## SUMMARY

The North Central Texas Council of Governments (NCTCOG) is a voluntary association of, by and for local governments, and was established to assist local governments in planning for common needs, cooperating for mutual benefit, and coordinating for sound regional development. NCTCOG's purpose is to strengthen both the individual and collective power of local governments and to help them recognize regional opportunities, eliminate unnecessary duplication, and make joint decisions.

NCTCOG serves a 16-county region of North Central Texas centered around the two urban centers of Dallas and Fort Worth. NCTCOG has 235 member governments including 16 counties, numerous cities, school districts, and special districts.

Each member government appoints an NCTCOG voting representative from its governing body. These voting representatives make up the General Assembly, which annually elects the Executive Board. The Board, composed of 17 locally elected officials and one ex-officio non-voting member of the legislature, is the policy-making body for all NCTCOG activities. The Board is supported by technical, study, and policy development committees and a professional staff headed by Todd Little, Executive Director.

The planning process provides an opportunity to identify and assess regional justice-related priorities and strategize the means and methods to respond to these needs.

December 2024 survey results were taken into consideration by the NCTCOG Criminal Justice Program staff in cooperation with NCTCOG's Criminal Justice Policy Development Committee (CJPDC) and priorities were assigned based on survey results.

This document reflects efforts of regional stakeholders concerned with assuring gaps in services are addressed, thus making our communities safer places in which to live and work.

Justice-related priorities, goals and requirements concerning the makeup of the Regional Criminal Justice Strategic Plan are subject to change from year to year.

# PLANNING PROCESS OVERVIEW

With input and guidance from the Criminal Justice Policy Development Committee (CJPDC), the inaugural electronic survey project was developed in 2013, and results were incorporated in the 2014-2015 Regional Criminal Justice Strategic Plan. It has been routinely updated, with the latest version finalized June 2020.

Prior to survey distribution, a CJPDC Strategic Planning Subcommittee was formed. These subject matter experts provided valuable feedback and technical assistance to NCTCOG staff on survey content.

Following guidelines from the Office of the Governor's Public Safety Office (PSO) stating the plan should not exceed a five-year cycle, an electronic regional survey of community stakeholders was developed and distributed in December 2024. Those survey results are incorporated in this July 2025 version.

NCTCOG will evaluate, update and submit the Regional Criminal Justice Strategic Plan and an Executive Summary by a deadline set by the Office of the Governor's Public Safety Office.

## **How are communities engaged in this process?**

Topics addressed in the survey include criminal justice / law enforcement, juvenile justice, mental health, substance abuse, and victim services. The survey was distributed via email to stakeholders consisting of elected officials, community-based organizations, judicial and law enforcement organizations, ISDs, local governments, state agencies, public health, social service providers, colleges and universities, and interested citizens.

## **How is this plan used by NCTCOG's Criminal Justice Policy Development Committee (CJPDC)?**

The top priorities identified for each section are provided to all applicant agencies during grant application workshops. Each NCTCOG-prioritized grant category has scoring criteria based on how well a project aligns with local priorities.

CJPDC members are required to attend scoring training prior to assessing and ranking applications. This training includes discussion of the local priorities, and the role local priorities play in prioritizing applications.

## **Are any new topics addressed in this Strategic Plan?**

Based on regional trends and feedback from CJPDC and community stakeholders, several new topics were added to the survey, including:

Juvenile Justice –

- School Safety & Security Equipment / Technology
- Specialized Training for Professionals
- Suicide Prevention

Criminal Justice - Judicial –

- Court-based Victim Services

## REGIONAL PROFILE

## UNDERSERVED POPULATIONS:

Based on survey results, the following underserved populations were identified and are recognized as the top five regional priorities (not listed in order of priority):

- Children
- Persons experiencing homelessness
- Persons with disabilities
- Senior citizens
- Socioeconomically disadvantaged

# VICTIM SERVICES

## Introduction

The days, weeks, months and even years after a person is a victim of crime can often be chaotic, overwhelming and highly emotional. Family, friends and the community are impacted by the crime. Not every crime victim will seek assistance immediately following the event; some may wait to find services later. When the victim does seek out assistance, it is crucial that services are available as soon as possible to decrease the emotional and physical impacts on victims of crime. It is imperative that when a victim seeks services they are met with compassion and support. A victim may not understand the legal process of the crime, the medical procedures or the methods of therapy that are available to them. Many victims have symptoms such as confusion, fear, anxiety, emotional numbness, rage and the inability to sleep. Victims of crime are of all ages, races, religions, and socio-economic backgrounds. Services rendered to these victims should accommodate their needs.

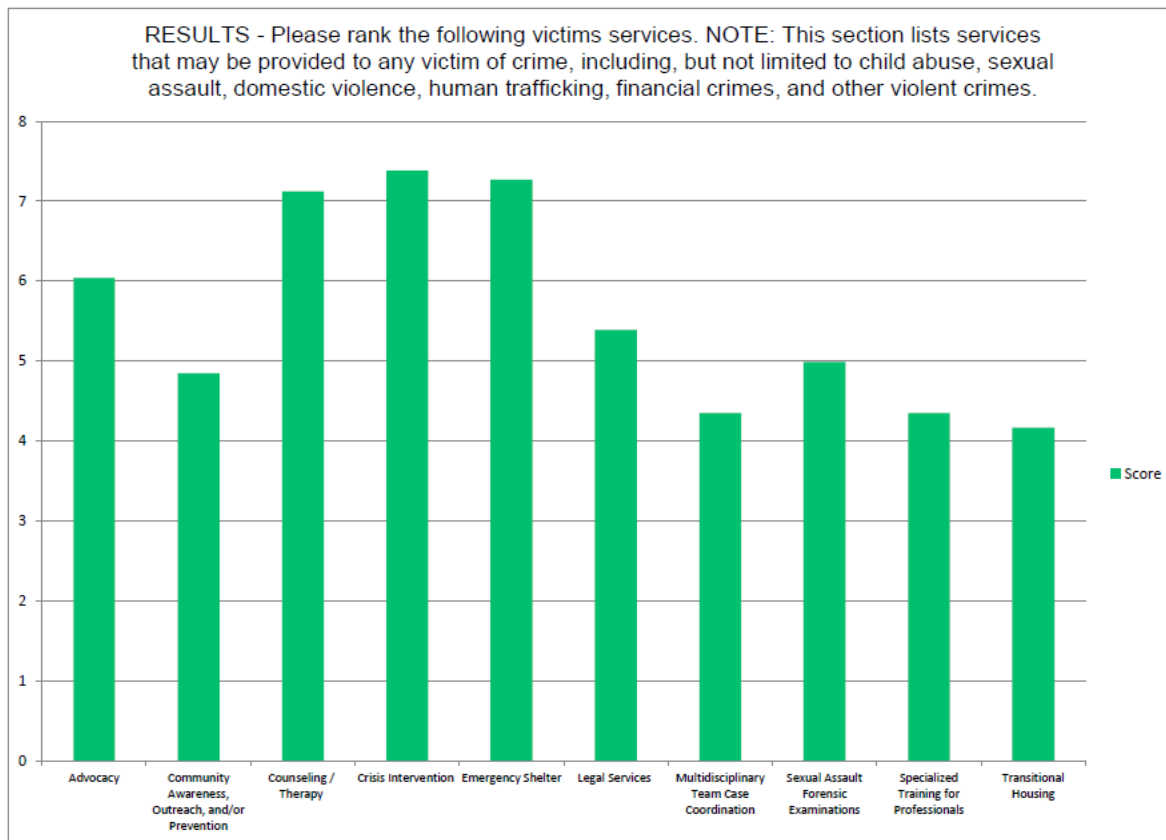

**Based on survey results, the following victim services needs were identified and are recognized as the top five regional priorities (not listed in order of priority):**

- Advocacy
- Counseling / therapy for victims of crime
- Crisis intervention (includes hotline, assistance with crime victim compensation claims, information and referral, safety planning)
- Emergency shelter
- Legal services (i.e., protective orders, court accompaniment, court advocacy, court preparation)

## **Goals of victim services regional priorities:**

- To increase capacity for agencies providing direct services to victims of crime.
- To enhance collaborations between service agencies, thus strengthening direct services to victims.
- To support programs that assist victims of crime in participating in the justice system.
- To support programs that are based on proven, evidence-based practices.

# JUVENILE JUSTICE

## Introduction

The intent of the juvenile justice system is focused upon rehabilitation, as opposed to punishment, to maximize the chances of the juvenile becoming a well-adjusted and contributing member of our society. Young people should not be expected to have the same values and judgment as adults. This is especially true if they have been the victim of poverty, neglect, and abuse. Swift and effective intervention can often spell the difference between a law-abiding life and a career of crime. Young lives can be salvaged. If we do not deal appropriately with them as juveniles, we will most certainly deal with them later as adults, and the costs will be much greater.

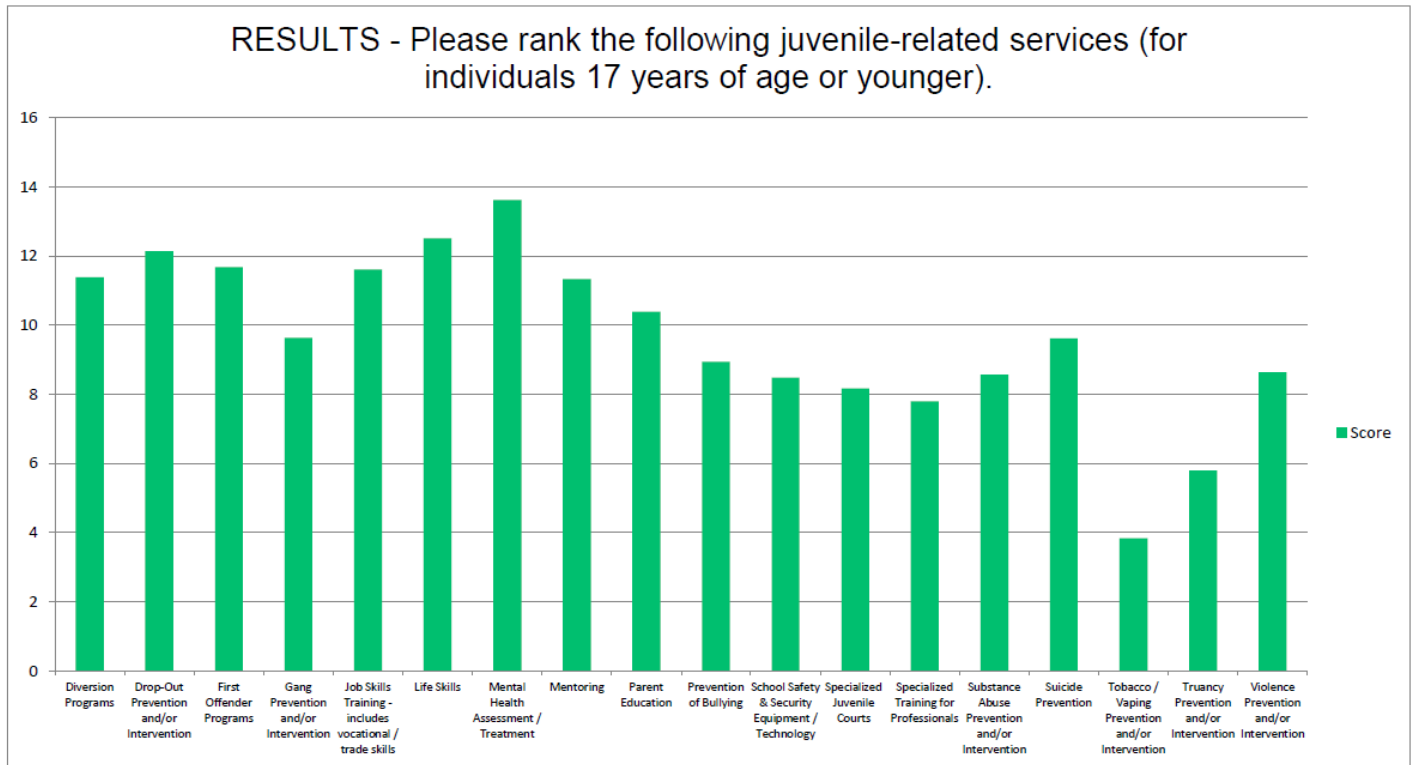

**Based on survey results, the following juvenile justice needs were identified and are recognized as the top five regional priorities (not listed in order of priority):**

- Counseling / therapy (including specialized mental health assessment / treatment)
- Drop-out prevention and/or intervention
- First offender programs
- Job skills training – includes vocational / trade skills
- Diversion programs

## **Goals of juvenile justice regional priorities:**

- To increase capacity for agencies providing services to youth.
- To enhance collaborations between service agencies, thus strengthening juvenile-related programs.
- To reduce recidivism in the juvenile population.
- To support programs that are based on proven, evidence-based practices.

# MENTAL HEALTH

## Introduction

Researchers have found the people with mental deficiencies are twice as likely as others to be victimized. Factors such as impaired cognitive abilities and judgment, physical disabilities, insufficient adaptive behaviors, constant interactions with a “protector” who exploits them, lack of knowledge on how to protect themselves, and living and working in high-risk environments increase the vulnerability of people with mental illness to victimization.

As victims, people with mental illness may be reluctant to report a crime due to fear of retaliation or not clearly understanding that they have been victimized. If an investigation is launched, the victim may be perceived as an unreliable witness or may not have the skills to articulate the criminal event.

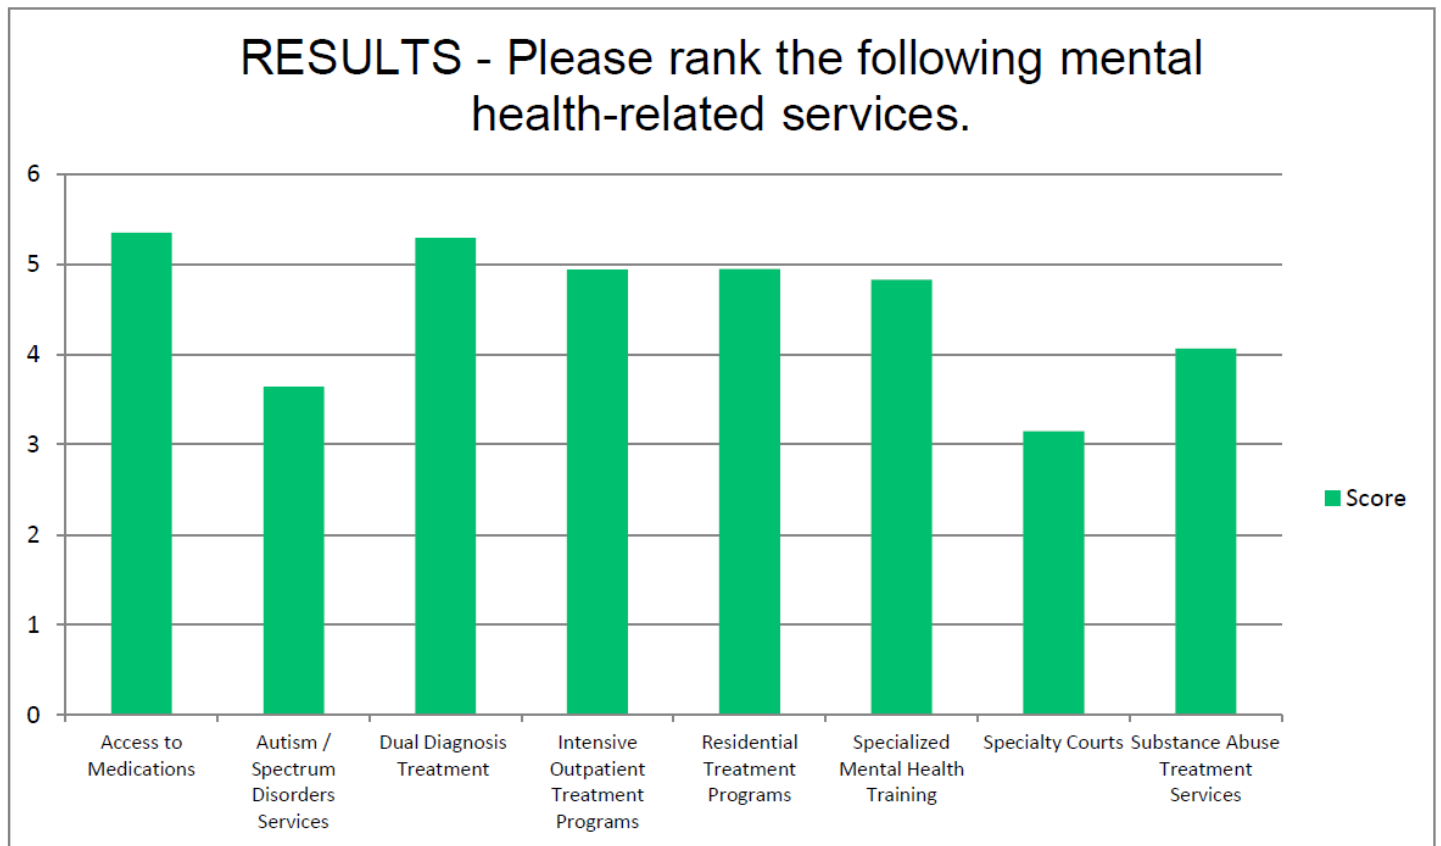

**Based on survey results, the following mental health needs were identified and are recognized as the top five regional priorities (not listed in order of priority):**

- Access to medications
- Counseling / therapy (including dual diagnosis and/or intensive outpatient treatment)
- Residential treatment programs
- Specialized mental health training (i.e., for court personnel, law enforcement, victim assistance advocates)
- Substance abuse treatment services

## **Goals of mental health regional priorities:**

- To increase capacity for agencies providing services to persons with mental health issues.
- To provide appropriate and effective training to professionals who serve persons with mental health issues.
- To enhance collaborations between service agencies, thus strengthening mental health-related programs.
- To support programs that are based on proven, evidence-based practices.

# SUBSTANCE ABUSE

## Introduction

Consequences of alcohol and/or substance abuse include crime, premature death, reduced or lost productivity in the workplace, and motor vehicle accidents, to name a few.

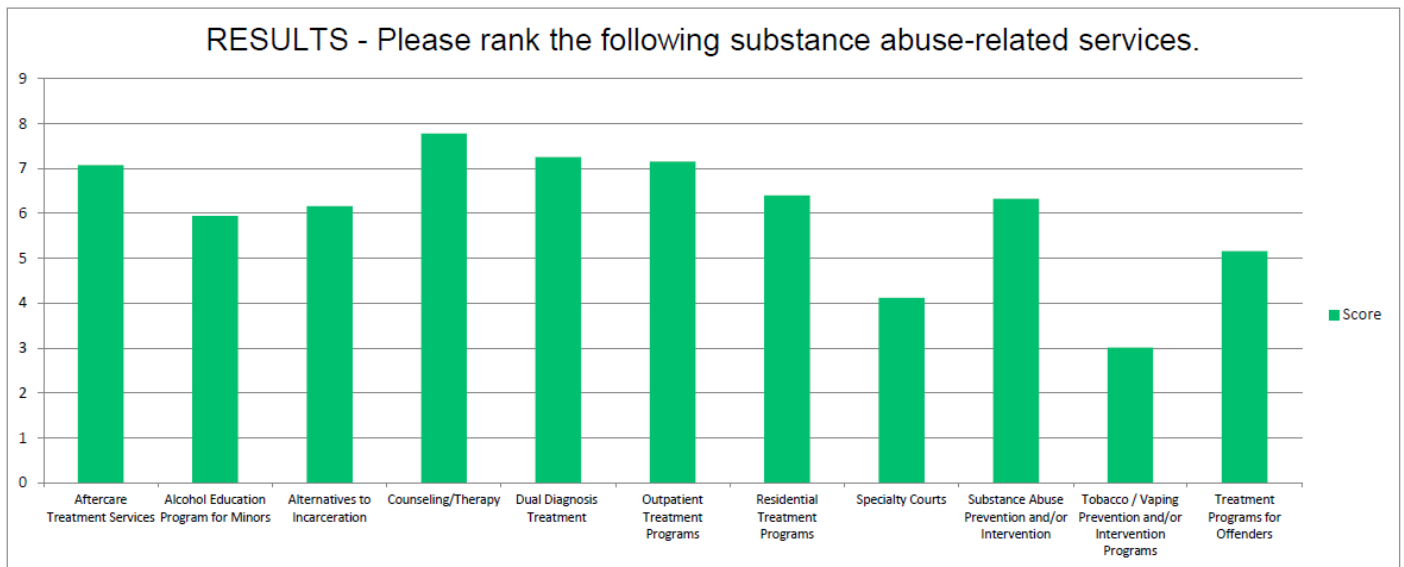

**Based on survey results, the following substance abuse needs were identified and are recognized as the top five regional priorities (not listed in order of priority):**

- Aftercare treatment services
- Alternatives to incarceration
- Counseling / therapy for youth and/or adults (including dual diagnosis and/or intensive outpatient treatment)
- Residential treatment programs
- Substance abuse prevention and/or intervention

## **Goals of substance abuse regional priorities:**

- To increase capacity for agencies providing services to persons with substance abuse issues.
- To provide effective treatment programs and/or counseling for persons with substance abuse issues.
- To enhance collaborations between service agencies, thus strengthening substance abuse-related programs.
- To support programs that are based on proven, evidence-based practices.

# CRIMINAL JUSTICE

## Introduction

Crime rates may have declined, but many incidents remain serious and the demand for public safety continues to be high. The nature of the crime now includes fear of terrorist attack, identity theft, and cybercrimes that reflect the global aspects of our society. Police departments not only must continue to respond to traditional crime problems but also must now address new ways in which to minimize risks to citizens and communities. Innovations in policing include more cooperation across jurisdictional boundaries and with agencies and information systems that have previously not been considered relevant to law enforcement. Police departments also have adopted policies and procedures that recognize, formally, the responsibilities police officers always have had for crime prevention and order maintenance that extend beyond crime fighting. To do their job effectively, police officers must be well equipped and capable of solving a wide range of public safety problems.

Today many criminal justice systems operate within constrained budgets and in response to new crime problems. Criminal justice systems also must appease public demand both for less crime and for punishment of offenders. Legal systems have new responsibilities in addressing the needs of victims, and the role of victims also has grown in case processing.

Technology is a major thrust in improving criminal justice in the NCTCOG region. Funding for law enforcement equipment that advances the efficiency of the agency or improves safety for citizens and officers is paramount in impacting crime on the local level.

**Based on survey results, the following criminal justice needs were identified and are recognized as the top five regional priorities for law enforcement projects (not listed in order of priority):**

- Crime prevention programs and/or crime prevention equipment
- Equipment / technology for law enforcement
- Officer safety equipment (i.e., body armor, shields)
- Specialized investigators (i.e., sexual assault, cold case, crimes against children, family violence, financial crimes, human trafficking investigation)
- Specialized training for law enforcement

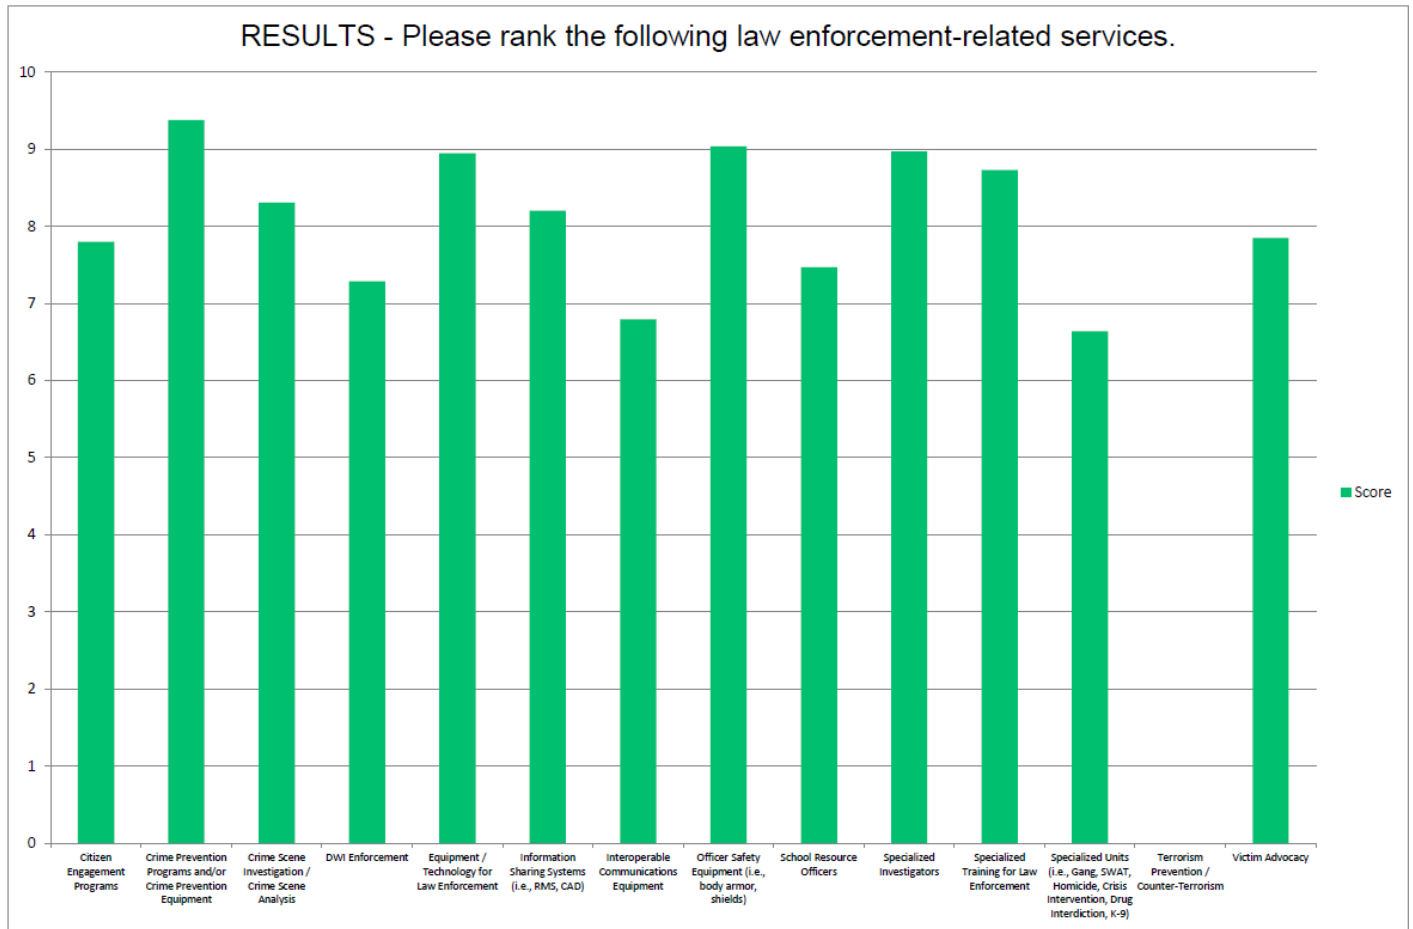

**Based on survey results, the following criminal justice needs were identified and are recognized as the top five regional priorities for judicial / court projects (not listed in order of priority):**

- Court-based victims services
- Specialized courts (i.e., family violence court, adult / juvenile drug court, mental health court, DWI court, human trafficking court)
- Specialized investigators (i.e., family violence, crimes against children, elder abuse, financial crimes, human trafficking)
- Specialized prosecutors (i.e., family violence, crimes against children, elder abuse, financial crimes, human trafficking)
- Treatment services for offenders

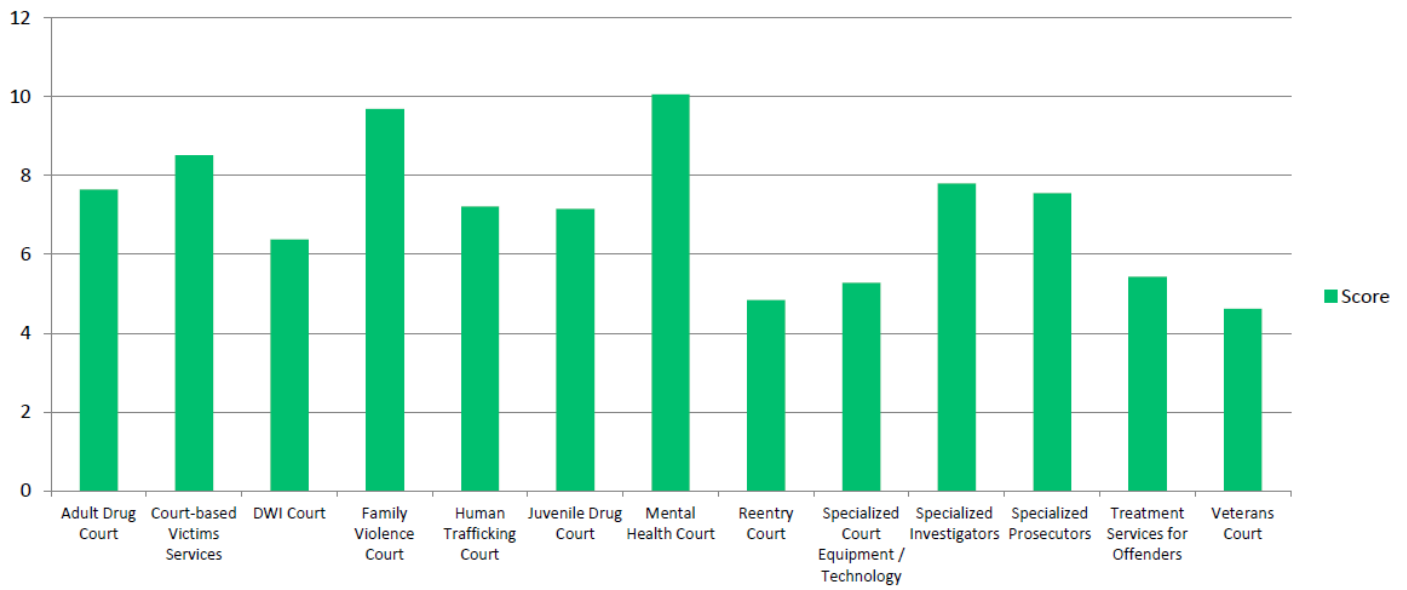

## **Goals of criminal justice regional priorities:**

- To increase capacity for agencies providing law enforcement or judicial services.
- To provide appropriate and effective training to law enforcement and judicial professionals.
- To support law enforcement by providing equipment that enhances their ability to respond to crime and/or reduce crime.
- To enhance collaborations between agencies.
- To support programs that are based on proven, evidence-based practices.

12 County MPA	7,698,985	8,345,288	8,578,654	233,366	2.8%

### 2025 Population Estimates Methodology

NCTCOG uses the housing unit method for estimating current year population:

**Estimated household population** = estimated units \* estimated occupancy rate \* estimated persons per occupied unit

The calculation is performed for each unit type (single family, multi-family, other). The results are summed along with an estimate of group quarters population to arrive at a total population estimate. Every year, cities are asked to provide information about changes in housing stock and population in group quarters housing. Cities are also given the opportunity to review figures prior to release. The 2024 population estimates for some cities have been revised. The estimates included herein supersede any prior estimates.

Copper Canyon, Runaway Bay, and Wolfe City did not participate in the survey.

Unincorporated data were not available for the following counties: Denton, Erath, Hood, Hunt, Navarro, Palo Pinto, Parker, Wise.

Various totals and percentages provided throughout this report are calculated on rounded figures and therefore might not match precise sums and percentages calculated on unrounded figures.

**Disclaimer:** There are a variety of ways to estimate population for a given area. The North Central Texas Council of Governments has selected a method that accommodates the varying level of data available for local communities while focusing on consistency. These estimates were developed for regional planning activities and have not been evaluated for other uses. They are provided as an informational item and are likely to differ from estimates produced by others, including the cities and counties listed herein. ### Research and Information Services

NCTCOG's Research and Information Services (RIS) Department provides objective, consistent, and timely information and analysis on development in the region for use in regional and local planning and economic development activities. The substantive focus is on population, employment, and other socio-economic factors; commercial and residential development; and land use. The department also provides support to a regional Geographic Information System (GIS) and NCTCOG's internal computer network. To learn more about regional data initiatives within RIS, visit: <https://www.nctcog.org/regional-data>.

### North Central Texas Council of Governments

The North Central Texas Council of Governments (NCTCOG) is a voluntary association of, by, and for local governments, and was established to assist local governments in planning for common needs, cooperating for mutual benefit, and coordinating for sound regional development. NCTCOG's purpose is to strengthen both the individual and collective power of local governments and to help them recognize regional opportunities, eliminate unnecessary duplication, and make joint decisions. To learn more about NCTCOG, please visit <https://www.nctcog.org/>.
