10:55 – 11:15 5.

Mobility 2050: Draft Recommendation

Action Possible Action Information Minutes: 20

Presenter: Brendon Wheeler, NCTCOG

Item Summary: A summary of the draft Mobility 2050 recommendations will be presented prior to requesting approval to take these draft recommendations to the public in April and May. Plan recommendations include policies, programs, and projects to advance improvements for a multimodal transportation system within the region and can be found online for review at www.nctcog.org/planinprogress. The financial plan, major roadway and transit projects, results of the nondiscrimination analysis, and public input to-date will be highlighted in the presentation.

Background: Federal guidelines require the Dallas-Fort Worth region update the long-range transportation plan a minimum of every 4 years and forecast at least 20 years into the future. *Mobility 2050: The Metropolitan Transportation Plan for North Central Texas*, currently under development, must demonstrate federal Transportation Conformity and be financially constrained. The updated plan will include a new financial plan, updated demographics and technical analysis, updated project recommendation listings, and robust public involvement. Additional information is provided in Electronic Item 5.1. A listing of all the draft policies and programs included in Mobility 2050 are included in Electronic Items 5.2 and 5.3, respectively. Roadway and transit project recommendations maps are included in Electronic Item 5.4. Early public input is included in Electronic Item 5.5.

Performance Measure(s) Addressed: Roadway, Transit
