Traffic Incident Management: First Responder and Manager’s Course – Schedule of Classes

Description: The goal of the Traffic Incident Management (TIM) training course is to initiate a common, coordinated response to traffic incidents that will build partnerships, enhance safety for emergency personnel, reduce upstream traffic accidents, improve the efficiency of the transportation system, and improve air quality in the Dallas-Fort Worth region. Specific courses have been designed for both first responders and managers, and executive level policy makers. Each course explains the goals, objectives, and benefits of multi-agency incident management coordination and training. Students are eligible for Texas Commission on Law Enforcement (TCOLE) and Fire Commission credits. Students are also eligible to receive Emergency Medical Services (EMS) Continuing Education Credits (CEUs) – upon successful completion of an EMS student exam. The course is also equivalent to the SHRP2 National Traffic Incident Management Responder Training Program.

Learning Objectives: In this course, the “best practices” methods used throughout the country will be discussed in detail. Local incident management policy and procedures will be discussed. This course is specifically designed for those with daily involvement in responding to traffic incidents on the region’s freeways.

Special Instructions: Cost: Free – for all police, fire, TxDOT, EMS, media, towing, CDA, and other public sector agencies in Collin, Dallas, Denton, Ellis, Hood, Hunt, Johnson, Kaufman, Parker, Rockwall, Tarrant and Wise Counties.
\$225 – For all private consultants, police, fire, TxDOT, EMS, media, towing, CDA and other public sector agencies outside of Collin, Dallas, Denton, Ellis, Hood, Hunt, Johnson, Kaufman, Parker, Rockwall, Tarrant and Wise Counties.
