

Bill Number H.R. 1500

Bill Action

Bill Title Intelligent Transportation Integration Act

Bill Category Transportation

Author Graves, Garret

Brief Description This bill would direct the Secretary of Transportation to establish an implement a program leveraging anonymized private third party data to inform infrastructure planning decisions and integrated traffic management systems. This would include areas such as congestion reduction, decreasing traveled miles, increasing safety, improving freight efficiency, reducing environmental impacts, traffic light efficiency, lane management, and emergency notifications. It would also institute annual reporting requirements to congress on program efficacy and best practices.
