

WATER RESOURCES COUNCIL

APRIL 7, 2016

NORTH CENTRAL TEXAS WATER RESOURCES SURVEY

- 58 total responses from 53 different entities
 - Cities and Towns, Groundwater Districts, Independent School Districts, River Authorities, Water Districts
- Trends
 - Public awareness of water resources
 - Water conservation/ensuring appropriate water supply
 - Funding for aging infrastructure
- NCTCOG is developing the North Central Texas Water Resources Report which will be a public friendly document to highlight the findings from the survey as well as programs or initiatives occurring in North Central Texas related to water resources.

WATER QUALITY MANAGEMENT PLAN UPDATE

- Discharge Monitoring Report Data
 - NCTCOG received permit data from TCEQ
 - Daily Average Flow (MGD), Daily Maximum Flow (MGD), 2-hour Peak Flow (gal/min), and Annual Average Flow (MGD) were averaged for each permit (if data was received)
 - Methods were prescribed by the TCEQ
 - Please review the manipulated DMR data and contact Rachel Evans at REvans@nctcog.org or 817-695-9223 to discuss any issues
- Updated Data
 - Population estimates, Population forecasts
 - This data will be available from NCTCOG Research & Information Services in April
- New Data
 - Reservoirs
 - Historical 303(d) Category 4 & 5
 - TCEQ reuse permit data
 - Texas Water Development Board reuse strategies and goals

NEXT MEETING – JUNE 16TH

- Public Hearing
 - NCTCOG will hold a public hearing for the Water Quality Management Plan prior to the WRC meeting on June 16th
- Committee Appointments
 - NCTCOG will be sending out reappointment forms in May
 - Currently trying to fill City of Dallas vacancy
 - We will bring the completed FY2017 Roster to the June 16th Meeting

ROUNDTABLE

MEMBERS AND STAFF SHARE WHAT IS HAPPENING IN THEIR COMMUNITIES
