*Data not certified by TCEQ

**2015 Ozone NAAQS ≤70 ppb

***2008 Ozone NAAQS ≤75 ppb

****1997 Ozone NAAQS <85 ppb

^The highest three-year average of the fourth-highest concentration of each monitor. This is the region's attainment test for ozone. The annual fourth-highest daily maximum eight-hour average ozone concentration at each monitor must be less than or equal to 70 parts per billion (ppb).
