7. **Roundtable.** The group will share what is happening in their communities.

Geo Navarro, City of Dallas, said they completed the first round of Bacterial Source Tracking (BST) sampling at White Rock Creek and White Rock Lake. Their correspondence with Texas A&M Dr. Gentry indicated that they finished the isolation part of the process, and they will begin the fingerprinting soon. By mid to late July, they should have their first snapshot of what is and isn't present at White Rock Creek and White Rock Lake. They will then begin round 2 sampling a week or two later and go through the entire process four more times before concluding. Heather Finn, Trinity River Authority, said they conducted a biological assessment with the city of Irving. Johnathon B. Allen, City of Irving, said they completed their biological assessment on Tuesday June 18th, 2024 and it went well. They are planning to do Bacterial Source Tracking but have run into some snags on the road but Irving is interested in a BST seminar.

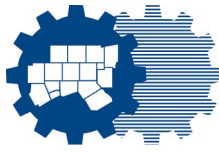

8. **Adjournment.**

The next TMDL Coordination Committee meeting is tentatively scheduled for **June 19, 2025 at 9:30 AM**. The location for this meeting is to be determined.
