   - *All data sources must be cited.*

3. **TARGET GROUP – eGrants (up to 5 points):**

   - *Describe the agencies, individuals, or other groups who will be served by the proposed project.*

4. **PROJECT APPROACH & ACTIVITIES – eGrants (up to 20 points):**

   - *Provide core information needed to understand the methodologies, approaches, frequency/duration of services, and activities to be employed by the project.*
   - *Provide a rationale for choosing this particular model.*

   - *Describe your agency's background, organizational capabilities, staff capabilities and qualifications (including contractors), and performance history to carry out this specific project.*
   - *If licensed or certified staff (including contractors) will perform work, describe required license or certification. Empty positions requiring a license or certification should be noted.*
   - *Briefly summarize any collaborative partnerships created for the purpose of the proposed project (also complete Collaboration table in NCTCOG Addendum).*

- *Describe what the baseline, or current state is, for output and outcome measures.*

7. **EVIDENCE-BASED PRACTICES – eGrants (up to 5 points):**

- *Describe the research or evidence used to select the methods, approach, and activities described in the other narrative sections. Where possible, cite specific research, evidence, or published best/promising-practices model used as the basis for the project's design.*
