AGENDA

Regional Transportation Council Thursday, November 11, 2021 North Central Texas Council of Governments

The RTC meeting on November 11, 2021, will be conducted as a videoconference meeting via Zoom. Members of the public wishing to speak may do so by calling toll free 1-855-965-2480 and entering meeting ID 819 9499 9766# when prompted or in person at the NCTCOG Office. Following conclusion of the Opportunity for the Public to Speak in Agenda Item 1, the audio line will be disconnected. Members of the public may view a livestream of the RTC meeting at www.nctcog.org/video under the "live" tab.

Funding Presente	□ Possible Action □ Information Minutes: 5 en-Grey Application for New Ideas Round 3 – Project Recommendations r: Shawn Conrad, NCTCOG nmary: Regional Transportation Council approval to award funding for implementation of selected projects in the Blue-Green-Grey Application for New Ideas Round 3 will be requested.

due on August 13, 2021. Eligible projects are within the 12-county Metropolitan Planning Area and incorporate three elements – Blue (water), Green (environment), and Grey (transportation infrastructure). The goal of the Blue-Green-Grey program is to support innovative pilot projects that provide resources for cities and organizations to replicate these ideas throughout the metroplex. Eligible applicants include teams of individuals, private firms, educational facilities, and governmental agencies. The maximum award is \$75,000. A project evaluation committee reviewed the nine applications received and has selected three projects for funding recommendation.

NCTCOG will seek approval to proceed with awards for implementation of projects awarded through the 2021 Blue-Green-Grey Application for New Ideas Round 3. Electronic Item 3.1.1 provides additional information on application scoring. Electronic Item 3.1.2 reflects NCTCOG staff award recommendations.

1:35 – 1:40 5. Endorsement of Economic Development Grant Opportunity Project Applications

 \square Action \square Possible Action \square Information Minutes: 5

Presenter: Michael Morris, NCTCOG

Item Summary: Staff requests endorsement of project applications submitted

as part of the American Rescue Plan Act (ARPA) funding

opportunities through the Economic Development Administration (EDA) Build Back Better Regional Challenge

(BBBRC).

Background: As part of the American Rescue Plan Act, authorized in March

2021 to support the nation's response and recovery from the impacts of the COVID-19 pandemic, the Economic Development Administration was allocated \$3 billion in

supplemental funding to assist communities in their efforts to build back better by accelerating the economic recovery and

building local economies that will be resilient to future economic shocks. In July 2021, the EDA announced it would make the funding appropriation available through a series of six innovative challenges organized as discretionary grant

opportunities.

The North Central Texas Council of Governments (NCTCOG) committed to serve as a coalition member for the following three applications submitted for the BBBRC Phase One competition.

- North Texas Information Technology Workforce
 Collaborative, submitted and led by Southern Methodist
 University (SMU), including a project cluster called
 Creating Equitable Opportunities in Automated Vehicle
 Freight Applications led by NCTCOG and one of eight
 total project clusters to comprise SMU's application.
- Becoming a Global Hydrogen Hub, submitted and led by Center for Houston's Future, including a project to add a hydrogen fuel station to the Interstate Highway 45 corridor that will be supported by NCTCOG as a partner within the application.
- Lead the Transition of Freight Transportation in the Texas
 Triangle Through Advanced Technologies and Innovative
 Policies on Equity and Sustainability, submitted and led
 by the University of Texas at Arlington, including a project

to advance freight-oriented automated surface and aerial transportation applications supported by NCTCOG as a partner within the application.

		□ Action	☐ Possible Action ☑ Information Minutes: 10					
		Presenter:	Christie Gotti, NCTCOG					
			Approximately every four years, staff aggregates transportation items related to management and operations for funding					
			approval. This item will present the process to identify those					
			projects for 2023-2026 and reasons for the inclusion of a safety program.					
		Background:	The Transportation Department is frequently asked to conduct a series of transportation initiatives that include management					
			and operations. The initiatives are best aggregated into an					
			overall program conducted over several years. The existing program is being completed in 2022, therefore a continuation					
			of existing and new initiatives will need to be in place prior to October 1, 2023. In addition, increased focused on					
			transportation safety for all modes is proposed as part of a statewide partnership with the Texas Department of					
			Transportation. It is anticipated that the 2023-2026 program					
			will be for management and operations, Regional/Air Quality, and safety funding. Typically,50 percent or more of these funds					
			are passed through to cities, counties, and transportation agencies for implementation. Electronic Item 8 contains					
			additional details on the funding program.

			•					
2:15 – 2:25	10.	☐ Action	ransportation Plan Update ☐ Possible Action ☐ Information Minutes: 10					
		Presenter: Item Summary:	Brendon Wheeler, NCTCOG Mobility 2045 was adopted by the Regional Transportation					
		2 2	Council (RTC) on June 14, 2018. Staff will provide a report					
			regarding efforts to update Mobility 2045 by June 2022, highlighting notable policy/program updates.					

Background:

Following RTC adoption of Mobility 2045, staff and partner agencies have been working toward implementing the mobility plan. These efforts include planning and project development tasks, projects in construction, and coordination with the public and our transportation partners.

Federal guidelines require the Dallas-Fort Worth region to update the long-range transportation plan a minimum of every four years. In addition, the Mobility 2045 Update must demonstrate transportation conformity. The updated plan will include a new financial plan and necessary refinements to projects in the current Mobility 2045 plan.

Performance Measure(s) Addressed: Roadway, Transit

	:25 – 2:35	11.	Fiscal Year 2021/Fiscal	Year 2022	Project	Tracking	Initiativ
--	------------	-----	-------------------------	------------------	----------------	----------	-----------

☐ Action ☐ Possible Action ☐ Information Minutes: 10

Presenter: Brian Dell, NCTCOG

Item Summary: Staff will provide the Council with a final report on the FY2021

Project Tracking Initiative and introduce the FY2022 project list. This effort is designed to maintain balanced federal funding

levels and to expedite project delivery.

Background:

Almost every year, Regional Transportation Council-selected projects being implemented by local governments experience delays. While a one-year delay is of less consequence, projects tend to be delayed year after year. Over time, these delays led to the need to implement the Metropolitan Planning Organization Milestone Policy, which identifies projects that have not advanced to construction after being funded for at least ten years. However, a ten-year project review does not create an action plan soon enough to maintain the region's Congestion Mitigation and Air Quality Improvement Program, Surface Transportation Block Grant Program, and

Transportation Alternatives Set Aside obligation balances. As a secondary line of offense, staff has implemented a project tracking initiative that highlights project schedule commitments to the Surface Transportation Technical Committee and the Regional Transportation Council on a regular basis and reports

local agency progress toward the committed project

development schedules. A list of projects that were scheduled to begin in FY2021 and their current status can be found in Electronic Item 11.1. A list of projects that are scheduled to begin in FY2022 and their current status can be found in Electronic Item 11.2. Additional details can be found in

Electronic Item 11.3.

Performance Measure(s) Addressed: Roadway, Air Quality

2:35 – 2:45	12.		on Local Government Energy Reporting
		☐ Action	☐ Possible Action ☐ Information Minutes: 10
		Presenter:	Lori Clark, NCTCOG
		Item Summary:	Staff will provide an overview of State-mandated local government energy reporting requirements and efforts to
			increase the rate of reporting among local governments.
		Background:	As electricity generation produces emissions that impact air quality, energy efficiency and conservation measures
			to reduce total electricity consumption can help reduce
			air pollution. Texas passed legislation in 2001 requiring
			that local governments in and near nonattainment areas
			set a goal to reduce their electricity consumption by
			5 percent every year, and report annually to the State
			Energy Conservation Office. This requirement is detailed in the
			Texas Health and Safety Code §388.005(c) available at
			https://statutes.capitol.texas.gov/Docs/HS/htm/HS.388.htm#38
			<u>8.005</u> . Legislation passed in the 2019 session updated this requirement, resetting the baseline to September 1, 2019, and
			extending the requirements to 2026. To increase compliance
			with this reporting requirement, North Central Texas Council of
			Governments staff has conducted outreach, developed
			resources, and provided technical assistance. Additional
			details are available in Electronic Item 12.
