

# AGENDA

TSI – Flood Early Warning System Pre-Workshop Meeting  
January 15, 2026  
2:00-3:00 PM  
Virtual via Microsoft Teams

1. Introduction to the North Texas integrating Transportation and Stormwater Infrastructure (TSI) project:
  - a. Introduce the TSI concept at a high level and its emphasis on proactive and integrated regional planning
2. Summarize the TSI Flood Early Warning System (FEWS) Masterplan Concept:
  - a. Share a high-level overview of the TSI FEWS approach, including the SOP, Masterplan, and sample Regional Characteristics and Capacity Analysis memos
3. Solicit feedback on the approach, resources, and survey questions to help inform the more comprehensive draft FEWS results that the study team will share at the February 17th workshop.
