

TO PROTECT OUR WATER WAYS

DO THIS

NOT THAT

FOGS

FATS, OILS, & GREASE SHOULD BE DISPOSED OF IN THE TRASH OR RECYCLED IN A GREASE TRAP

DO NOT PUT FOGS DOWN THE DRAIN . THEY CAN SOLIDIFY AND CAUSE BLOCKAGES IN PIPES.

THE 3 P's

ONLY FLUSH PEE, POOP, & TOILET PAPER. RESPONSIBLY DISPOSE OF CLEANING PRODUCTS AND MEDICINES.

DO NOT FLUSH WIPES NO MATTER WHAT. NO FLUSHING SANITARY PADS OR TAMPONS.

Making these changes leads to less clogs in our wastewater systems. This helps protect our environment and keeps bacteria from entering our water ways.

TO PROTECT OUR WATERWAYS

TRASH THIS

RECYCLE THAT

Making these changes leads to less clogs in our wastewater systems. This helps protect our environment and keeps bacteria from entering our water ways.

The preparation of this document was financed through funding from the Texas Commission on Environmental Quality. The North Central Texas Council of Governments (NCTCOG) is working with stakeholders to implement best management practices to address and prevent bacteria impairments in the North Central Texas region.
