# 2025 UNIFIED TRANSPORTATION PROGRAM (UTP) AND REGIONAL 10-YEAR PLAN UPDATE

Surface Transportation Technical Committee  
June 28, 2024

# BACKGROUND

- Texas House Bill (HB) 20 requires that Metropolitan Planning Organizations (MPO) develop 10-Year Plans using performance-based planning and project selection methods
- Includes projects funded with Category 2 (MPO selected), Category 4 (Texas Department of Transportation [TxDOT] District selected), and Category 12 (Texas Transportation Commission [TTC] selected)
- The Regional 10-Year Plan was originally approved by the Regional Transportation Council (RTC) in December 2016
- This plan is updated annually in conjunction with the development of TxDOT's UTP

# ACTIVITIES SINCE LAST UPDATE

- TxDOT began developing the 2025 UTP in Fall 2023
- NCTCOG staff has coordinated with the TxDOT Districts regarding project updates (e.g., costs/funding, environmental clearance and let dates), and potential new projects
  - Includes 2024 projects that need additional funding to cover cost overruns at letting
- To satisfy a February 16, 2024 deadline set forth by TxDOT, a draft project listing was developed that included project revisions and potential new projects

# PRINCIPLES FOR THE DEVELOPMENT OF THE REGIONAL 10-YEAR PLAN

- Project should be included in the Metropolitan Transportation Plan
- Focus on “system” versus new, stand-alone projects
- Fully fund existing projects before funding new projects (with a focus on projects letting in the next 2-3 years)
- Ensure equity of county allocations
- Maintain toll lanes/toll managed lanes on selected corridors
- Re-fund previously unfunded projects, when possible
- Ensure all RTC projects are approved in 2025 UTP (including “placeholders”)
- Projects must be scored and should have a score sufficient to qualify for funding

# REGIONAL FUNDING ALLOCATIONS FOR 2017-2025 UTPs

Funding Category*	2017 UTP	2018 UTP	2019 UTP	2020 UTP	2021 UTP	2022 UTP	2023 UTP	2024 UTP	2025 UTP (Proposed)

\* Amounts shown in billions

# WEST/EAST DISTRIBUTION – CATEGORY 2 AND NON-FORMULA FUNDS

- In coordination with TxDOT, the TIP Team has tracked lettings, change orders, and other charges for Category 2 funding since 2014 to determine carryover for each subregion.
- Coordination with TxDOT is also ongoing regarding the region's non-formula (e.g., Category 12) tracking efforts.
- More details on the region's latest Category 2 carryover balance and non-formula tracking will be provided once coordination with TxDOT and funding decisions have been finalized.

# NEXT STEPS

- Incorporate changes to listings if the region receives any Category 12 funding from the TTC
- Finalize project listings in coordination with the TxDOT Districts and TxDOT Headquarters
- Bring back the listings for approval, including Category 12 amounts and changes to the Let/Completed projects list (e.g., 2024 cost overruns)
- Provide an update on the region's Category 2 carryover balances and latest information on West/East non-formula fund tracking
- Bring back any project changes to the committees if the TTC action is different than proposed project listings

## 2024 Population Estimates Methodology

NCTCOG uses the housing unit method for estimating current year population:

**Estimated household population = estimated units \* estimated occupancy rate \* estimated persons per occupied unit**

The calculation is performed for each unit type (single family, multi-family, other). The results are summed along with an estimate of group quarters population to arrive at a total population estimate. Every year, cities are asked to provide information about changes in housing stock and population in group quarters housing. Cities are also given the opportunity to review figures prior to release. Pelican Bay and Wolfe City did not participate in the survey. The 2023 population estimates for some cities have been revised. The estimates included herein supersede any prior estimates.

Unincorporated data were not available for the following counties: Erath, Hood, Hunt, Navarro, Palo Pinto, Parker, Somervell, Tarrant, Wise.

Various totals and percentages provided throughout this report are calculated on rounded figures and therefore might not match precise sums and percentages calculated on unrounded figures.

**Disclaimer:** There are a variety of ways to estimate population for a given area. ## Research and Information Services

NCTCOG's Research and Information Services (RIS) Department provides objective, consistent, and timely information and analysis on development in the region for use in regional and local planning and economic development activities. The substantive focus is on population, employment, and other socio-economic factors; commercial and residential development; and land use. The department also provides support to a regional Geographic Information System (GIS) and NCTCOG's internal computer network.
