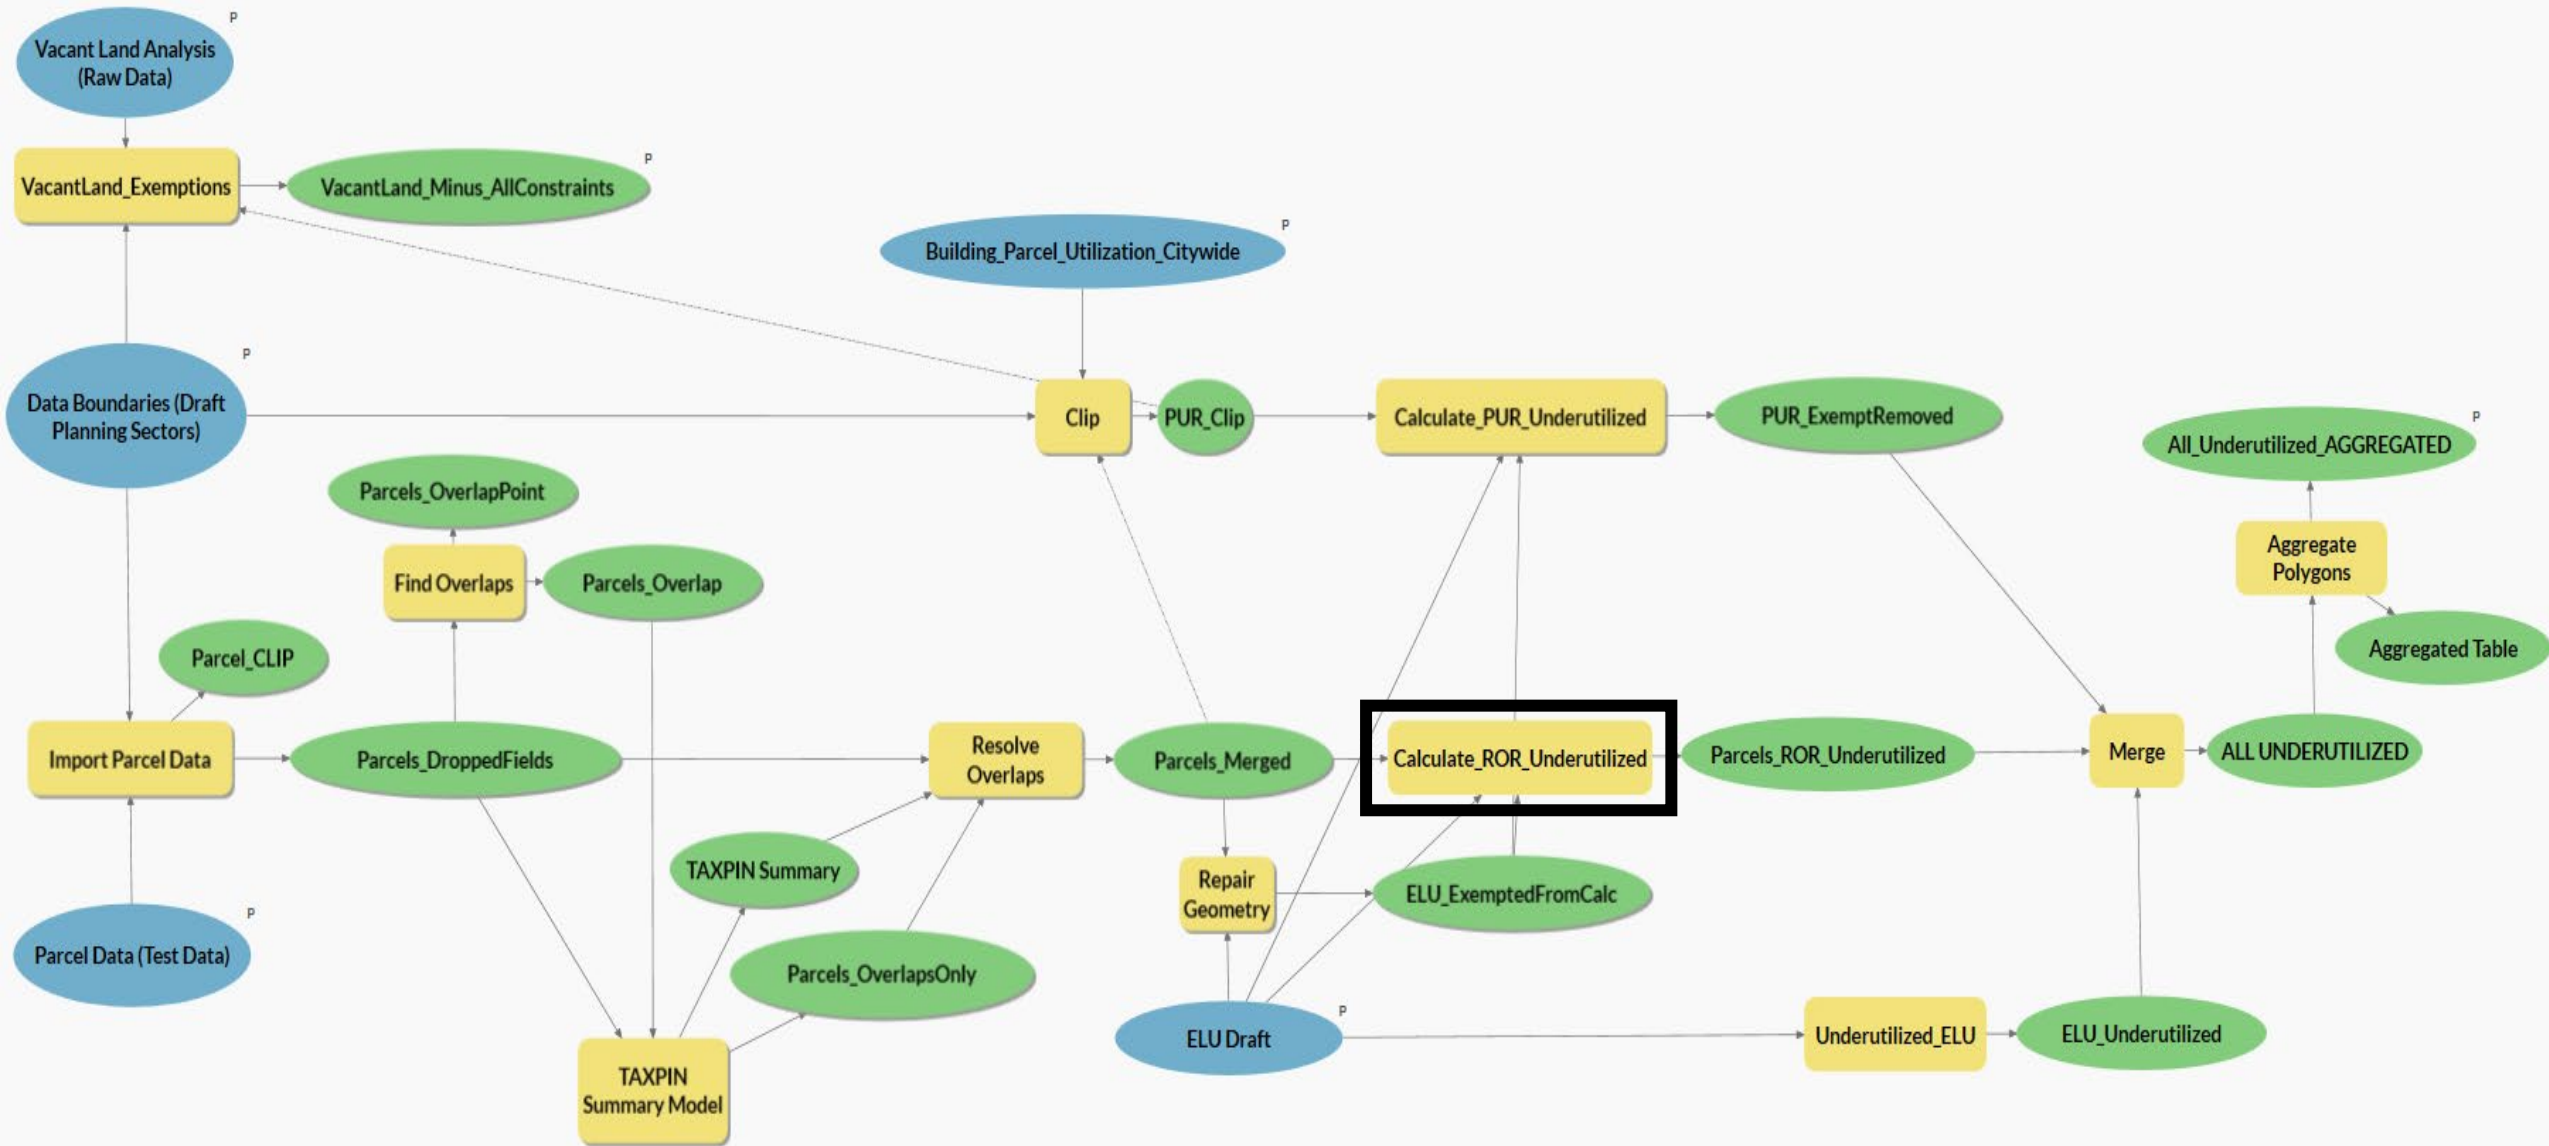

# Model to Calculate Underutilized Land Uses

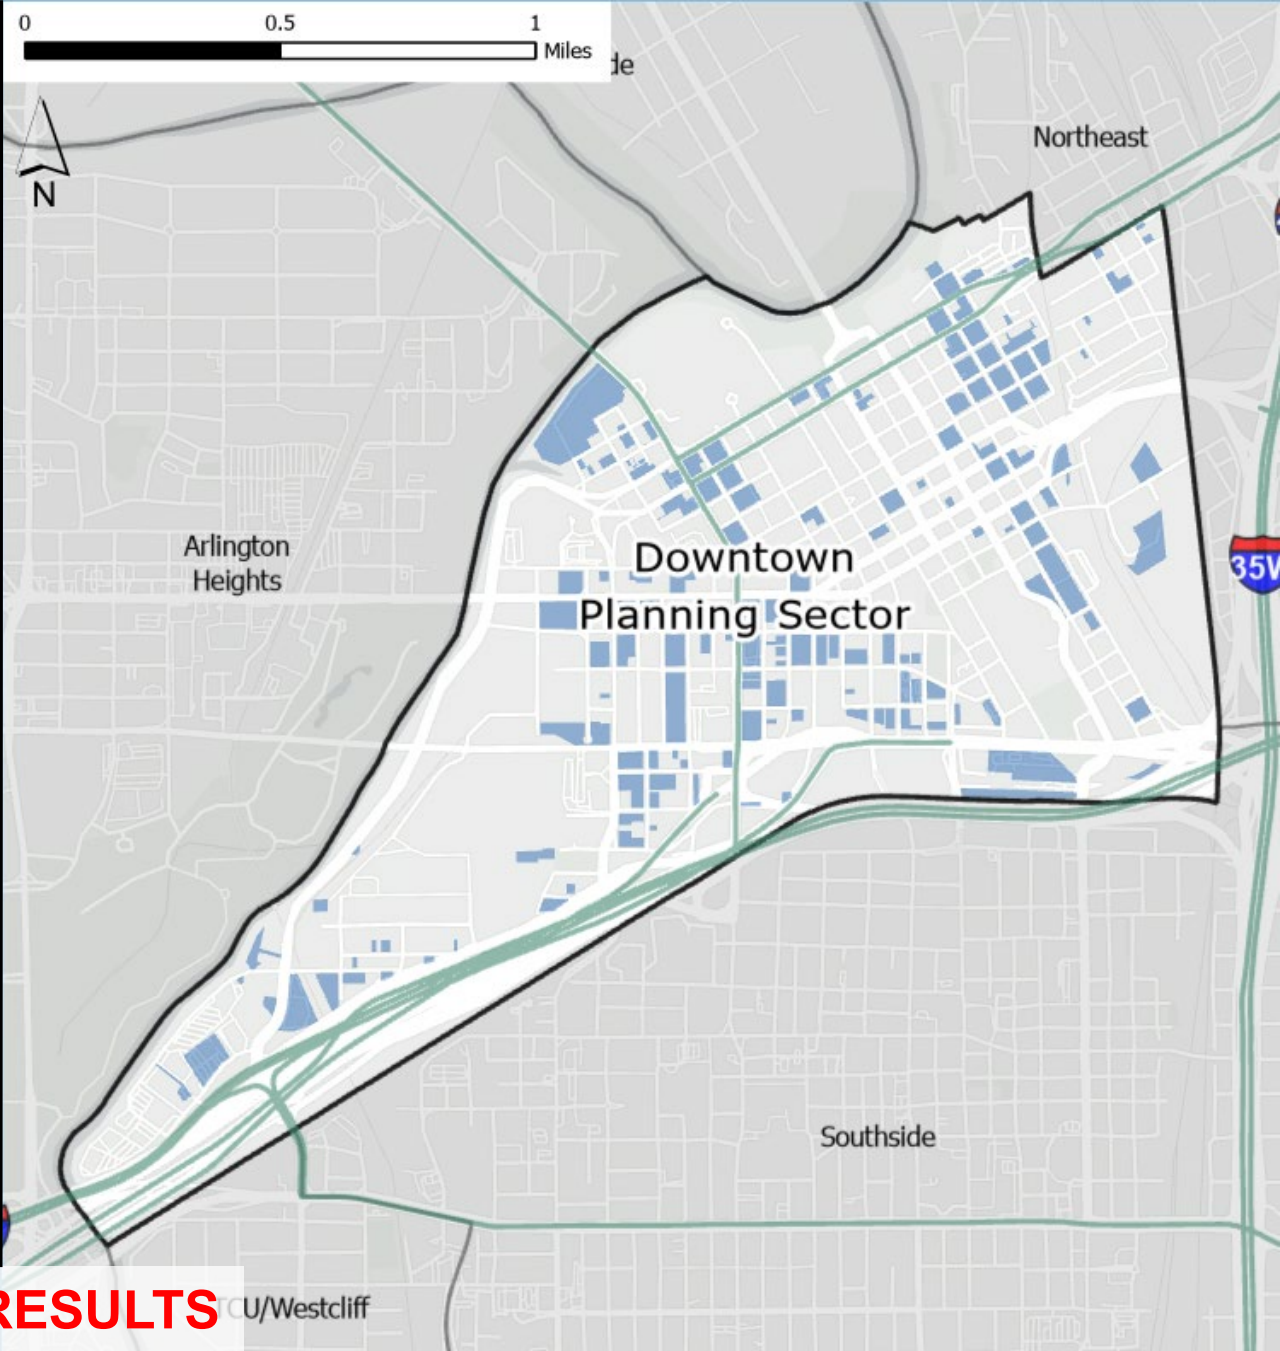

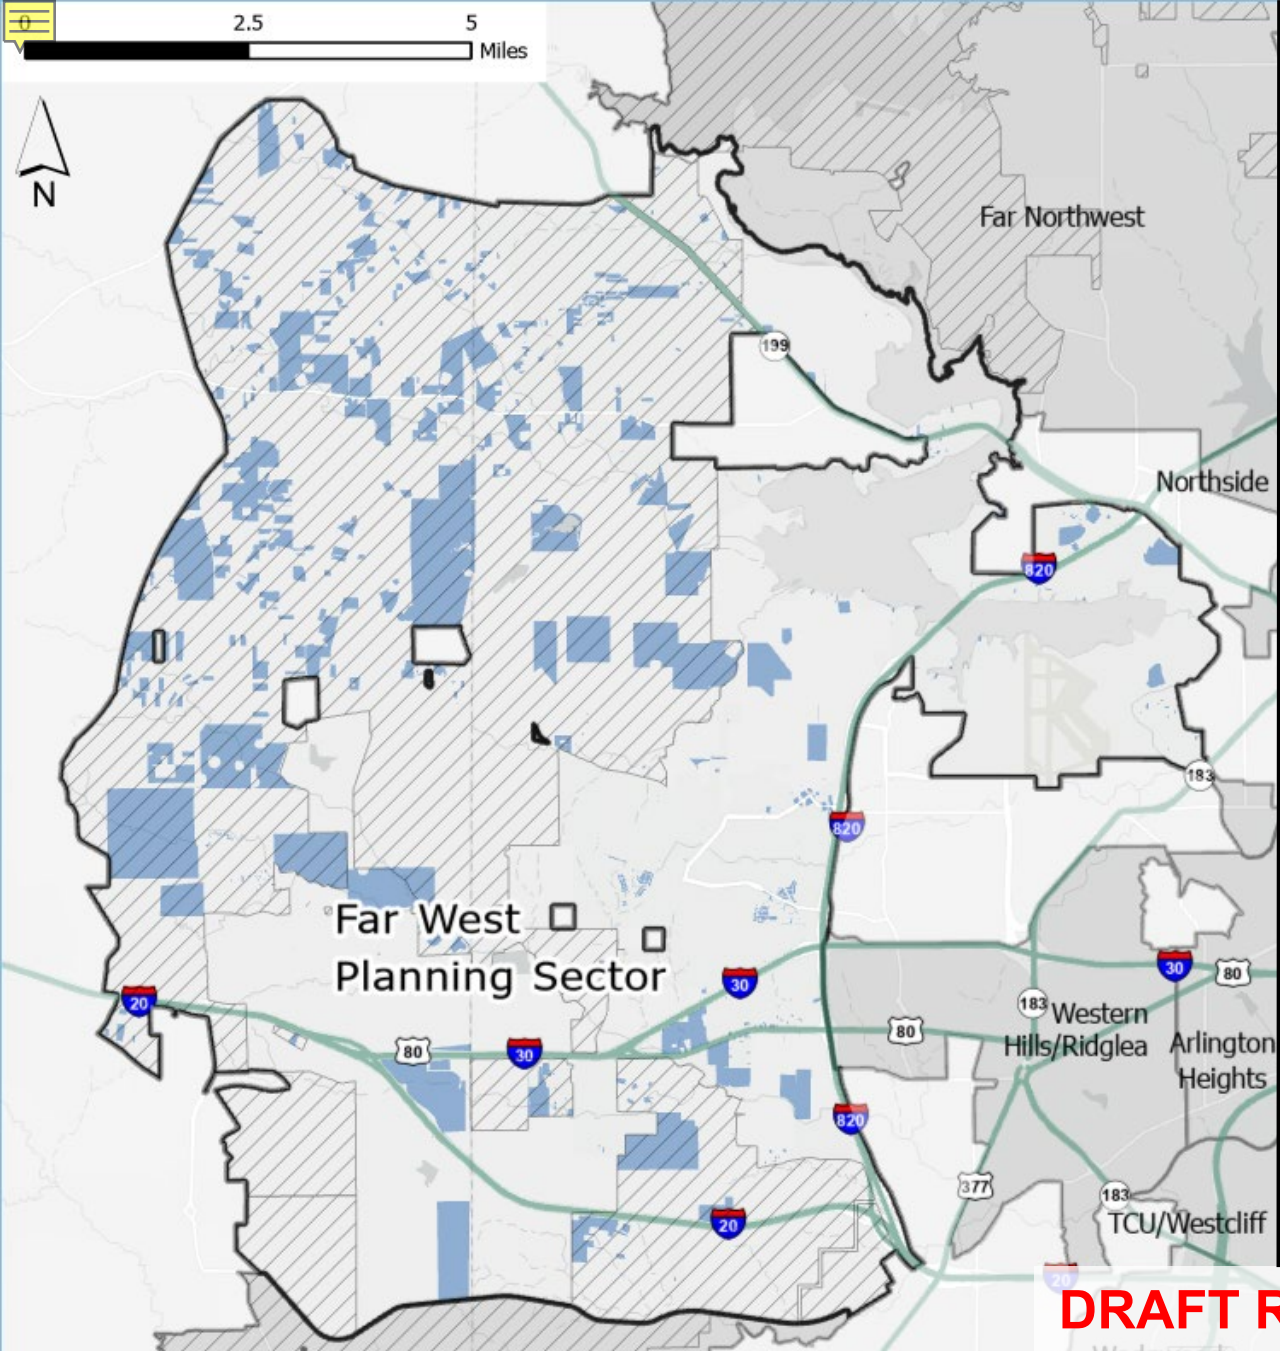

# Model to Calculate Underutilized Land Uses

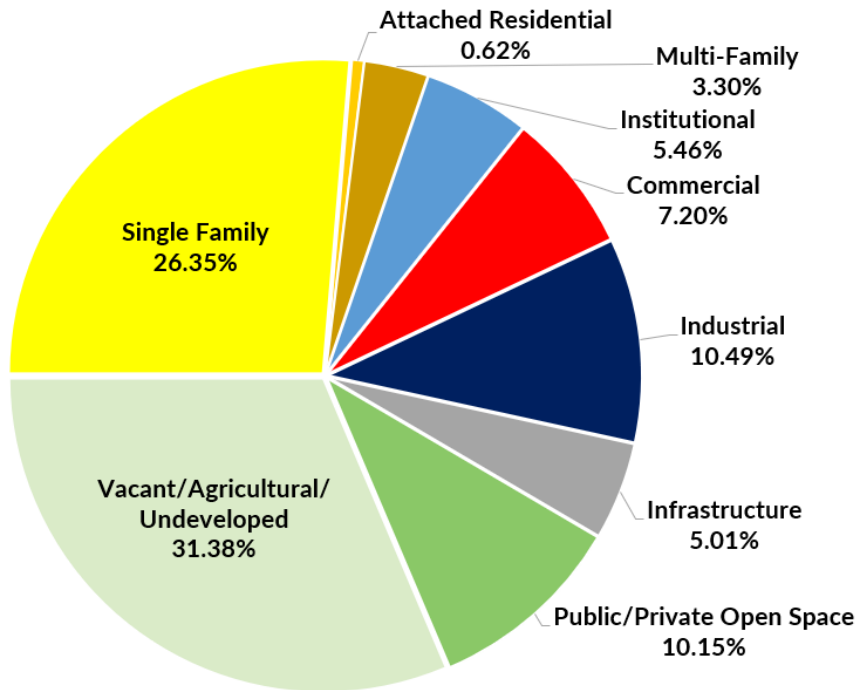

**DRAFT RESULTS** TCU/Westcliff

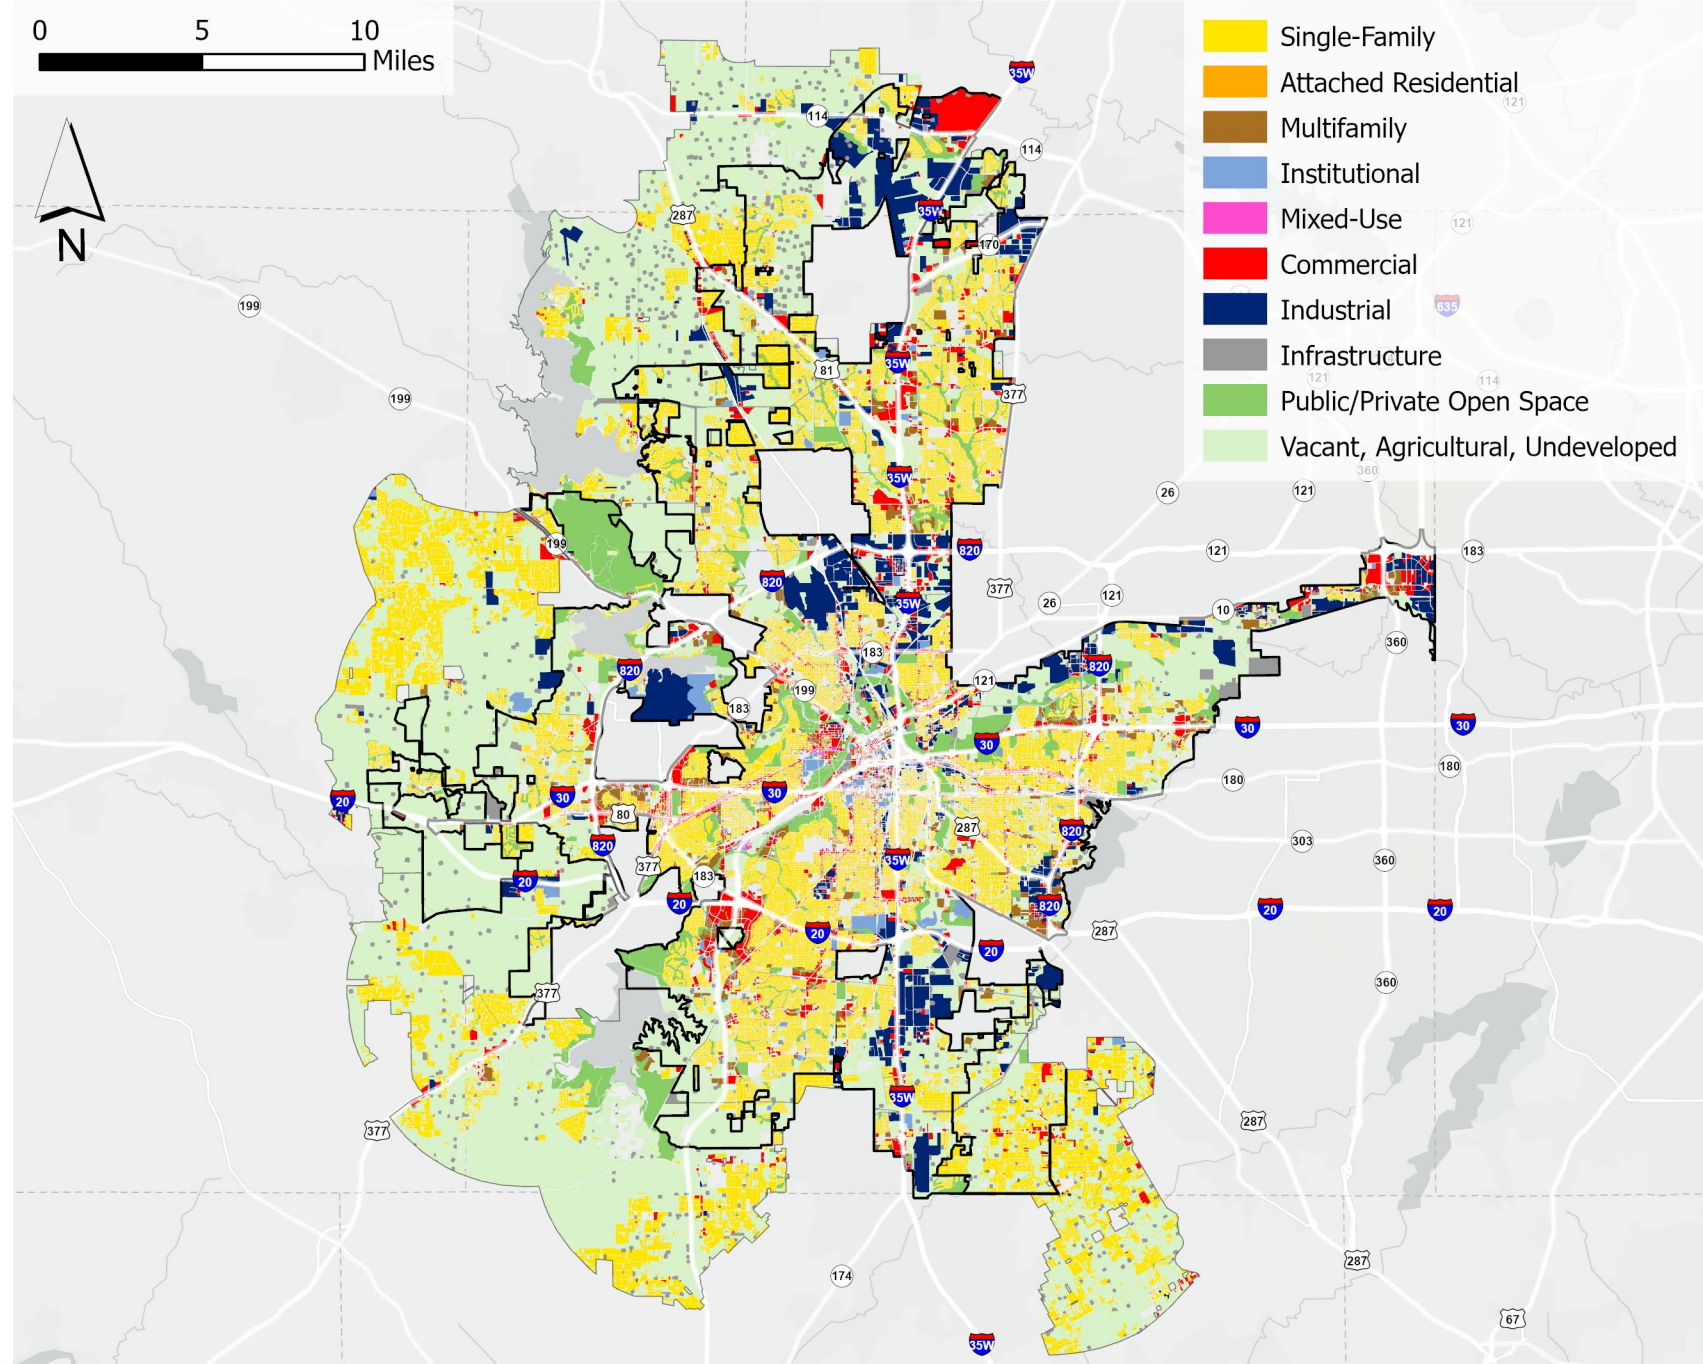

# Redevelopment Opportunity Ratio

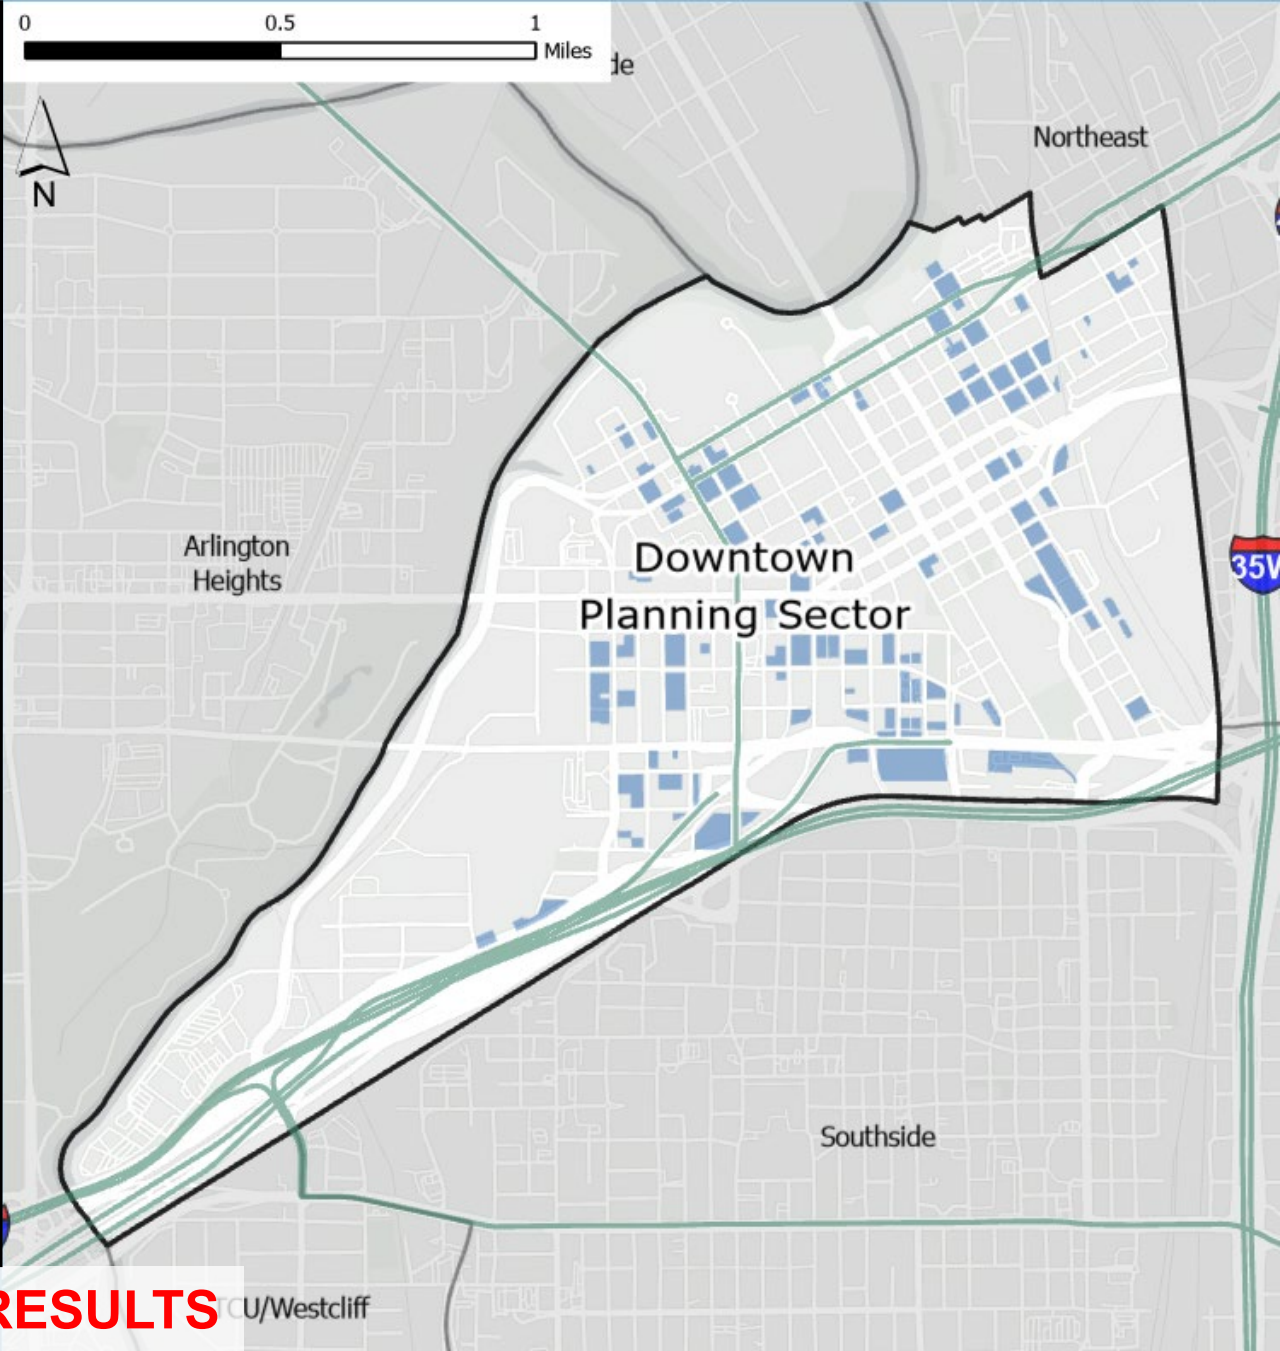

# Existing Land Use (ELU) Designations: 2023

\* City Limits Only

**DRAFT RESULTS** TCU/Westcliff

# Existing Land Use Designations

# Land Suitable for Re-Development or New Development

Far West Planning Sector		
Category	Acreage	Percent
Total Land Area	65,911.10	100%
Gas Wells	-1,284.45	-1.95%
Utilized Land	-24,820.10	-37.66%
Constrained Vacant Land	-3,120.10	-4.73%
Infrastructure Set-Aside*	-6,528.31	-9.90%
Redevelopable Land	+10,573.23	+16.04%
Developable Vacant Land	+19,584.92	+29.71%
<b>Net Developable Land</b>	<b>30,158.15</b>	<b>45.76%</b>

**DRAFT RESULTS**

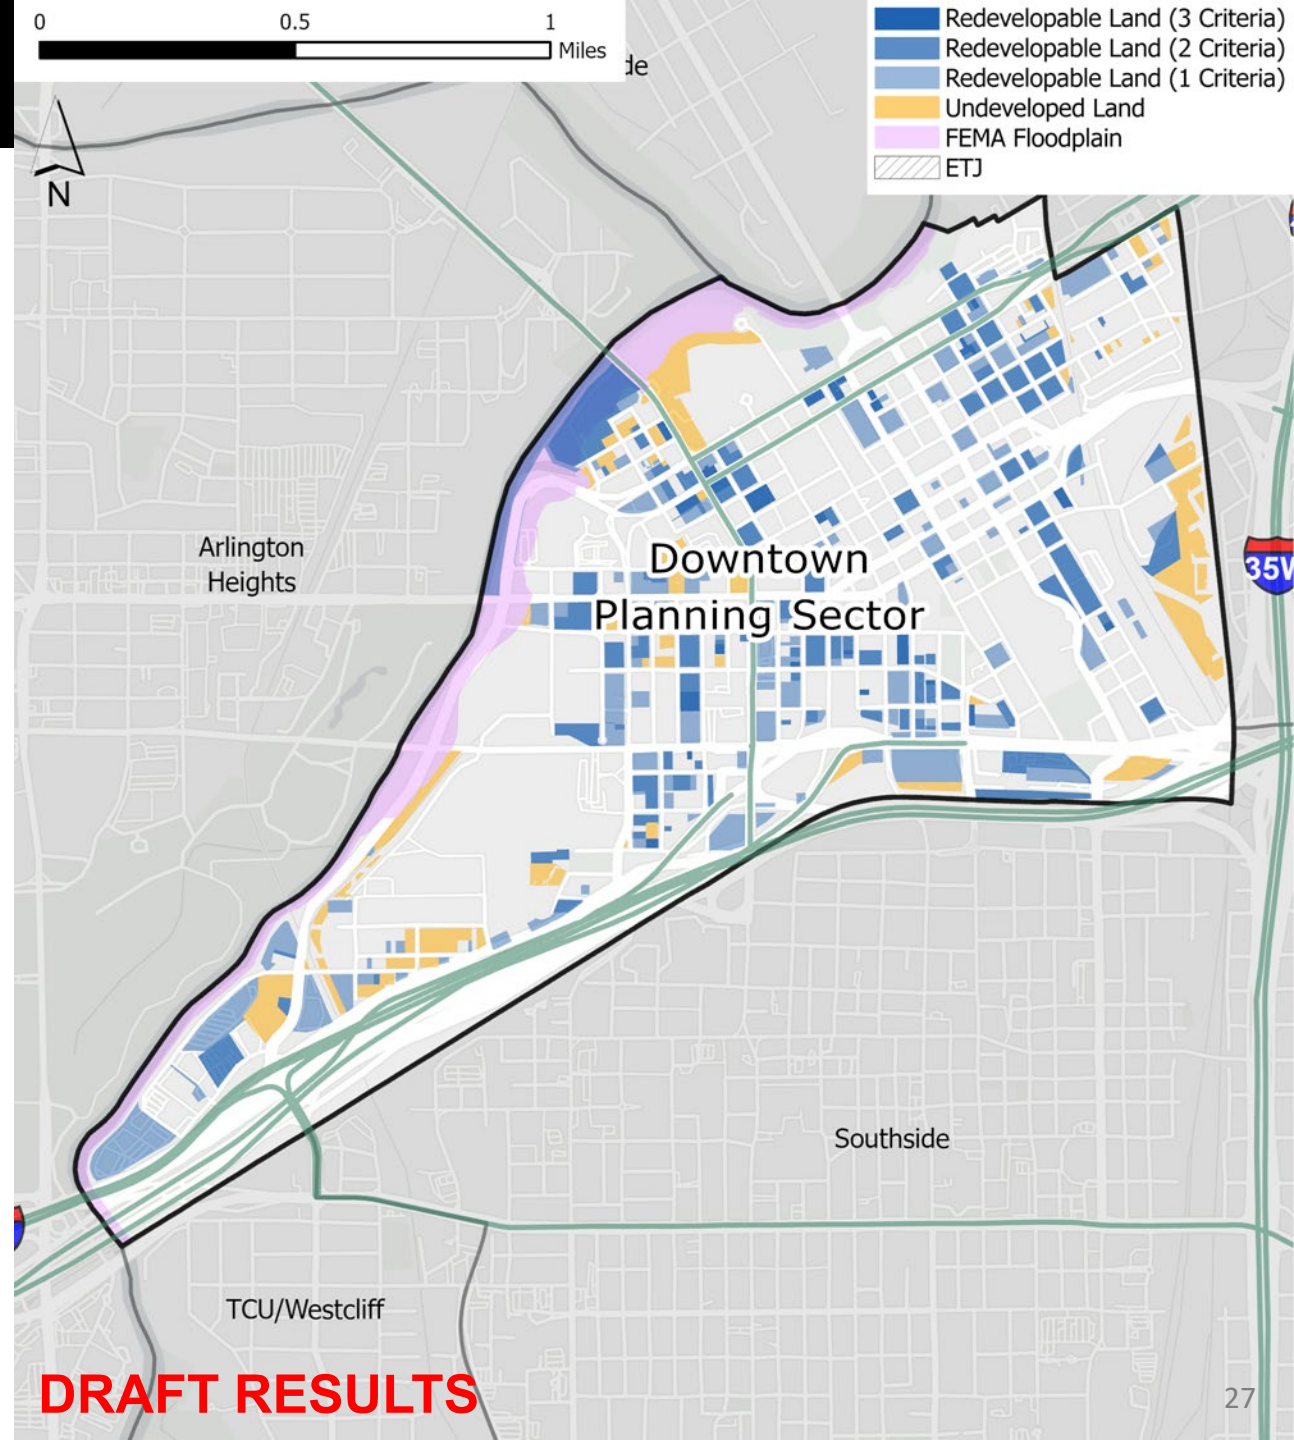

\*25% of Vacant Land for Outside Loop-820 Planning Sectors

# Land Suitable for Re-Development or New Development

Downtown Planning Sector		
Category	Acreage	Percent
Total Land Area	1,245.30	100%
Gas Wells	-7.66	-0.61%
Utilized Land	-977.13	-78.47%
Constrained Vacant Land	-8.29	-0.67%
Infrastructure Set-Asides	N/A	N/A
Redevelopable Land	+192.85	+15.49%
Developable Vacant Land	+59.37	+4.77%
<b>Net Developable Land</b>	<b>252.23</b>	<b>20.25%</b>

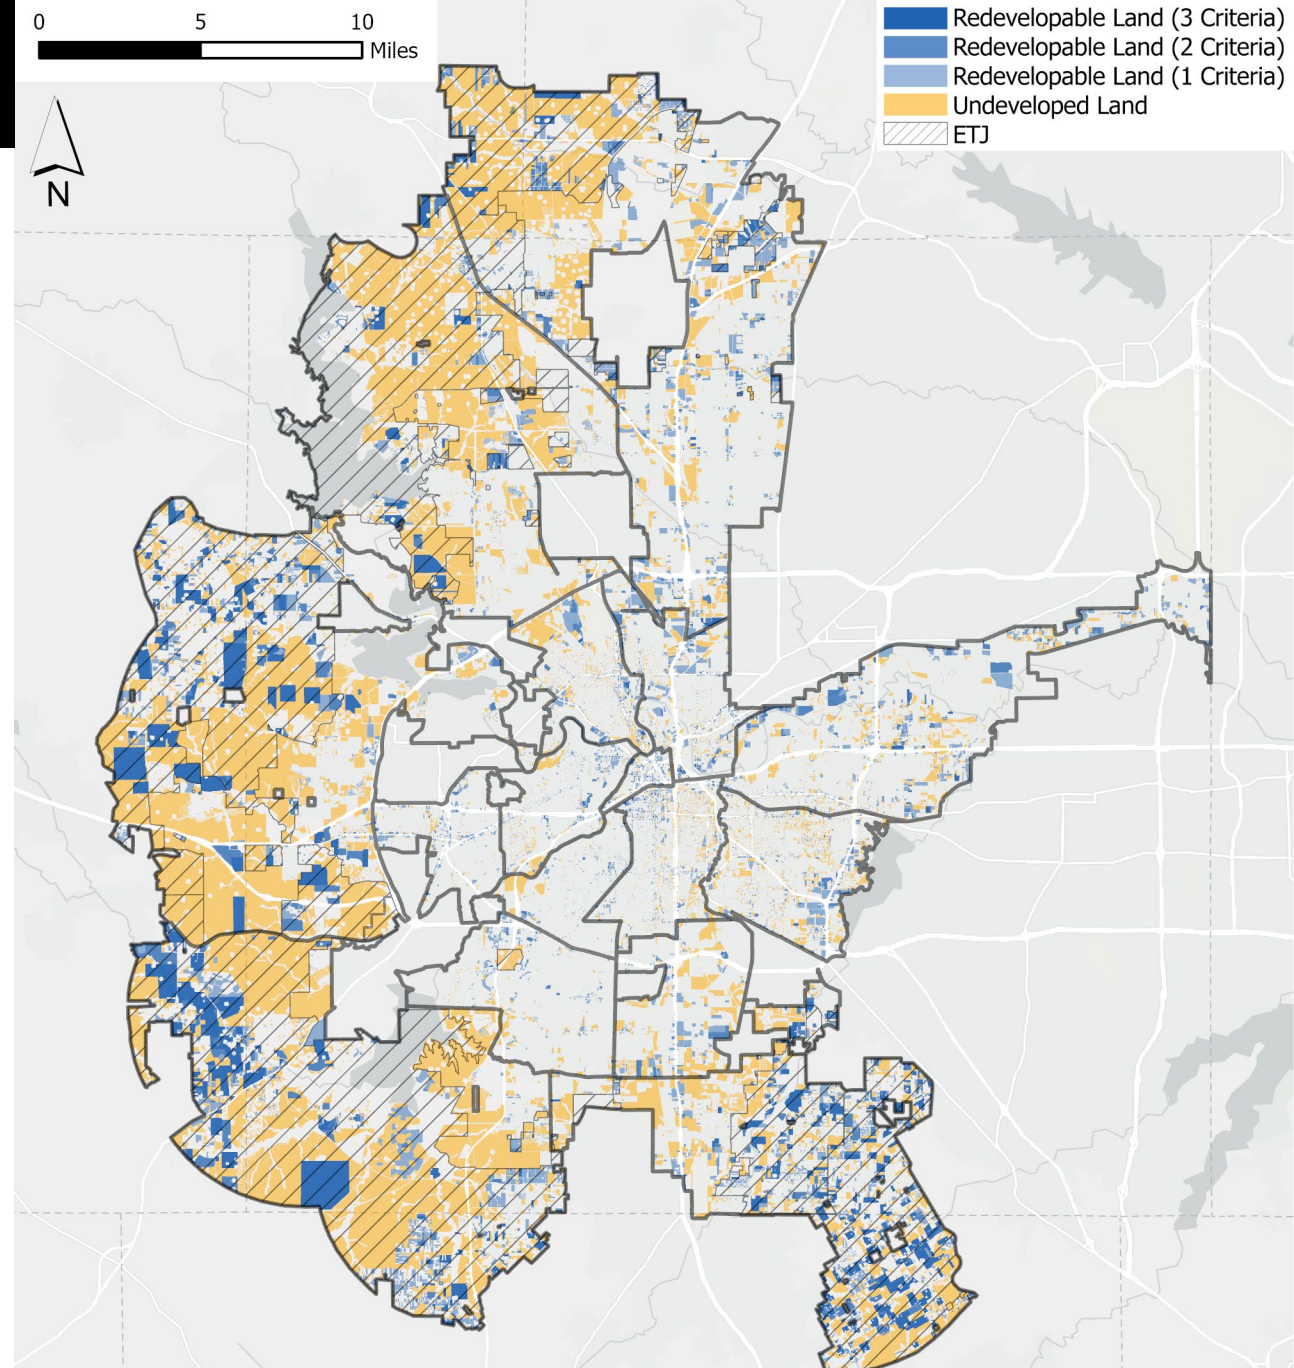

**DRAFT RESULTS**
