

Purpose

Through the **2024 Water Resources Questionnaire**, the North Central Texas Council of Governments (NCTCOG) is seeking to better understand your organization's current water outreach efforts, gauge your interest in various water resource topics and initiatives in North Central Texas, and obtain ideas for NCTCOG water quality webinars or workshops. Your responses will help guide our tasks. Thank you.

Please have staff most familiar with your water resource or environmental programs complete the questionnaire. More than one response may be submitted from each entity.

The questionnaire will take approximately 8 - 10 minutes to complete. A PDF document of the survey is available [here](#) should that provide an easier way for you to respond and/or consult with others.

Please submit your responses by **5:00 PM CST on Friday, May 24, 2024**. Thank you for your time and input.

Questions? Please call or email Alyssa Knox at 817-695-9221 or aknox@nctcog.org.

This project was funded by the U.S. Environmental Protection Agency through the Texas Commission on Environmental Quality.

Outreach and Education on Water Topics

1. Does your entity engage in outreach on water resource topics?

Yes

No

Outreach and Education on Water Topics

2. Please list the topics that are the focus of your outreach efforts.

3. Do you engage in outreach or educational campaigns tailored for a specific group? For example, presentations to children and youth.

Yes

No

Outreach and Education on Water Topics

4. If you answered "yes" to the previous question, please describe your campaign and its efforts.

5. What have you found to be the best way to reach your outreach audience outside of in-person events? (Please check all that apply.)

- We only have outreach material for in-person events.
- Online webinars
- Utility bill inserts
- Videos
- Social media
- Other (please specify)

6. What resources or information could NCTCOG provide or consolidate at the regional level that would assist your outreach efforts?

Water Resources in the Region

7. Are you familiar with the Water for North Texas online resources?

- Yes
- No

8. How often do you utilize the resources from Water for North Texas to accomplish your organization's goals?

- A few times a week
- Once a week
- A few times a month
- Once a month
- Less than once a month
- Never

Water Resources in the Region

9. What water quality resources, information, or tools do you think are lacking in the North Central Texas region?

Water Priorities in North Central Texas

10. Please rate your level of concern regarding each of the water related issues listed below.

	Low	Low/Medium	Medium	Medium/High	High
Water Supply	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Bacteria Levels	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Litter in Waterways	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Flooding	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Aging Water Infrastructure	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Erosion/Sedimentation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Agricultural Stormwater Runoff	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Water Efficiency in Residences and Landscapes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Land Application of Biosolids	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Drinking Water Quality	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify)

Climate Resilience

11. Climate projections in Texas (from the [latest report from the Texas State Climatologist](#)) predict likely changes to weather trends through 2036, such as higher average annual temperatures, more 100-degree days, and more extreme precipitation events. Would you say your entity has either already developed or will be developing plans or projects to prepare for these anticipated trends?

- Yes
- No
- I don't know.
- Other (please specify)

12. Could you please describe what those plans or past efforts are?

Climate Resilience

13. What information could NCTCOG provide at a workshop or webinar that would be useful for preparing for expected future weather trends in Texas, i.e. higher average annual temperatures, more 100-degree days, and more extreme precipitation events?

NCTCOG Water Resource Webinars

14. What local, regional, or national water resource topics, environmental challenges, or upcoming rulemakings would you like to see covered at a NCTCOG webinar?

Contact Information

15. Please provide your contact information. (Optional)
