Western Training Area

- The Western Training Area (WTA) is a training space for American and NATO forces at Fort Cavazos in Texas. The WTA extends more than 150 miles to the west of the installation and provides access to 15,900 square miles of airspace. The WTA is used for realistic training, including AH-64 Apache transition unit training and combined arms live fire exercises.

Commander, 166th Aviation Brigade

COL Kacie M. Lee

WTA Fly Friendly Town Hall

Army Aviation Tactical Flight Training

- During combat operations, flight profiles are dictated mostly by the terrain and enemy threat.
- Exposure to enemy sensors and weapon systems are a fundamental consideration in determining flight profiles.

Video 1:

Video 2:

- Terrain flight is challenging and requires consistent practice to maintain proficiency.
