

2019 Regional Transportation Council
**Principles for the
Federal Surface Transportation Authorization**

Adequately Fund the Transportation System

- Pass a long-term bill (6 years) to provide stability for transportation planning
- Increase traditional revenue – Identify additional revenue to maintain and improve the system and address the solvency of the Highway Trust Fund
- Allow flexibility in traditional funding and collect revenue smarter – update outdated allocation formulas, resolve the donor state issue
- Provide adequate funding for air quality, congestion mitigation programs and all modes of transportation
- Allow for the use of innovative funding, such as toll roads, TIFIA and infrastructure banks, and seek opportunities to leverage funds
- Implement a vehicle miles traveled fee pilot program

Define a National Transportation Vision

- Continue to implement regional, state and national goods movement policies and programs along with a multimodal freight network with highways, freight rail, seaports, inland ports and airports
- Expand the MPO role in the freight decision making process
- Preserve and renew transportation assets

Increase Efficiency

- Continue to support environmental and project delivery streamlining
- Give greater funding and responsibilities to large MPOs
- Encourage partnerships between federal agencies to break silos and solve multiple problems simultaneously
- Streamline and simplify the air quality regulatory process
- Continue support for performance-based planning

Expand Options

- Maximize transit-oriented developments and promote transit ridership
- Connect land use and transportation decisions and promote the availability of transit and bicycle-pedestrian options
- Support public and private shared mobility solutions
- Improve air quality; ensure eligibility clean vehicle and technology programs and congestion relief projects and programs eligible for federal highway funding

North Central Texas
Council of Governments

Pursue Innovation, Technology and Safety

- Support innovation and technology to improve the transportation system; increase safety and relieve congestion
 - Support the development and deployment of advanced-technology and alternative-fuel vehicles
 - Encourage high-speed rail development and expansion in Texas
 - Support a safe, consistent implementation of technological advances, such as autonomous vehicles, data sharing and unmanned aircraft systems, through dialogue and collaboration of Federal, State and local governments
 - Examine the effectiveness of statewide or local bans on use of wireless communications devices while driving and, if deemed ineffective, improve roadway safety and reduce distracted driving through measures such as technology to disable use of a driver's cell phones for purposes other than emergency or navigation uses while a driver is operating a vehicle in motion.
