

North Texas Green & Go Clean Taxi Partnership

The North Texas Green & Go Clean Taxi Partnership was created to encourage the purchase and use of clean taxicab vehicles in the Dallas-Fort Worth region. Given their high mileage and the congested conditions in which they operate, taxicab vehicles represent an important source of emissions that contribute to the regional air quality problem.

The North Texas Green & Go Clean Taxi Partnership will provide \$5,000 awards to be used towards the purchase of low-emitting vehicles. The program policies and procedures will mirror the AircheckTexas Drive a Clean Machine Program. In order to establish a seamless implementation, dealerships wanting to participate in the North Texas Green & Go Clean Taxi Partnership must also participate in, and be in good standing with the AirCheckTexas Drive a Clean Machine Program. For clarification, the following chart shows the differences between the two programs:

	AirCheckTexas Drive A Clean Machine Program	North Texas Green & Go Clean Taxi Partnership
Voucher Amount	\$3,000 to \$3,500	\$5,000
Emissions Standard	Tier 2 Bin 5 or Cleaner	Tier 2 Bin 3 or Cleaner
Vehicle Age	Depends on Vehicle Type	Current Model Year or 2 Years Previous
Maximum Mileage	Not Applicable	30,000
Vehicle Price Limit	Less than \$25,000	Not Applicable
Size Requirements	Not Applicable	Regulating Authority Specifications

The North Texas Green & Go Clean Taxi Partnership will begin accepting applications this fall. A separate agreement for participation as a dealership in this program must be signed.
