SUMMARY

The North Central Texas Council of Governments (NCTCOG) is a voluntary association of, by and for local governments, and was established to assist local governments in planning for common needs, cooperating for mutual benefit, and coordinating for sound regional development. NCTCOG's purpose is to strengthen both the individual and collective power of local governments and to help them recognize regional opportunities, eliminate unnecessary duplication, and make joint decisions.

NCTCOG serves a 16-county region of North Central Texas, which is centered around the two urban centers of Dallas and Fort Worth. NCTCOG has over 230 member governments including 16 counties, numerous cities, school districts, and special districts.

Each member government appoints an NCTCOG voting representative from its governing body. These voting representatives make up the General Assembly, which annually elects the Executive Board. The Board, composed of 17 locally elected officials, is the policy-making body for all NCTCOG activities. The Board is supported by technical, study, and policy development committees and a professional staff headed by Mike Eastland, Executive Director.

The planning process provides an opportunity to identify and assess regional justice-related priorities and strategize the means and methods to respond to these needs.

The December 2017 survey results were taken into consideration by the NCTCOG Criminal Justice Program staff in cooperation with NCTCOG's Criminal Justice Policy Development Committee (CJPDC) members and priorities were assigned based on the needs determined by survey results.

This document reflects efforts of regional stakeholders concerned with assuring any gaps in services are addressed, thus making our communities safer places in which to live and work.

Justice-related priorities, goals and requirements concerning the makeup of the Regional Criminal Justice Strategic Plan are subject to change from year to year.

PLANNING PROCESS OVERVIEW

With the input and guidance of the CJPDC, the inaugural electronic needs assessment project was developed in 2013 and results were incorporated in the 2014-2015 Regional Criminal Justice Strategic Plan. Drawing on local priorities identified via the subsequent 2016-2017 plan, an online region-wide survey of community stakeholders was developed and distributed in December 2017.

Prior to survey distribution, a CJPDC Strategic Planning Subcommittee was formed. These subject matter experts provided valuable feedback and technical assistance to NCTCOG staff on the survey content.

NCTCOG will evaluate, update and submit the Regional Criminal Justice Strategic Plan and an Executive Summary by a deadline set by the Office of the Governor's Criminal Justice Division.

How are communities engaged in this process?

Topics addressed in the online survey include criminal justice/law enforcement, juvenile justice, mental health, substance abuse, and victims of crime. Stakeholders consisting of elected officials, community-based organizations, judicial and law enforcement organizations, ISDs, local governments, state agencies, public health, social service providers, colleges and universities, and interested citizens provided input to the survey.

How is this plan used by NCTCOG's Criminal Justice Policy Development Committee (CJPDC)?

The top priorities identified for each section are provided to all applicant agencies during grant application workshops. Each funding category has scoring criteria based on how well a project aligns with local priorities.

CJPDC members are required to attend scoring training prior to assessing and ranking applications. This training includes discussion of the local priorities and the role local priorities play in prioritizing applications.

Are any new topics addressed in the 2018-2019 Strategic Plan?

Based on regional trends and feedback from CJPDC and community stakeholders, a number of new topics were added to the survey, including:

Victims of Crime –

- Transitional housing
- Immigration status issues
- Services to persons with disabilities
- Specialized Human Trafficking Court

Juvenile Justice –

- Suicide prevention and intervention for youth
- Juvenile Mental Health Court

Mental Health –

- Dual diagnosis treatment (mental health and substance abuse)
- Sliding fee-based services for individuals without insurance
- Autism/Spectrum disorders services
- Eating disorder services
- Substance abuse detox services
- Veterans services
- Homelessness services
- Specialty courts

Substance Abuse –

- Aftercare treatment services
- Medically-assisted detox services
- Dual diagnosis treatment (mental health and substance abuse)
- Specialty courts

Criminal Justice –

- Body armor needs
- Records management system improvements

REGIONAL PROFILE

The NCTCOG 16-county region consists of Collin, Dallas, Denton, Ellis, Erath, Hood, Hunt, Johnson, Kaufman, Navarro, Palo Pinto, Parker, Rockwall, Somervell, Tarrant and Wise counties. (2018 population estimates below provided via NCTCOG’s Regional Data Center.)

County	2018 Estimated Population January 1
Collin	969,730
Dallas	2,529,150
Denton	844,260
Ellis	183,360
Erath	44,200
Hood	65,060
Hunt	95,960
Johnson	168,890
Kaufman	119,670
Navarro	49,740
Palo Pinto	28,710
Parker	131,210
Rockwall	97,990
Somervell	9,640
Tarrant	1,989,810
Wise	62,700
TOTAL	7,390,080

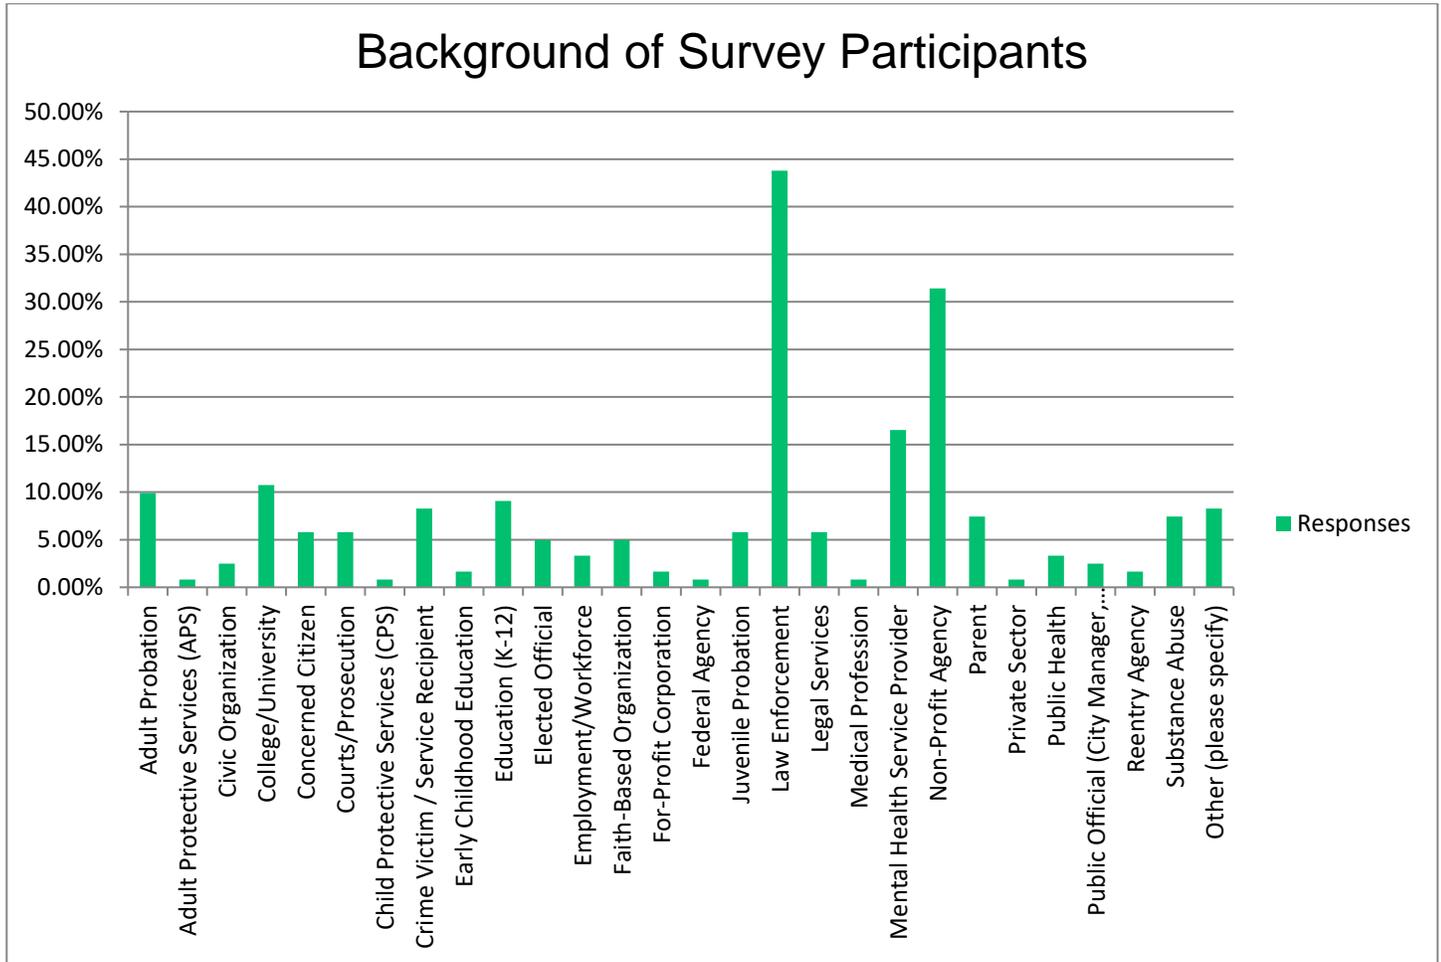

Per the Executive Summary of NCTCOG’s 2018 Population Estimates Report (see Appendix C for full 2018 Population Estimates report):

The estimated January 1, 2018 population for the NCTCOG region is 7,390,080. Last year, the region added 143,070 people. In 2017, 12 cities grew by more than 10%. The city of Dallas led the region in growth, adding 16,210 people last year while Fort Worth added 14,130, followed by Frisco with 11,540. Collin, Denton, Dallas, and Tarrant counties each added more than 20,000 people last year, accounting for 82% of the regional growth.

Residential construction continued to trend upward as more corporate relocations have continued to play a major role in the surge in growth. Since 2000, the region has grown by over 39%. More than 48,000 new residential units were completed in 2017 making last year the most active year for new residential construction since 2007. The city of Dallas led the way in residential units with more than 9,000 completions last year. More than 80% of these new units were multi-family. Dallas accounted for one third of all new multi-family units added to the region in 2017. Fort Worth had more than 6,000 residential completions. The top 10 cities in new construction accounted for 60% of all units built last year. The north central Texas region should continue to be one of the leading destinations for people looking to relocate to an area with a mild climate, relatively low cost of living, as well as a vibrant and diversified workforce.

REGIONAL NEEDS ASSESSMENT SURVEY PARTICIPANTS

As demonstrated in the table below, needs assessment survey participants represented a variety of backgrounds.

Below are agencies that responded to the needs assessment distributed in December 2017. Please note that responders were allowed to participate anonymously. The agencies listed below elected to provide their contact information:

- Allen Police Department
- Argyle ISD Police Department
- Bedford Police Department
- Boys & Girls Clubs of Greater Fort Worth
- Bridgeport Police Department
- Brighter Tomorrows
- Burleson Police Department
- Center for Employment Opportunities
- Center for Transforming Lives
- Challenge of Tarrant County
- Children's Advocacy Center for Denton County
- Cleburne ISD

Collin County Government Administration
Collin County District Attorney's Office
Communities in Schools of North Texas
Community Enrichment Center
Corinth Police Department
Corsicana Police Department

Youth and Family Counseling

VICTIMS OF CRIME

Introduction

The days, weeks, months and even years after a person is a victim of crime can often be chaotic, overwhelming and highly emotional. Family, friends and the community are impacted by the crime. Not every crime victim will seek assistance immediately following the event; some may wait to find services at a later date. When the victim does seek out assistance, it is crucial that services are available as soon as possible in order to decrease the emotional and physical impacts on victims of crime. It is imperative that when a victim seeks services that they are met with compassion and support. A victim may not understand the legal process of the crime, the medical procedures or the methods of therapy that are available to them. Many victims have symptoms such as confusion, fear, anxiety, emotional numbness, rage and the inability to sleep. Victims of crime are of all ages, races, religions, and socio-economic backgrounds. The services that are rendered to these victims should accommodate their needs.

Based on regional needs assessment survey results, the following victims of crime needs were identified and are recognized as the top five regional priorities (not listed in order of priority):

- Counseling/therapy for victims of crime
- Crisis intervention services for victims of crime (including hotline, assistance with crime victim compensation claims, information and referral, safety planning)
- Housing services for victims of domestic violence (including emergency shelter and/or transitional housing)
- Legal assistance (including navigating the justice system, protective orders)
- Projects focused on victims of sexual assault (adults and/or children)

Goals of victims of crime regional priorities:

- To increase capacity for agencies providing direct services to victims of crime.
- To enhance collaborations between service agencies, thus strengthening direct services to victims.
- To support programs that assist victims of crime in participating in the justice system.
- To support programs that are based on proven, evidence-based practices.

Needs assessment results for Victims of Crime:

The list below ranks the importance of victim services, with 1 being the most important and 30 being the least important:

1. Forensic interviews for child abuse victims
2. Forensic examinations for sexual assault victims
3. Emergency shelter
4. Preparing child witnesses for court
5. Mental health assistance (counseling/therapy)
6. Crisis Intervention
7. Specialized training for professionals
8. Filing protective orders
9. Victim services to older adults
10. Specialized child abuse courts
11. Specialized family violence courts
12. Community awareness/outreach/prevention
13. Developing safety plans
14. Multidisciplinary team case coordination
15. Specialized high risk teams to prevent domestic violence homicide
16. Transitional housing

17. Assistance filing victims compensation claims
18. Legal services
19. Hotline counseling
20. Information and referral
21. Advocating on behalf of victim for other service providers, creditors, employers
22. Specialized services for victims of human trafficking
23. Court advocacy
24. Transportation
25. Volunteer recruitment/training
26. Human trafficking courts
27. Culturally competent services
28. Medical accompaniment
29. Assisting victim in recovering property retained as evidence
30. Assisting with immigration status issues

Responders were asked to rank what their community does best in serving victims of crime, with 1 being the top service and 4 being the service needing the most improvement:

1. Responding to the emotional and physical needs of crime victims
2. Assisting victims to understand and participate in the criminal justice system
3. Providing victims with safety and security
4. Assisting victims in stabilizing their lives after a victimization

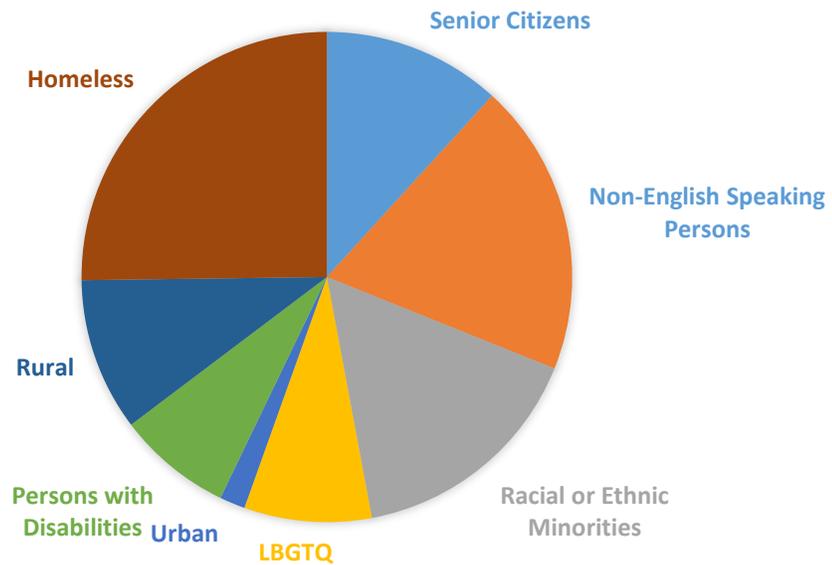

Responders were asked to identify and rank the gaps in services for victims of crime, with 1 being the least adequately provided and 29 being the most sufficiently provided:

1. Forensic interviews for child abuse victims
2. Forensic examinations for sexual assault victims
3. Hotline counseling
4. Filing protective orders
5. Assistance filing victims compensation claims
6. Crisis intervention
7. Information and referral
8. Preparing child witnesses for court
9. Developing safety plans
10. Legal services
11. Mental health assistance (counseling/therapy)
12. Specialized training for professionals
13. Court advocacy
14. Assisting victim in recovering property retained as evidence
15. Community awareness/outreach/prevention
16. Multidisciplinary team case coordination
17. Volunteer recruitment/training
18. Specialized child abuse courts
19. Culturally competent services
20. Specialized family violence courts
21. Victim services to older adults
22. Assisting with immigration status issues
23. Medical accompaniment
24. Advocating on behalf of victim for other service providers, creditors, employers
25. Transportation
26. Transitional housing
27. Human trafficking courts
28. Specialized high risk teams to prevent domestic violence homicides
29. Specialized human trafficking programs

Responders were asked to identify the most underserved victim of crime populations, with 1 being the most underserved and 8 being the least underserved:

1. Homeless
2. Non-English speaking persons
3. Racial or ethnic minorities
4. Senior citizens
5. Rural
6. LGBTQ
7. Persons with disabilities
8. Urban

Based on survey results, the chart below indicates the most underserved victims of crime populations

JUVENILE JUSTICE DELINQUENCY PREVENTION

Introduction

The intent of the juvenile justice system is focused upon rehabilitation, as opposed to punishment, in an effort to maximize the chances of the juvenile becoming a well-adjusted and contributing member of our society. Young people should not be expected to have the same values and judgment as adults. This is especially true if they have been the victim of poverty, neglect, and abuse. Swift and effective intervention can often spell the difference between a law-abiding life and a career of crime. Young lives can be salvaged. If we do not deal appropriately with them as juveniles, we will most certainly deal with them later as adults, and the costs will be much greater.

Based on regional needs assessment survey results, the following juvenile justice needs were identified and are recognized as the top five regional priorities (not listed in order of priority):

- Counseling/therapy (including specialized mental health assessment/treatment, suicide prevention/intervention, aftercare/reentry after secure confinement)
- Employment skills/job training for juveniles
- Prevention and/or intervention focused on reducing the use of alcohol, tobacco, and/or illicit drugs
- Projects that promote character building, improve life skills and/or family stability (including after-school programs, community service initiatives, and/or parent education)
- Projects that support School Resource Officers

Goals of juvenile justice regional priorities:

- To increase capacity for agencies providing services to youth.
- To enhance collaborations between service agencies, thus strengthening juvenile-related programs.
- To reduce recidivism in the juvenile population.
- To support programs that are based on proven, evidence-based practices.

Needs assessment results for Juvenile Justice:

The list below ranks the importance of Juvenile Justice services, with 1 being the most important and 28 being the least important:

1. Substance abuse early intervention
2. Mental health services
3. Suicide prevention and intervention
4. Family stability
5. Character building
6. Violence prevention
7. Substance abuse prevention
8. Afterschool programs
9. Life skills
10. Parent education
11. Drop-out prevention
12. Job skills training
13. Bully prevention
14. Mentoring
15. School resource officers
16. Specialized training for professionals
17. Juvenile mental health courts
18. First offender programs
19. Diversion programs

20. Offender accountability
21. Community education
22. Specialized juvenile offender courts
23. Programs for reentry after secure confinement
24. Gang prevention
25. Truancy prevention
26. Specialized services for female offenders
27. Community service
28. Tobacco use prevention

Responders ranked what their community does best in serving youth, with 1 being the top service and 9 being the service needing the most improvement:

1. Juvenile justice system
2. Training for professionals
3. Mental health assessment/treatment
4. Prevention programs
5. Preventing illegal use of alcohol, tobacco and drugs
6. Job skills training
7. Treatment programs
8. Parental involvement / Parental education
9. Aftercare / Reentry

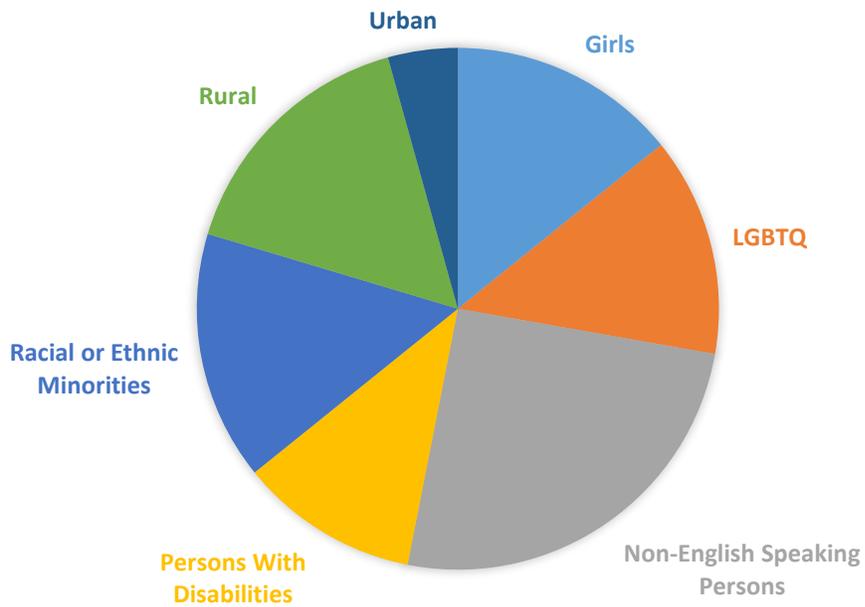

Responders were asked to identify and rank the gaps in services for juvenile justice issues, with 1 being the least adequately provided and 28 being the most sufficiently provided:

1. School resource officers
2. Community service
3. Substance abuse prevention
4. Specialized training for professionals
5. After school programs
6. Tobacco use prevention
7. Community education
8. Mental health services
9. Truancy prevention
10. Specialized juvenile offender courts
11. Bully prevention
12. First offender programs
13. Substance abuse early intervention
14. Suicide prevention and intervention
15. Mentoring
16. Violence prevention
17. Job skills training
18. Drop-out prevention
19. Life skills
20. Character building
21. Parent education
22. Offender accountability
23. Diversion
24. Gang prevention
25. Family stability
26. Juvenile mental health courts
27. Specialized services for female offenders
28. Programs for reentry after secure confinement

Responders were asked to identify the most underserved juvenile populations, with 1 being the most underserved and 7 being the least underserved:

1. Non-English speaking persons
2. Rural
3. Racial or Ethnic Minorities
4. Girls
5. LGBTQ
6. Persons with disabilities
7. Urban

Based on survey results, the chart below indicates the most underserved juvenile justice populations

MENTAL HEALTH

Introduction

Researchers have found the people with mental deficiencies are twice as likely as others to be victimized. Factors such as impaired cognitive abilities and judgment, physical disabilities, insufficient adaptive behaviors, constant interactions with “protector” who exploit them, lack of knowledge on how to protect themselves, and living and working in high-risk environments increase the vulnerability of people with mental illness to victimization.

As victims, people with mental illness may be reluctant to report a crime due to fear of retaliation or not clearly understanding that they have been victimized. If an investigation is launched, the victim may be perceived as an unreliable witness or may not have the skills to articulate the criminal event.

Based on regional needs assessment survey results, the following mental health needs were identified and are recognized as the top five regional priorities (not listed in order of priority):

- Assisting individuals in navigating the justice system and/or social services
- Counseling/therapy (including dual diagnosis)
- Housing needs for people with mental illness
- Improving access to medications for people with mental illness
- Specialized training for law enforcement, victim advocates, and/or court personnel on mental-health related calls/cases

Goals of mental health regional priorities:

- To increase capacity for agencies providing services to persons with mental health issues.
- To provide appropriate and effective training to professionals who serve persons with mental health issues.
- To enhance collaborations between service agencies, thus strengthening mental health-related programs.
- To support programs that are based on proven, evidence-based practices.

Needs assessment results for Mental Health:

The list below ranks the importance of Mental Health issues, with 1 being the most important and 16 being the least important:

1. Specialized training for law enforcement on mental health issues
2. Housing needs for persons with mental illness
3. Dual diagnosis treatment (mental health and substance abuse)
4. Specialized training for victim assistance advocates on mental health issues
5. Intensive outpatient treatment programs
6. Specialized training for court personnel on mental health issues
7. Access to medications
8. Residential treatment programs
9. Homelessness services
10. Sliding scale fee-based services for persons without insurance
11. Substance abuse detox services
12. Veterans services
13. Specialty courts
14. Culturally competent services
15. Autism/Spectrum disorders services
16. Eating disorder services

Responders ranked what their community does best in serving individuals with Mental Health issues, with 1 being the top service and 5 being the service needing the most improvement:

1. Training of justice professionals in mental health issues
2. Case management for clients
3. Service navigation for clients
4. Mental health courts
5. Justice system navigation for clients

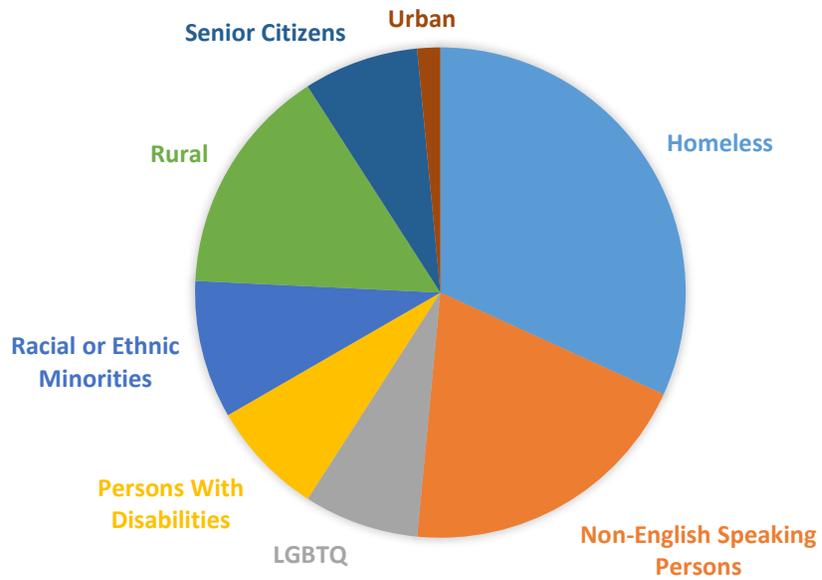

Responders were asked to identify and rank the gaps in services for Mental Health issues, with 1 being the least adequately provided and 16 being the most sufficiently provided:

1. Specialized training for law enforcement on mental health issues
2. Specialized training for victim assistance advocates on mental health issues
3. Specialized training for court personnel on mental health issues
4. Specialty courts
5. Access to medications
6. Veterans services
7. Intensive outpatient treatment programs
8. Dual diagnosis treatment (mental health and substance abuse)
9. Substance abuse detox services
10. Autism/spectrum disorder services
11. Culturally-sensitive services
12. Sliding fee-based services for individuals without insurance
13. Homelessness services
14. Residential treatment programs
15. Eating disorder services
16. Housing needs for persons with mental illness

Responders were asked to identify the most underserved mental health populations, with 1 being the most underserved and 6 being the least underserved:

1. Homeless
2. Non-English speaking persons
3. Rural
4. Racial or Ethnic Minorities
5. TIE – LGBTQ, persons with disabilities, senior citizens
6. Urban

Based on survey results, the chart below indicates the most underserved mental health populations

SUBSTANCE ABUSE

Introduction

The total economic cost associated with alcohol and drug abuse in Texas is over \$25 billion (National Alcoholism Center). Consequences of abuse include crime, premature death, reduced or lost productivity in the workplace, and motor vehicle accidents, to name a few.

Based on regional needs assessment survey results, the following substance abuse needs were identified and are recognized as the top five regional priorities (not listed in order of priority):

- Counseling/therapy for youth and/or adults
- Outpatient treatment programs
- Residential treatment
- Specialized drug courts
- Substance abuse prevention and/or intervention

Goals of substance abuse regional priorities:

- To increase capacity for agencies providing services to persons with substance abuse issues.
- To provide effective treatment programs and/or counseling for persons with substance abuse issues.
- To enhance collaborations between service agencies, thus strengthening substance abuse-related programs.
- To support programs that are based on proven, evidence-based practices.

Needs assessment results for Substance Abuse:

The list below ranks the importance of Substance Abuse-related services, with 1 being the most important and 16 being the least important:

1. Counseling/therapy
2. Substance abuse intervention
3. Dual diagnosis treatment (mental health and substance abuse)
4. Outpatient treatment programs
5. Substance abuse prevention
6. Aftercare treatment services
7. Residential treatment programs
8. Treatment programs for offenders
9. School-based prevention programs
10. Alternatives to incarceration
11. Specialty courts
12. DWI intervention
13. Medically-assisted detox services
14. Alcohol education programs for minors
15. Culturally competent services
16. Tobacco prevention programs for youth

Responders ranked what their community does best in serving individuals with Substance Abuse issues, with 1 being the top service and 6 being the service needing the most improvement:

1. Counseling/therapy
2. Specialty courts
3. Substance abuse prevention
4. Outpatient treatment

- 5. Substance abuse intervention
- 6. Residential treatment

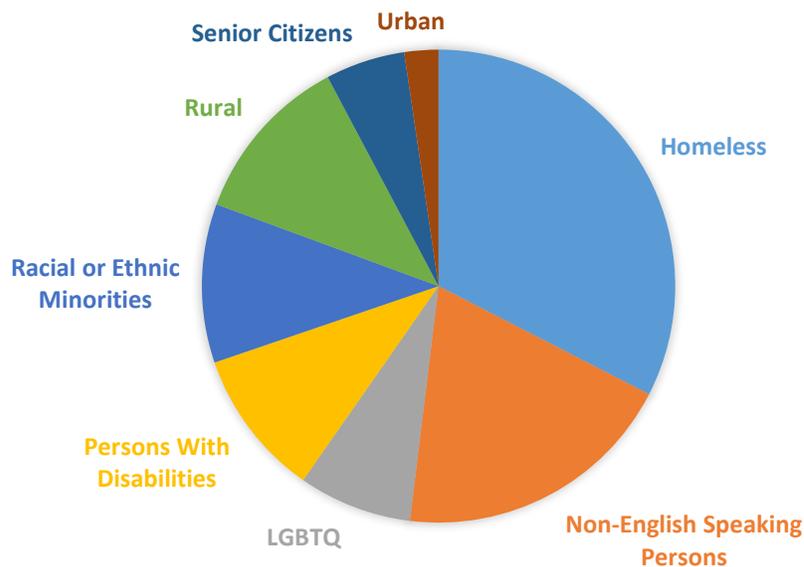

Responders were asked to identify and rank the gaps in services for Substance Abuse issues, with 1 being the least adequately provided and 5 being the most sufficiently provided:

- 1. Outpatient treatment programs
- 2. Prevention of drug-related offenses
- 3. Residential treatment programs
- 4. Prenatal exposure to illicit drugs
- 5. Culturally competent services

Responders were asked to identify the most underserved substance abuse populations, with 1 being the most underserved and 8 being the least underserved:

- 1. Homeless
- 2. Non-English speaking persons
- 3. Rural
- 4. Racial or ethnic minorities
- 5. Persons with disabilities
- 6. LGBTQ
- 7. Senior citizens
- 8. Urban

Based on survey results, the chart below indicates the most underserved substance abuse populations

CRIMINAL JUSTICE

Introduction

Crime rates may have declined, but many incidents remain serious and the demand for public safety continues to be high. The nature of the crime now includes fear of terrorist attack, identity theft, and cybercrimes that reflect the global aspects of our society. Police departments not only must continue to respond to traditional crime problems, but also must now address new ways in which to minimize risks to citizens and communities. Innovations in policing include more cooperation across jurisdictional boundaries and with agencies and information systems that have previously not been considered relevant to law enforcement. Police departments also have adopted policies and procedures that recognize, formally, the responsibilities police officers actually always have had for crime prevention and order maintenance that extend beyond crime fighting. To do their job effectively, police officers must be well equipped and capable of solving a wide range of public safety problems.

Today many criminal justice systems operate within constrained budgets and in response to new crime problems. Criminal justice systems also must appease public demand both for less crime and for punishment of offenders. Legal systems have new responsibilities in addressing the needs of victims, and the role of victims also has grown in case processing.

Technology is a major thrust in improving criminal justice in the NCTCOG region. Funding for law enforcement equipment that advances the efficiency of the agency or improves safety for officers is paramount in impacting crime on the local level.

Based on regional needs assessment survey results, the following criminal justice needs were identified and are recognized as the top five regional priorities for law enforcement projects (not listed in order of priority):

- Crime reduction (including increased police visibility in community, surveillance systems, traffic enforcement)
- Law enforcement training (including training on mental health-related calls, training for law enforcement-based victim advocacy staff)
- Projects that improve response times to emergency calls
- Specialized investigations (including crime scene investigation, domestic violence investigation, sexual assault investigation, child abuse investigation)
- Specialized technology/equipment improvements (including in-car computers and/or video systems, radio systems, records management systems, body worn camera, body armor)

Based on regional needs assessment survey results, the following criminal justice needs were identified and are recognized as the top five regional priorities for judicial/court projects (not listed in order of priority):

- Enhanced court security
- Reentry services for formerly incarcerated individuals
- Specialized family violence courts
- Specialized investigators and/or prosecutors (including domestic violence, child abuse, human trafficking)
- Specialized mental health courts

Goals of criminal justice regional priorities:

- To increase capacity for agencies providing law enforcement or judicial services.
- To provide appropriate and effective training to law enforcement and judicial professionals.
- To support law enforcement by providing equipment that enhances their ability to respond to crime and/or reduce crime.

- To enhance collaborations between agencies.
- To support programs that are based on proven, evidence-based practices.

Needs assessment results for Criminal Justice Services:

The list below ranks the importance of Law Enforcement services, with 1 being the most important and 16 being the least important:

1. Training for law enforcement
2. Adequate response time to emergency calls
3. Family violence investigation
4. Specialized training on mental health-related calls
5. Victim assistance advocacy
6. DWI enforcement
7. Drug enforcement
8. Crime scene investigation
9. Police visibility in community
10. Gang prevention unit
11. Neighborhood watch
12. Terrorism prevention / counter-terrorism
13. Adequate arrest rates
14. Cold case investigation
15. Citizens on patrol
16. Speed enforcement

Responders ranked what their law enforcement agencies do best, with 1 being the top service and 3 being the service needing the most improvement:

1. Community visibility
2. Responding to crime
3. Reducing crime

Responders were asked to identify and rank the gaps in services for Law Enforcement services, with 1 being the least adequately provided and 16 being the most sufficiently provided:

1. Speed enforcement
2. Adequate response time to emergency calls
3. Crime scene investigation
4. Adequate arrest rates
5. Police visibility in community
6. DWI enforcement
7. Training for law enforcement
8. Drug enforcement
9. Family violence investigation
10. Victim assistance advocacy
11. Neighborhood watch
12. Citizens on patrol
13. Terrorism prevention / counter-terrorism
14. Specialized training on mental health-related calls
15. Cold case investigation
16. Gang prevention unit

The list below ranks the importance of Law Enforcement equipment, with 1 being the most important and 19 being the least important:

1. Body worn cameras
2. Body armor
3. In-car video systems
4. Radio systems
5. Records management systems (RMS)
6. Crime scene investigation equipment/supplies
7. In-car computers
8. Evidence/property room equipment/supplies
9. Computer forensic software
10. SWAT equipment
11. Automated external defibrillators (AEDs)
12. Surveillance
13. K-9 equipment/supplies
14. Live scan
15. Mobile command unit
16. Radar unit
17. Automated license plate readers
18. Watch tower
19. Patrol boat

Responders were asked to identify and rank the gaps in services for Law Enforcement equipment, with 1 being the least adequately provided and 19 being the most sufficiently provided:

1. Body armor
2. In-car computers
3. In-car video systems
4. Evidence/property room equipment/supplies
5. Radio systems
6. Records management systems (RMS)
7. Radar unit
8. Body worn cameras
9. Crime scene investigation equipment/supplies
10. SWAT equipment
11. Automated external defibrillators (AEDs)
12. K-9 equipment/supplies
13. Mobile command vehicle
14. Surveillance
15. Computer forensic software
16. Live scan
17. Watch tower
18. Automated license plate readers
19. Watch tower

The list below ranks the importance of Judicial System services, with 1 being the most important and 19 being the least important:

1. Crimes against children investigators/prosecutors
2. Sexual assault investigators/prosecutors
3. Mental health courts
4. Family violence courts
5. Family courts
6. Treatment services for offenders

7. Justice information systems
8. DWI courts
9. Adult drug courts
10. Diversion programs
11. Juvenile drug courts
12. Defense investigators/prosecutors
13. GPS monitoring of offenders
14. Alternatives to incarceration
15. Veterans courts
16. Court security equipment
17. Human trafficking courts
18. Reentry courts
19. Alcohol monitoring of offenders

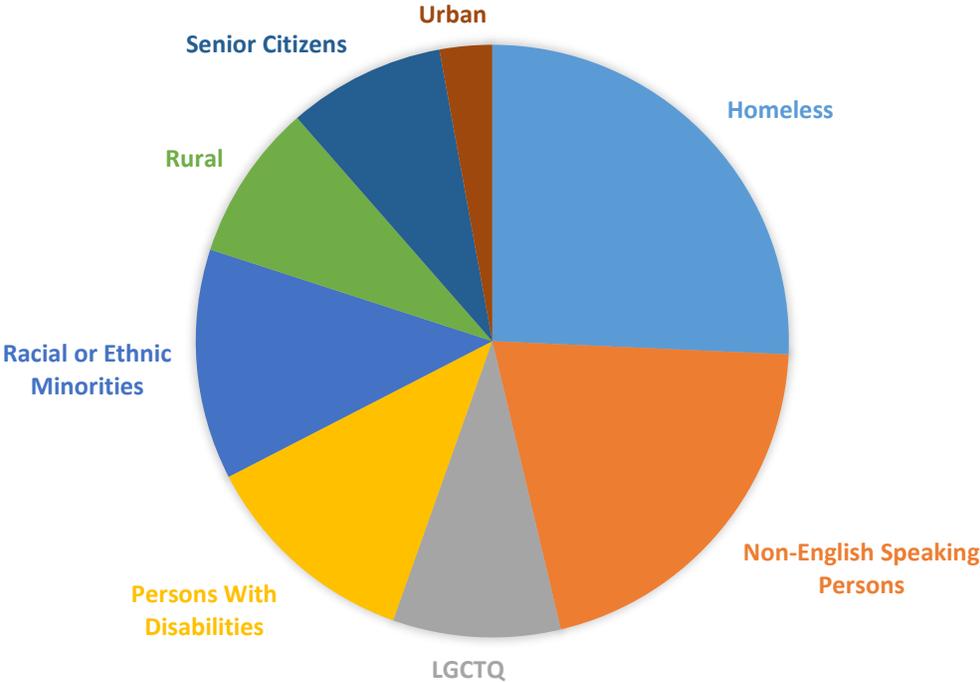

Responders were asked to identify and rank the gaps in services for Judicial System services, with 1 being the least adequately provided and 19 being the most sufficiently provided:

1. Court security equipment
2. Crimes against children investigators/prosecutors
3. Defense investigators/prosecutors
4. Family courts
5. Sexual assault investigators/prosecutors
6. Justice information systems
7. DWI courts
8. GPS monitoring of offenders
9. Treatment services for offenders
10. Family violence courts
11. Diversion programs
12. Alcohol monitoring of offenders
13. Juvenile drug courts
14. Adult drug courts
15. Alternatives to incarceration
16. Veterans courts
17. Mental health courts
18. Reentry courts
19. Human trafficking courts

Responders were asked to identify the most underserved populations receiving law enforcement and/or justice system services, with 1 being the most underserved and 7 being the least underserved:

1. Homeless
2. Non-English speaking persons
3. Racial or ethnic minorities
4. Persons with disabilities
5. LGBTQ
6. TIE – Rural, Senior Citizens
7. Urban

Based on survey results, the chart below indicates the most underserved populations for law enforcement/judicial services

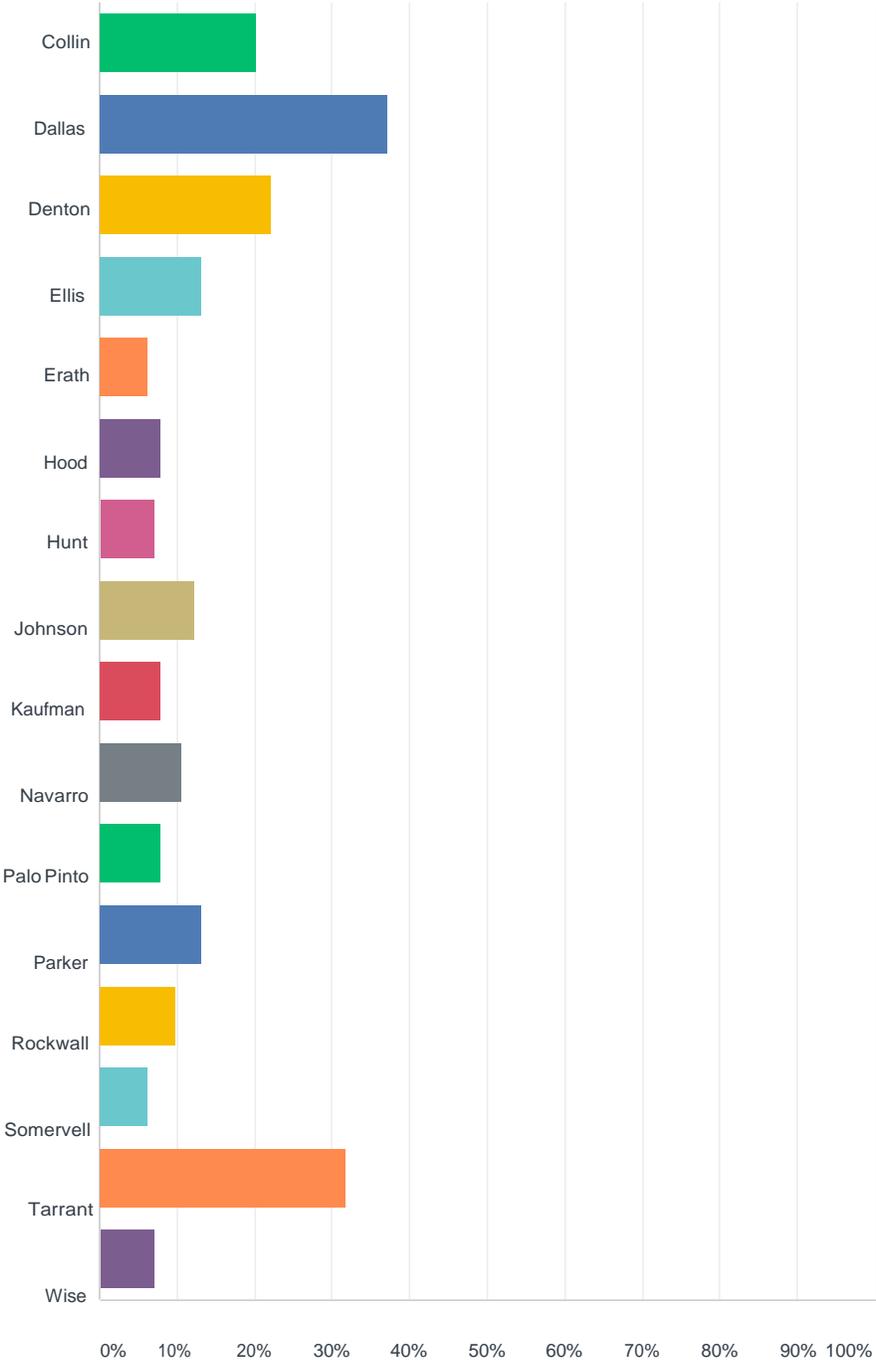

**North Central Texas
Council of Governments
Regional Criminal Justice Strategic
Plan**

2018-2019

**Survey Results from
December 2017 Needs Assessment
Appendix A**

Q2 If you are a completing this survey as part of an agency, check all counties that are served by your agency. If you are completing this survey as a citizen, select the county in which you reside.

All DFPS-Confirmed Child Abuse and Neglect Victims - 2016

Source: Office of the Governor's Criminal Justice Division *Resources for Local Criminal Justice Planning – October 2017*

Definitions - Victimization Statistics

Child Population: Child Population estimates are for the number of individuals age 0-17 and come from the Department of Family and Protective Services annual data book.

Confirmed Victim: An individual child who Child Protective Services has confirmed as a victim of abuse or neglect, whether as a direct result of a CPS investigation or otherwise.

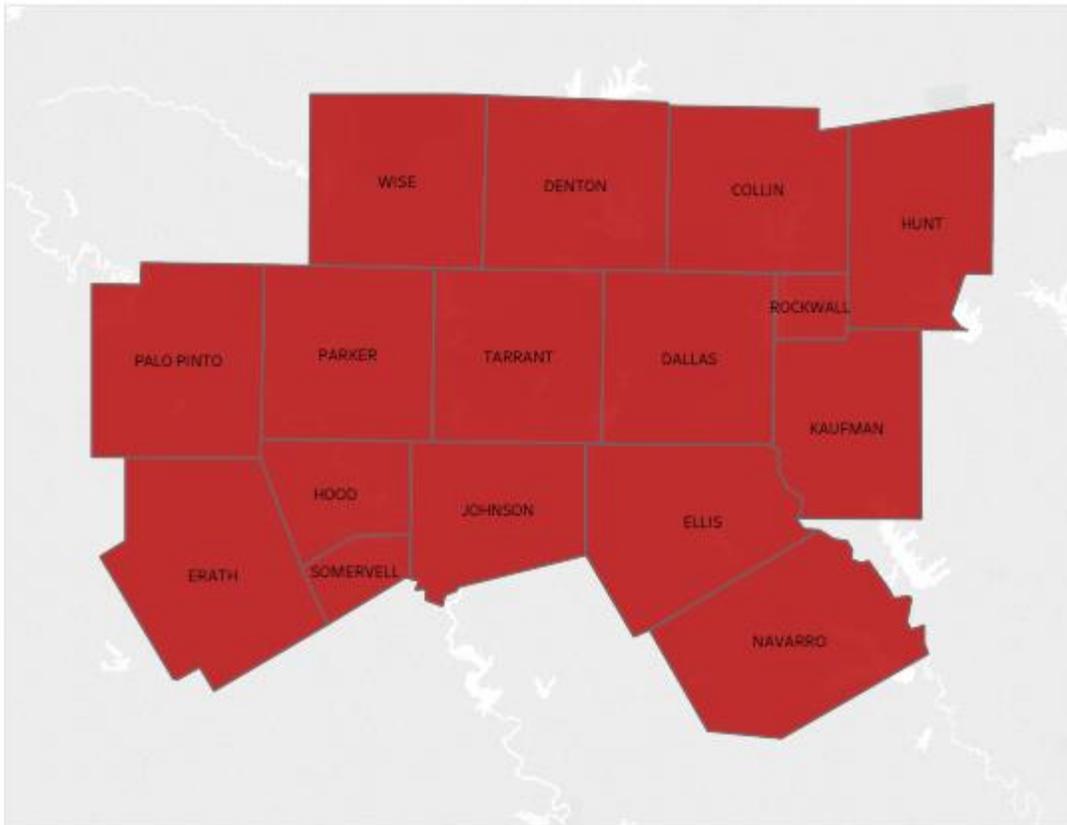

*Family Violence: An act by a member of a family or household against another member that is intended to result in physical harm, bodily injury, assault or a threat that reasonably places the member in fear of imminent physical harm. The reasonable discipline of a child is excluded from consideration as family violence. Family Violence offenses are **not** mutually exclusive with UCR offenses. In other words, a family violence incident that results in assault charges will be counted toward assault totals as well as family violence totals. Clearances are not catalogued for family violence and sex assault cases/incidents, therefore clearance rates for these crimes are unavailable.*

Population: Population estimates are drawn from the Texas Demographic Center's Population Projections by Migration Scenario Data Tool. Full 2000-2010 migration levels are assumed.

Sexual Assault: This value is a broad category which includes offenses for all of the following crimes: Continuous Sexual Abuse of Young Child, Indecency with a Child by Contact, Indecency with a Child by Exposure, Sexual Assault, Aggravated Sexual Assault and Sexual Performance by a Child. These offenses are mutually exclusive with UCR offenses. In other words, if an offense is classified as a rape, it will not be counted toward sexual assault totals. Clearances are not catalogued for family violence and sex assault cases/incidents, therefore clearance rates for these crimes are unavailable.

Definitions - Juvenile Justice

Clearance: Cleared by Arrest or Exceptional Means – For Uniform Crime Reporting purposes, an offense is cleared by arrest or solved when at least one person is arrested, charged with the commission of an offense and turned over to court for prosecution. In certain situations police are not able to follow these three steps and, if the following four conditions can be met, the offense can be cleared exceptionally: (1) the investigation has definitely established the identity of the offender; (2) there is enough information to support an arrest, charge, and turning over to the court for prosecution; (3) the exact location of the offender is known so that he could be taken into custody; (4) there is some reason outside the police control that prevents the arresting, charging, and prosecuting of the offender.

Community Youth Development (CYD): The CYD program contracts with community-based organizations to develop juvenile delinquency prevention programs in ZIP codes with high juvenile crime rates. Approaches used by communities to prevent delinquency have included mentoring, youth employment programs, career preparation, youth leadership development and recreational activities. Communities prioritize and fund specific prevention services according to local needs. CYD services are available in 15 targeted Texas ZIP codes.

Property Crime: “Property Crime” is an aggregation of Uniform Crime Reporting-defined larceny, burglary, and auto theft. Given the relative frequencies of occurrence for these crimes, this statistic is mostly defined by larceny totals.

Services to At-Risk Youth (STAR): The STAR program contracts with community agencies to offer family crisis intervention counseling, short-term emergency respite care, and individual and family counseling. Youth up to age 17 and their families are eligible if they experience conflict at home, truancy or delinquency, or a youth who runs away from home. STAR services are available in all 254 Texas counties. Each STAR contractor also provides universal child abuse prevention services, ranging from local media campaigns to informational brochures and parenting classes.

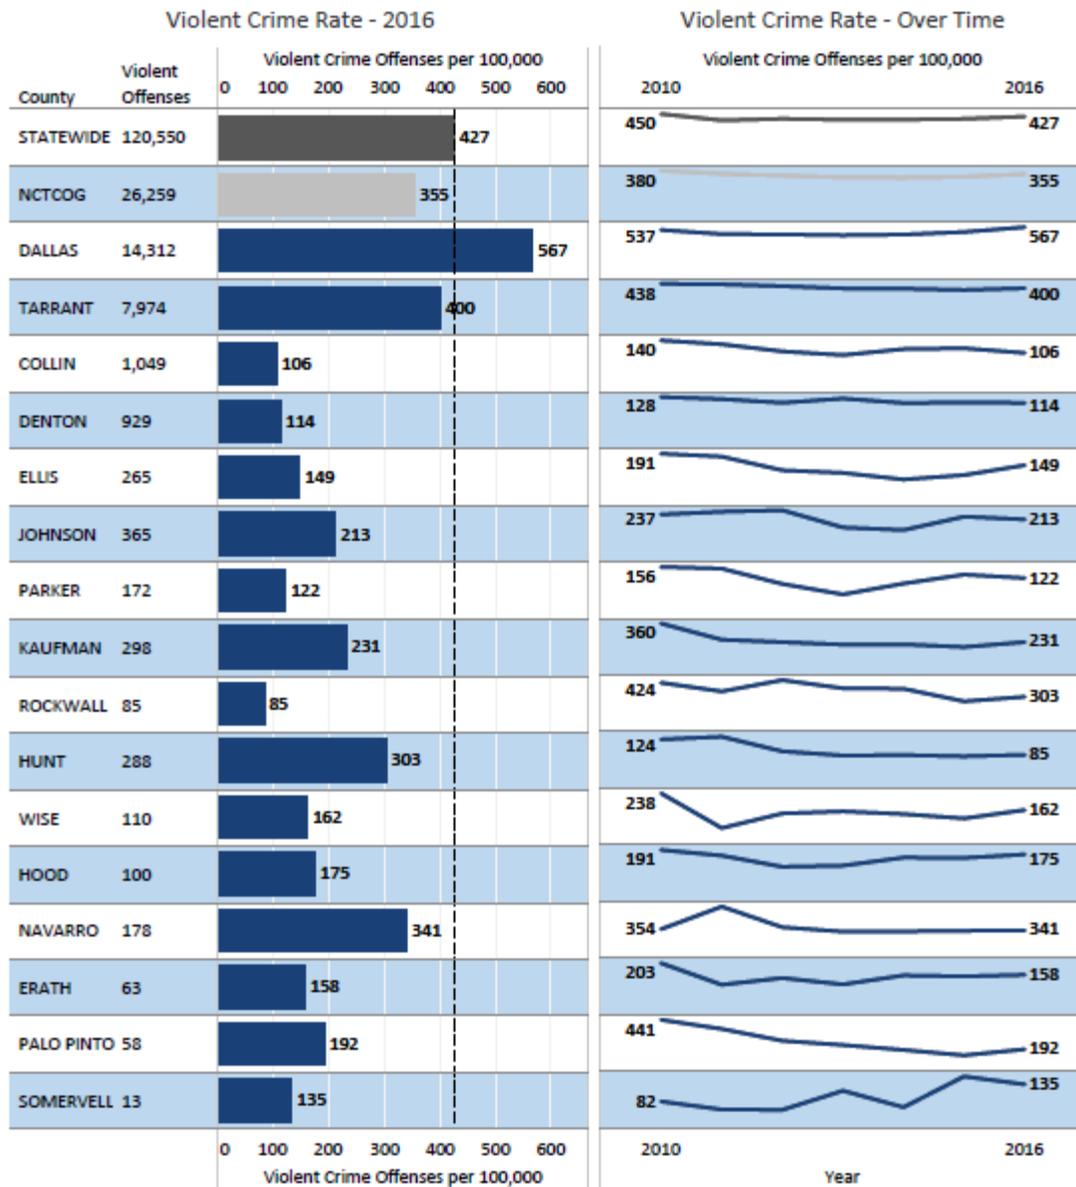

Statewide Youth Services Network (SYSN) - The SYSN program contracts provide community and evidence-based juvenile delinquency prevention programs focused on youth ages 10 through 17, in each DFPS region.

Violent Crime: “Violent Crime” is an aggregation of Uniform Crime Reporting-defined murder, rape, robbery, and assault. Given the relative frequencies of occurrence for these crimes, this statistic is mostly defined by assault and robbery totals.

Youth Clearance: Youth offenses are unavailable for reporting. However, offenses cleared where the offender was under 18 are available, and this measure is used instead as a proxy for the youth crime rate.

Youth Population: Youth Population (ages 10-17) estimates are drawn from the Texas Demographic Center's Population Projections by Migration Scenario Data Tool. Full 2000-2010 migration levels are assumed.

Source: Office of the Governor’s Criminal Justice Division Resources for Local Criminal Justice Planning – October 2017

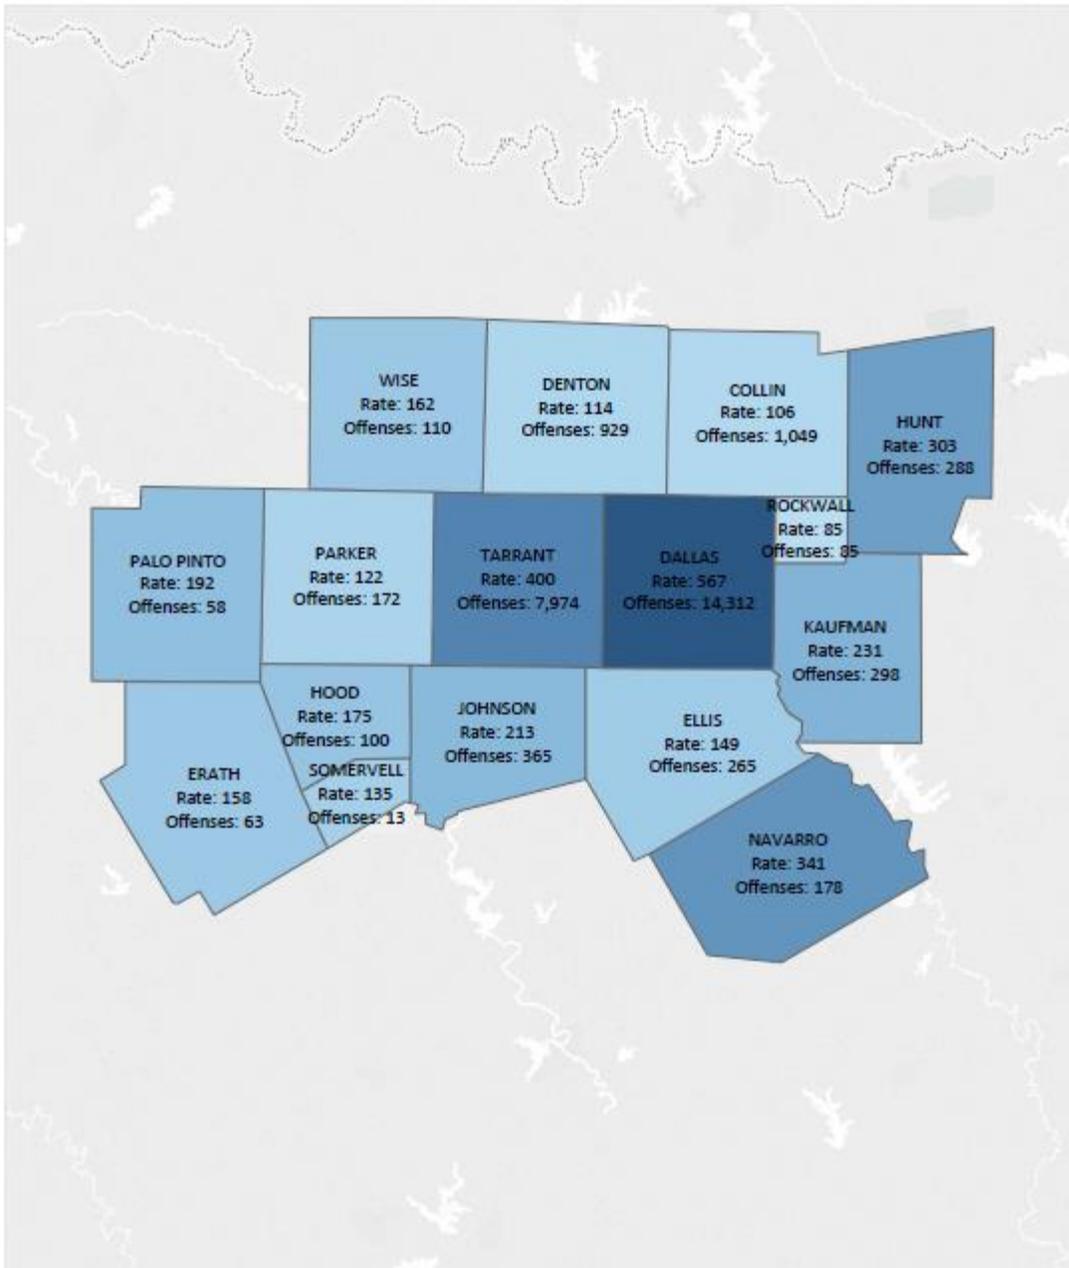

Notes:

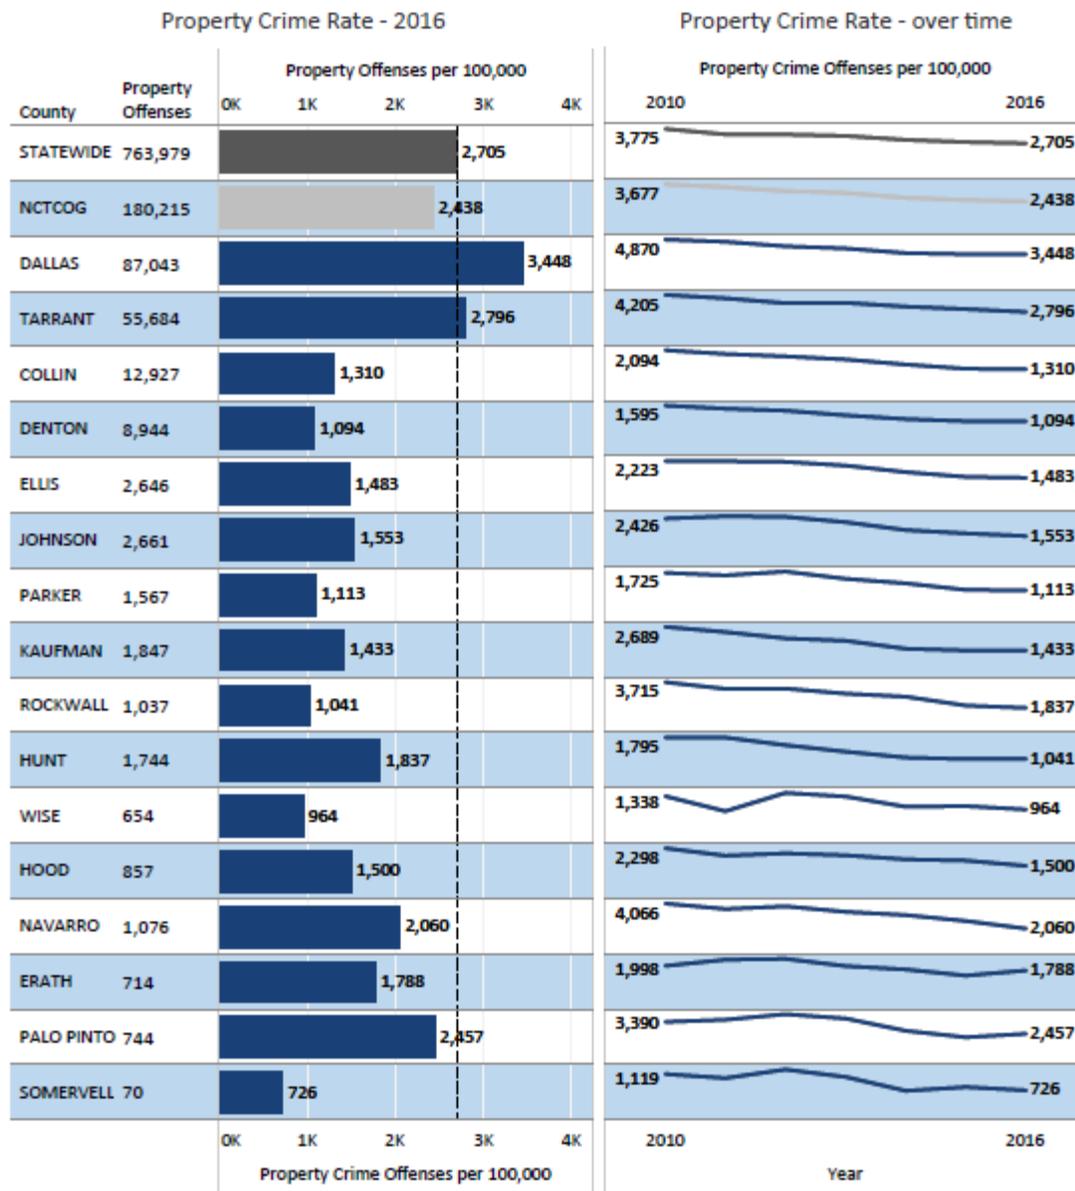

- Rate is combined Uniform Crime Reporting-defined Murder, Rape, Robbery, and Assault offenses per 100,000 total population.
- County Population estimates come from the Texas Demographic Center Population Estimates and Projections Program. Rates therefore may differ slightly from DPS county-level estimates, which use UCR jurisdictional populations.
- Any missing data is missing from original agency reports to Department of Public Safety.

2018 Population Estimates

North Central Texas Council of Governments | April 2018

Population Estimates

Population estimates are based on current housing inventories for cities in the NCTCOG Region with populations of 1,000 or more. Cities are listed in the county that contains the majority of the city's population.

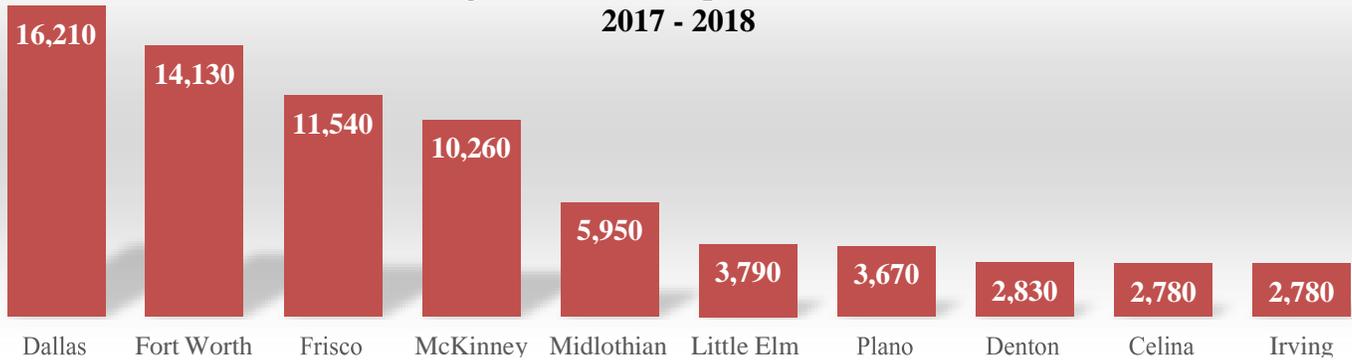

Executive Summary

The estimated January 1, 2018 population for the NCTCOG region is 7,390,080. Last year, the region added 143,070 people. In 2017, 12 cities grew by more than 10%. The city of Dallas led the region in growth, adding 16,210 people last year while Fort Worth added 14,130, followed by Frisco with 11,540. Collin, Denton, Dallas, and Tarrant counties each added more than 20,000 people last year, accounting for 82% of the regional growth.

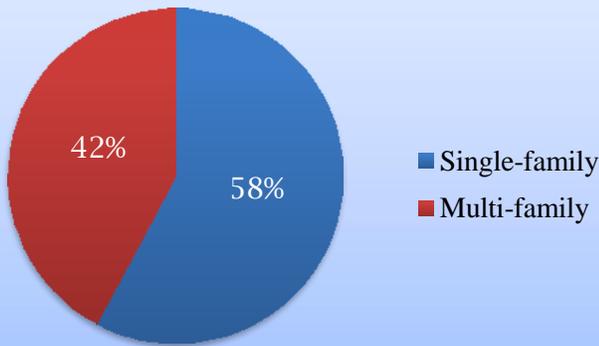

Residential construction continued to trend upward as more corporate relocations have continued to play a major role in the surge in growth. Since 2000, the region has grown by over 39%. More than 48,000 new residential units were completed in 2017 making last year the most active year for new residential construction since 2007. The city of Dallas led the way in residential units with more than 9,000 completions last year. More than 80% of these new units were multi-family. Dallas accounted for one third of all new multi-family units added to the region in 2017. Fort Worth had more than 6,000 residential completions. The top 10 cities in new construction accounted for 60% of all units built last year. The north central Texas region should continue to be one of the leading destinations for people looking to relocate to an area with a mild climate, relatively low cost of living, as well as a vibrant and diversified workforce.

NCTCOG Region

This publication and other data produced by RIS can be found on the Regional Data Center: <http://data-nctcogis.opendata.arcgis.com/>.

2018 Population Estimates Methodology

NCTCOG uses the housing unit method for estimating current year population:

$$\text{Estimated household population} = \text{estimated units} * \text{estimated occupancy rate} * \text{estimated persons per occupied unit}$$

The calculation is performed for each unit type (single family, multi-family, other). The results are summed along with an estimate of group quarters population to arrive at a total population estimate. Every year, cities are asked to provide information about changes in housing stock and population in group quarters housing. Cities are also given the opportunity to review figures prior to release. The 2017 population estimates for some cities have been revised. The estimates included herein supersede any prior estimates.

Split Cities

County population totals are adjusted for cities that have boundaries in more than one county. Cities that extend outside the NCTCOG Region show the city total. However, the portion of the city's population that is not in the region is not included in the county or regional totals. Cities whose boundaries extend into the NCTCOG Region, but do not have a majority of their population within the region are not included in the city listings.

Split Cities

Azle	Flower Mound	Mabank	Rowlett
Burleson	Fort Worth	Mansfield	Royse City
Carrollton	Frisco	Mesquite	Sachse
Cedar Hill	Garland	Mineral Wells	Seagoville
Celina	Glenn Heights	Newark	Seven Points
Combine	Grand Prairie	Ovilla	Southlake
Coppell	Grapevine	Plano	Springtown
Cresson	Haslet	Prosper	Trophy Club
Crowley	Heath	Reno	Venus
Dallas	Josephine	Richardson	Westlake
Ferris	Lewisville	Roanoke	Wylie

Disclaimer: There are a variety of ways to estimate population for a given area. The North Central Texas Council of Governments has selected a method that accommodates the varying level of data available for local communities while focusing on consistency. These estimates were developed for regional planning activities and have not been evaluated for other uses. They are provided as an informational item and are likely to differ from estimates produced by others, including the cities and counties listed herein. The North Central Texas Council of Governments makes no warranty, express or implied, including warranties of merchantability and fitness for a particular purpose. Research and Information Services (RIS)

NCTCOG's Research & Information Services Department performs demographic research on such topics as population, housing, and employment estimates; population, household, and employment projections; development monitoring; major employers; land use; and tabulation/analysis of Census data. The department also provides support to a regional Geographic Information System (GIS) and NCTCOG's internal computer network. Custom maps, data analysis, and special products are provided on a fee-for-service basis. To learn more about RIS at NCTCOG, visit: www.nctcog.org/ris.

North Central Texas Council of Governments

The North Central Texas Council of Governments (NCTCOG) is a voluntary association of, by, and for local governments, and was established to assist local governments in planning for common needs, cooperating for mutual benefit, and coordinating for sound regional development. NCTCOG's purpose is to strengthen both the individual and collective power of local governments and to help them recognize regional opportunities, eliminate unnecessary duplication, and make joint decisions. To learn more about NCTCOG, please visit www.nctcog.org.
