

Chapter IV

Project Implementation/Progress from Previous Years

Section 450.324(l)(2) of Metropolitan Planning Rules requires that the Transportation Improvement Program (TIP) contain a list of major projects from the previous TIP that were implemented and projects that experienced significant delays in their planned implementation. The Moving Ahead for Progress in the 21st Century Act (MAP-21) and the most recent transportation bill, Fixing America's Surface Transportation (FAST) Act emphasizes the TIP as a management tool for monitoring progress in implementation of the Metropolitan Transportation Plan. This chapter highlights projects implemented over the last three years, as well as projects delayed or cancelled during that same timeframe. Projects were generally delayed due to funding constraints or project specific issues such as right-of-way availability, utility relocation delays, environmental concerns, financial limitations, local government priorities, or design changes.

PROJECT IMPLEMENTATION

During the development of the 2017-2020 TIP, the Regional Transportation Council (RTC) made a strong commitment to implement projects that are listed in the TIP and the State Implementation Plan (SIP). NCTCOG staff is monitoring implementation progress to ensure that the Congestion Mitigation and Air Quality Improvement Program (CMAQ) and the Surface Transportation Program -- Metropolitan Mobility (STP-MM) projects, are being implemented in a timely fashion. A few projects in the STP-MM and CMAQ programs were previously identified as transportation control measures (TCMs) in the SIP. The region's leadership believes that the timely implementation of TCMs in the SIP is necessary to meet the requirements in the Clean Air Act Amendments of 1990 and to help the Dallas-Fort Worth region attain the federal Clean Air Act standards. Additional information regarding SIP commitments is contained in Chapter V.

The tables included in this chapter summarize the major projects for which construction or implementation has begun, is in the process, or has been completed in the Dallas and Paris districts (Eastern Subregion) and Fort Worth district (Western Subregion) of the Texas Department of

Transportation (TxDOT) from Fiscal Year 2014 to Fiscal Year 2016, as well as any delays from original project scheduling. It is important to note that the Federal Highway Administration (FHWA) implements federal projects through TxDOT, while the Federal Transit Administration (FTA) implements projects directly through designated recipients or grantees noted in the following tables as "implementing agencies."

Dynamic Message Signs provide travel-time estimates and other information to improve commutes.

Roadway Projects

Exhibit IV-1 includes a list of roadway projects delayed, let, and/or completed in the TxDOT Fort Worth District; Exhibit IV-2 includes a list of roadway projects delayed, let, and/or completed in the TxDOT Dallas District; Exhibit IV-3 includes a list of roadway projects delayed, let, and/or completed in the TxDOT Paris District. The information provided for each project in these three exhibits includes: original CSJ number (e.g., TxDOT project number), revised CSJ number (as appropriate), agency implementing the project, TIP code (e.g., MPO project number), project location, including project limits (e.g., from and to), project type, original let date (e.g., date originally estimated for construction or implementation to be initiated), and revised let date, and whether the project was let, completed, delayed, or cancelled since the last TIP was submitted, as applicable.

Transit Projects

Transit projects are summarized differently than roadway projects, as FTA implements projects in a different manner. Instead of “letting” like roadway projects, once a transit project is included in an approved FTA grant for a particular fiscal year, it is incorporated into the relevant agency’s operating budget and proceeds toward implementation. A list of projects included in FY 2014 through FY 2016 grant applications to date is provided in Exhibit IV-4 for the Fort Worth District and in Exhibit IV-5 for the Dallas District. As transit projects in the Paris District are administered by TxDOT, therefore, information on projects included in FY 2014 through FY 2016 grant applications in that District can be found in the Statewide Transportation Improvement Program.
